EAGLES MERE.

There was a special meeting of the Post Office Club the other day to quietly celebrate the return of Councilman Kehrer. Nothing took place at the meeting of a nature that need make the non-resident tax payers uneasy although there was some gentle talk about raising a special tax to provide food and lodging for the cats the "non-residents" left on the mountain last fall to winter over. One member reported that he had sixteen cats now to where he had one last fall, but the mention of "16 to 1" brought on a heated discussion. To add to the heat a nasty little street gamin stuck his head in the door and yelled "Socialism!" this only added to the heat and the atmosphere was getting so hot that the president fearing a thaw would come before he got his fire wood hauled over the Bucks-wood road adjourned the meeting before any action was taken on the matter.

Your Municipal Ownership correspondence is closely watched by our people and there are quite a number of our voters who think the Borough ought to own the Light Plant as well as the sewers. Under the able management of our fellow citizen Mr. Benj. G. Welch, the plant has certainly been a complete success in every sense of the word, and is bound to be a much greater success in a financial way as each year goes on. The financial part as a profit could not be considered, however, as the borough furnishing water or light to its inhabitants must do it at cost price. Of course the extra revenue derived from the summer business could be used in carrying the plant throughout the winter months. There is no doubt but that the Light Co. would ask only a fair price for the plant, for a number of the largest stockholders have repeatedly said that they were not anxious to make money from the plant so far as Eagles Mere was concerned. It was established for their own comfort and to place beautiful Eagles Mere on an equal footing with other resorts, so far as light is concerned, and it can be truthfully said that they are furnishing a light that is not often equaled by the most expensive plants in the country. The cost of operating this plant is remarkably low, when the quality of light is considered. In the event of the Light Co. refusing to sell at a fair price (which of course is not likely) the right of eminent domain which says "if just compensation be made to the corporations, the property can be taken without its consent," might be used. On petition to the Court of Common Pleas, viewers will be appointed to assess the value of the plant and works taken. The viewers are not to be stockholders of the company nor residents of the borough. If the Borough owned the plant all could get the light both summer and winter at low price. No doubt Mr. Welch, the present efficient manager for the company would be as willing to give his services and render his accounts to the Borough as to the Company. The question of municipal ownership is a deep one and we are all glad that you are giving it so much space in your columns.

The Rev. Fisher who has taken the Rev. Bradfords place, preached here last Sabbath day, and in a very up-lifting sermon gave great satisfaction to his large congregation. It is said that Burgess Ingham and Councilman Kehrer attended service and immediately after their return from church the clouds from heaven descended and our mountain top remained submerged in fog for many hours.

A stray photographer with a "quick as lightning camera" was here the other day, and one of our prominent "hoosiers" thought it would be a fine thing to have his photo taken while riding down the ice slide. Accordingly he mounted his "tobogg" and started on the down trip, Mr. Snap-shot clicked his machine and all was over. When the photograph was developed it simply showed a long black streak with bulging eyes holding with a death like grip, to what looked like a long

stick rounded at the front end. No use talking our slide is certainly swift.

It has long been expressed thought of the summer boarder and cottager that the "hoosiers" (meaning the all-the-year-round residents of Eagles Mere) crawl into their hole as soon as the last city chap leaves and slowly and quietly sleeps there until said city chap comes rapping at the door of Eagles Mere, in the spring time when the flowers begin to peep and the little frogs have ceased their creak. It must be confessed that heretofore much could be truthfully said of the quietness and slowness of the Eagles Merejan's winter sleep, but this winter is surely an exception for there has been no gayer town of its size within forty miles. The ice slide has attracted the most attention of any one thing. Aside from being unique in manner of construction it proves that the builders were wide awake enough to build something swift. Talk about any one being asleep on that slide! Why even the engineer and crew of the Eagles Mere Lightning Express acknowledge its swiftness. They tried the "tobogg" the other day and before half the distance had been had been past the engineer, conductor and all the crew were hooting out "toot, toot, toot," for down break. It was of no avail however, for the toboggans here care not for general managers, superintendents or high and mighty potentates of any kind, and shot the boys across the Lake in less time than it takes to change the Eagles Mere R. R. time table.

Seldom has so large a concourse of persons assembled in Sullivan County as that which attended the funerals of brakemen E. E. Darling and Thomas Swank, whose funerals took place at Sonestown on Thursday last. The terrible accident which occasioned their deaths and the popularity of the two young men, who met with such an untimely end, contributed to swell the crowd which undoubtedly surpassed any similar assemblage ever witnessed at Sonestown. The funeral of Mr. Darling took place at 10 o'clock a. m. the services being held at the M. E. Church. The Sonestown Camp P. O. S. of A. of which he was a member attending in a body. The funeral services being conducted by the Rev. Biggs who preached an impressive sermon.

The funeral of Thomas Swank took place at 2 o'clock p. m. and was even more largely attended. Beside nearly all the people in the vicinity, there were large delegations from Satterfield, Dushore, Laporte, Hughesville and other towns along the line of railroad. It was estimated that fully six hundred people were in attendance at these services. The funeral sermon was also preached by the Rev. Biggs. The floral tributes were magnificent and evidenced the love and esteem in which the deceased were held. After the services were concluded and all the friends had taken a last sad look at the departed ones, the friends accompanied the remains to the cemetery where all that remained of the two young men was consigned to the grave. Peace to their ashes.

Card of Thanks.

Mr. D. W. Darling and family wish to extend their thanks to the people of Sonestown and vicinity for their kindness and sympathy in their hours of bereavement over the sad death of their son.

Charles Tinklepaugh Dead.

Chas. Tinklepaugh of Williamsport, formerly a resident of this place, met with a fatal accident last Friday while engaged at carpenter work on a railroad bridge near Clearfield. He was struck on the head by a piece of falling timber causing concussion of the brain and lived but a short time after the accident. Funeral services were held at his late home on Monday afternoon. He leaves a widow and one daughter to mourn his loss.
