Weak Heart From Attack of LaGrippe.

Palpitation, Smothering, Short Breath.

Dr. Miles' Heart Cure Cured Me.

Cured Me. The terrible after effects of LaGrippe are most dangerous when they attack the heart, the engine of life. Weak hearts are as com-made upon the weak heart, that organ soon becomes a diseased heart and the patient will unless promptly treated, suffer long and eventually die of heart disease, the dread of millions. Dr. Miles' Heart Cure strengthens and regulates the heart's action, enriches the blood and improves the circulation. "Some years ago I had an attack of the frapitation, shortness of breath and smother-ing spells that made me sit up in bed to my on the veak of sleep, made me most mistable. "ALWAYS A GRANGER."

The True Purposes of the Grange Should Be Made Known.

A few days ago, in conversation with the master of a grange we had just organized, says a writer in Farm and Fireside, he said, "Why, I've always been a granger, but didn't know it." That one pointed remark aptly an-swers the question so often asked by grange workers-why men and women whose sympathies are in line with ours do not unite with us. This man was progressive, anxious to secure for his family and friends the very best ad-vantages possible, but felt powerless alone. In the grange he found others desired the same things he did and discovered the chain of sympathy that binds men together the world over.

'But I have explained the objects of the grange many times," the worker protests. True. So have I, and I often find myself indulging in stock phrases and stereotyped expressions that con vey but little to my hearers. First find the ambition of the one you seek to convince, and if the grange will aid him show him so in terms he will appreciate. The hearts of the best peo ple on our farms are with us did they but know the true meaning of the grange, and we owe it to them and to ourselves to secure their allegiance. There are thousands of excellent men and women who have "always been grangers" who are out of the order be cause they have no accurate knowl edge of what its true purposes are.

HON. E. B. NORRIS.

Master New York State Grange and Chairman National Executive Com mittee.

The chairman of the executive com mittee of the national grange and a member of the legislative committee of the same body must be a man of force and ability. Such a position is held by such a man in the person of E. B. Nor-ris of Sodus, N. Y., who is also master of the New York state grange, a body representing 70,000 members.

Brother Norris was a charter member of Sodus grange, No. 73, having thus a connection with the Order of about thir-ty years. He was master of Sodus

the education of the agricultural class to a higher conception of their calling and a keener sense of their responsibilities as American citizens. ORIGIN OF THE GRANGE. Some Historical Facts Concerning the Organization of the Order. From the Michigan Patron we take

following historical facts relating to the institution of the Order of Patrons of Husbandry:

trons of Husbandry: The first subordinate grange was or-ganized in Washington the 5th day of January, 1868, as a school of instruction, with William M. Ireland as master. The first dispensation for a grange was granted at Harrisburg, Pa., the 4th day of April, 1868, but the first regular subordi-nate grange to which a charter was issued was organized at Fredonia, N. Y., the 16th deay of April, 1868

nate grange to which a charter was issued was organized at Fredonia, N. Y., the leth day of April, 1868. The first state grange, that of Minne-sota, was organized the 22d day of Febru-ary, 1869. The new Order made slow prog-ress up to 1872, only 257 granges having been organized in the entire country. During the year 1872, 1,105 were organized, and the Order had an existence in twenty-two states. The irst meeting of the national grange as a delegate body was held at George-town, D. C., the 5th day of January. 1873, with six of the founders of the Order and seventeen delegates present, representing eleven states Six of the delegates were masters of state granges, and the remain-der were deputies in the Order.

At the last session of the national grange twenty-seven states were represented by regularly appointed dele-gates, and the total membership is now about 600.000.

Vermont has eighty subordinate granges and a total membership of about 5,500, according to the last report of the state grange secretary.

There is great educational benefit in conferring the degrees well.

All the officers in North Brookfield,

(Mass.) grange are women.

EMPIRE STATE PATRONS. The Grange a Growing Power In

New York. The yearly session of the New York state grange in Syracuse made a very pleasant and impressive revelation of the growth of the Patrons of Husbandry in the Empire State. The reports generally showed the Order to be a growing power in the state. It is not easy to understand why farmers in the states do not realize the value all of the grange as the promoter and protector of the interests of farmers, but it is reassuring to note that intelligent farmers are coming into the Order in greater numbers than ever before. The community that has a live grange is always a community in which intelligence predominates, in which refined society rules, in which education is valued, in which scientific agriculture is the rule and in which the are seen at their best. New York leads most of the states in advanced country life, and it is proper that the grange should be a conspicuous feature of rural life in the state. Members of the Order everywhere will be pleased to note the growth of the grange in New York.-New York Farmer.

New Jersey State Grange.

The New Jersey state grange was reported at its last annual session to be in a flourishing condition. Total assets were \$33,444.28. G. F. W. Gaunt of Gloucester was re-elected master for the ensuing year. Granges are doing a considerable business in co-operative ouying, the banner grange reporting a business of \$33,000. These resolutions were adopted: Favoring the appoint-ment of a committee for the purchase of fertilizing material for all the granges of the state, with a formula for the different crops and instructions for mixing the same; asking the legis-lature to make it a misdemeanor to kill calves for food under fourteen days old; to allow trolley lines to carry freight; asking for a law which will class all game on one's premises as domestic animals and subject to the same laws.

Possibilities of the Grange Mrs. Sarah G. Baird, worthy master of the Minnesota state grange, says: The possibilities of grange work when conducted in conservative channels are limitless for the development of the rural sections of our state, but impatient, ill advised action will wreck it. With great earnestness we ask you to

Being Right With God. If right with God, there is comfort in the thought of a final reckoning of all accounts, when and where all wrongs shall be righted. If right with God, you cannot be wrong with any-thing or anybody. If not right in relation to God, you are out of relation to everything and to everybody.—Rev. N. H. Lee, Methodist, Denver.

Responsibility For Thoughts. A man is as responsible for his thoughts as his actions. In fact, a man's actions are but his embodied thought. Wrong doing feeds on wrong thinking. Coarse thinking is the nearest of kin to coarse actions. Right thinking about Christ brings right thinking about every relationship of life.—Rev. Dr. Harlan, Brooklyn.

NEW HAMPSHIRE GRANGES.

Much Interest In Rural Free Mail Delivery and Fire Insurance. We glean the following facts from the annual address before the New Hampshire state grange of Governor

N. J. Bachelder, late master: The grange has experienced a pros perous year in New Hampshire, and the present membership of 25,109 shows a net gain over all losses of 962. The 6,000 meetings held have been well attended. For fourteen years the Grange Mutual Fire Insurance com-pany has been maintained. The business has annually increased, and the property upon which policies are now in force amounts to about \$6,000,000. All losses and expenses have been promptly paid, making a saving of over \$100,000 over the cost of insurance upon the same property in stock com-panies. The establishment of rural free mail delivery is one of the grandest achievements of the Order. In New Hampshire ninety-five routes have been established, exceeded only by 113 in Maine and 134 in Connecticut. New Hampshire stands second in the number of pieces of mail handled on its rural routes during the year, reaching 4.017.612. The life insurance branch of the order is reported as successful, the present number of members being about 600.

Farm Bookkeeping.

No business man can get along successfully without striking a balance now and then to see where he stands. Bookkeeping is a necessary element in commercial success. It is just as necessary for the farmer to examine his assets and liabilities from time to time to ascertain if he is making a profit or a loss as it is for any other business man. Farmers have not been doing business on business principles and only one result could follow.

The Subordinate Grange.

The subordinate grange is a link in the great chain now stretching from ocean to ocean, binding hundreds of thousands of the men and women of the farm in a fraternal body and by sacred obligation to put forth every effort to raise the standard of intelli-gence among the tillers of the soil and secure a just distribution of the burdens of society, as well as of the fruits of our labor.—O. Gardner.
