

I Used

Dr. Miles' Nervine and Anti-Pain Pills.

Cured Grip—Did Full Day's Work.

Anti-Pain Pills, the Best Headache Remedy.

"I wish to say I have used your Anti-Pain Pills and Nervine for La Grippe and knocked it out and kept up my full day's work. I have also used Dr. Miles' Anti-Pain Pills many times during the past year for headache and always with most gratifying results. I consider them the best headache remedies. I have also used your New Heart Cure in my family with excellent results. Actual experience with these three of your remedies have proved so beneficial that I cheerfully recommend them to others."

MERRITT M. DAYTON, Business Mgr. Ithaca Publishing Co., Publishers Ithaca Daily and Weekly News, Cornell Daily Sun, Cornell Alumni News, 202 N. Tioga St., N. Y.

In itself La Grippe is very dangerous, but in its after effects it is one of the most deadly scourges that afflict mankind. It shatters the nervous system, weakens the heart's action, and lays the foundation for heart disease. The accompanying fever consumes the vitality and renders the patient susceptible to pneumonia, bronchitis and catarrh. The best treatment consists of Restorative Nervine which quiets the nerves, soothes the brain, restores strength and vitality to the entire system; Dr. Miles' Nerve and Liver Pills, a nerve tonic acting directly on the nerves of the digestive organs causing them to act in a natural and healthy manner, and Dr. Miles' Anti-Pain Pills which speedily relieve the torture of headache, backache and soreness, the most common symptoms of Grip.

The Soil of the Mind.

The laws of growth and development require the constant stirring of the soil of the mind, and today there is no organization capable of doing so much for the future of the state through its members as the grange.—Maine Farmer.

The resources of the national grange amount to \$64,228.56, quite a respectable sum.

Last year 256 new granges were organized. Michigan led with ninety.

For liver trouble and constipation There's nothing better in creation Than little early risers, the famous little pills, they always effect a cure and save doctors bills. Little early risers are different from all other pills. They do not weaken the system but act as a tonic to the tissues by arousing the secretions and restoring the liver to the full performance of its functions naturally.

Follow Where Christ Leads.

If we go astray, it shall not be for lack of a bath, but for not following where Christ leads. We are simply to go forward to Christlikeness.—Rev. Mr. Helms, Methodist, Worcester, Mass.

Good For Children.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of cough, croup and laryngitis because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues.

A Continual Warfare.

The conflict of the world spirit and God is analogous to the continual warfare waged between the flesh and the spirit in the person of every member of the human race.—Rev. F. W. Norris, Episcopalian, Brooklyn.

Due Notice is Served.

Due notice is hereby served on the public generally that Dewitts Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated Witch Hazel. Dewitts Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine Dewitts Witch Hazel Salve are never disappointed because it cures.

Religion Enriches Life.

Religion satisfies because it enriches life. It opens the way into a new kind of joy. It brings into play a new range of activity. Thus Jesus said that he came to widen out the circle of human appreciation. The purpose of religion thus considered is akin with the purpose of all progress. It is to teach new truth, to awaken new aspiration, to develop new possibilities, to round out more fully the natural life of man.—Rev. George Hodges, Pittsburg.

A Sweet Breath.

is a never failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, Ky., writes, "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like. Kodol digests what you eat and makes the stomach sweet."

ENGLAND AND THE TREATY

The Folly of Trying Our Hands For Cuba's Sole Benefit.

It has always been the contention of this government—and it rests upon sound reason—that the "most favored nation" clause in commercial treaties does not preclude reciprocity treaties. We may grant concessions on imports from France in consideration of French concessions on our exports without entitling Germany to the same concessions from us, that country not having made the compensating concessions on our goods.

But the amendment made by the senate in the Cuban reciprocity treaty at the instance of the beet sugar interests raises a very different question. The amendment prohibits for five years any diminution in the sugar duties, which would prevent the ratification of any other reciprocity treaty reducing sugar duties. The amendment is entirely improper. Cuba did not ask us to bind our hands, and it is absurd that we should give Cuba more than she asks. It would be improper to bind ourselves in that fashion if she did ask it. Besides being inherently improper, it threatens a serious controversy with Great Britain, which will naturally seek to get for the sugar of her West Indies the same concession Cuba will get. She has no right to it except upon like terms, but it is altogether probable that under the "most favored nation" clause she would be entitled to it if she should pay the equivalent price for it.

A reciprocity treaty was negotiated with Jamaica by the McKinley administration, and it was left to die in the pigeonholes of a senate committee. Now it is proposed that we shall not only make a reciprocity treaty with Cuba, but shall make that treaty exclusive. The department of state will be put to some trouble to justify that if other sugar producing countries shall ask for like agreements.—Philadelphia Record.

WHAT IT MEANS.

Under the Dingley Tariff We Get Better Blankets and Less Shoddy.

Our free trade friends upon the Philadelphia Record are worried about a report that the production of woolen blankets has been decreasing. Thus the Record says:

"The able and comprehensive census bulletin on woolen manufactures says on page 81 of the manufacture of woolen blankets in the United States, 'In 1899 the quantity reported was 20,703,644 square yards, valued at \$7,153,900; in 1900 it was 18,155,505 square yards, valued at \$5,200,959.' Does not this reveal a most remarkable industrial phenomenon for the consideration of the American people in a large decline of the production of blankets in face of an increase of 13,000,000 in the population of the United States? Is this due to the benign influence of the sacred Dingley tariff in prohibiting the importation of wool for blankets into a market in which the domestic supply of wool is wholly inadequate for consumption?"

If the facts are as reported, a search for an explanation of them may be interesting. We may rule out at once the theory that the American people in a period of really unexampled prosperity cannot afford to buy as many blankets as they could when they were not prosperous. The true explanation, of course, is that with a high tariff which has reduced our imports of shoddy almost to nothing American manufacturers are making blankets of such good stuff that they last longer and therefore are called for in smaller quantities. Here, then, is still another blessing, heedlessly passed over by the Record, that the Dingley tariff has brought to the fortunate American people.—Textile Record.

The Duty Of Coal.

After me, the deluge, is the motto of the free trader. If an opportunity to make a fortune for a few in the importing business can be manufactured, the millions who will be thrown out of work may limp back to prosperity any way they like or can.

All of this cry about the tariff is made by interested parties and demagogues—one in hopes of making money, the other because he is "ag in the government," and a political change may make a place and profit for him.

The duty has been removed from coal, but no more coal will come from abroad than came before.

It would be the same with beef if the duty were removed. No one would know the difference between free beef and duty paid beef.

On a rising market the amount of the duty cuts no figure. The duty on coal was 67 cents a ton. That did not keep it out under ordinary circumstances, nor did it bring it in when coal rose to a dollar more a ton, much less when it rose to double the normal price.

The removal of the duty from coal may be of use as an object lesson. It may convince the people who do not understand the tariff that the claims of the demagogues are untrue. There is no other possible benefit.—Jersey City Journal.

The Newfoundland Treaty.

This new plan follows closely the lines of the Bond-Blaine negotiation of eleven years ago. Its weakness is that it apparently injures the deep sea fishing interests of Maine and Massachusetts. They will make a vigorous protest, and they have large influence throughout the country and at Washington. Little by little we have sacrificed our maritime industries until only a shadow of our former ocean strength is left away from our own seacoasts. At the same time it will be acknowledged that the free importation of fish from Newfoundland does not begin to be so grave a menace to our New England fisheries as such competition from the larger, bounty fed fisheries of the Dominion of Canada.—Boston Journal.

His Innocent Client.

This story is told of a celebrated North Carolina lawyer who was practicing in a backwoods mountain district: While he was waiting for his case to be reached the trial of a notorious highway robber, who had been caught red handed, was called. The prisoner had no counsel, and the presiding judge requested the distinguished lawyer to defend him. The trial lasted two days and, to the court's astonishment, the jury returned a verdict of acquittal. As the prisoner was about to be discharged, the lawyer stepped up to the judge and requested a few words in private.

"What is it?" asked the court.
"I would ask your honor," replied the lawyer, "to have the prisoner detained in jail tonight. I have to cross a lonely field on my way home and the rascal happens to know that I have money about me."

Cold Feet.

Cold feet are a sign of disordered circulation. Continual warming with artificial heat is but temporizing with the evil, and the difficulty should be overcome by proper dressing when that is in fault and by foot and ankle exercises. The latter can be taken at frequent intervals during the day, and they will assist in stimulating the circulation of the blood. Point the toes down to the extreme limit till you feel the muscles strain over the ankles and work the feet up and down eight or ten times; then devitalize them and shake them from the ankle, as one does the hand with a loose wrist. Sufferers from cold feet in bed can quickly warm them by this exercise, and it will bring relief and comfort during a long ride.

The Need of Action.

What we need is action. The glory of the Lord depends upon those who will take hold and move forward.—Rev. A. C. Ward, Baptist, Atlanta.

No Peace Without Christ.

A life without Christ is a life without peace. Without him it is possible to have excitement, pleasure, gratified passions, success, accomplished hopes. But peace, never. That you cannot have until you go to him. The Christless heart is like the sea that can rest. There is no peace for it. But in Christ you can get it for the asking. The chastisement of our peace was upon him. For our sakes he died upon the cross, so making peace. Trust him and the God of peace will fill you with all joy and peace in believing. Therefore bow your wills in obedience to his commands, and so your peace shall be: a river.—Rev. R. H. Carson, Presbyterian, Brooklyn.
