The necessity for great quantities of timber for railway ties emphasizes the advisability of preserving the forests. It has been ascertained that each mile of the 250,000 miles of the railway in the United States requires 400 ties per year. It takes fifty years to grow a tree that will make three ties and ordinarily requires 25 acres to furnish 400 ties.

The Secretary of Agriculture has made several addresses within the past week, in different parts of the country, advocating the teaching of elementary agriculture in the primary schools. Secretary Wilson is confident this method would add materially to the popularity of agricultural pursuits and emphasize the dignity of that profession.

The Laporte Boro schools closed on Wednesday with exercises appropriate to the occasion. The teachers, James M. Strohl, Miss Harriet E. Grimm and Miss E. Jessie Wrede, are to be congratulated on the success of their terms just closed.

Force
The Ready-to-Serve Cereal
for doctor and patient.

Jim Dumps' physician once fell ill. Said he: "I'll have no draught or pill." Said Jim: "Ho, ho, you're on the shelf. You who cure others, cure yourself." Then Jim sent up some "Force" to him. "That's what he needs," quoth "Sunny Jim."

Has Eaten Three Cases.
"I was attacked last May by appendicitis. As I showed signs of recovery doctor and I began to eat around for a suitable diet and as a result we fell upon 'Force,' which has been a wonderful boon to me. I have eaten almost three cases. H. H. MILLER."

The Interstate Commerce Commission have issued a bulletin on railroad accidents for the three months ended December 31, 1902. During that period, in train accidents 266 persons were killed and 2788 injured. The damage by these accidents amounted to \$2,462,056.

Governor Pennypacker recently indulged in sarcasm in vetoing the bill prohibiting the killing of bear and cubs except during the month of November. He says: "The bear is an animal not always of a gentle disposition and especially if it be a female bear with cubs. If a wanderer in the woods is attacked by such a bear in some other month than November what is he or she to do? Bears are sometimes the aggressors and prove to be injurious to the crops and the sheep pens of the farmer. Is he not to be permitted to protect his property save in the month of November? The bill provides that no bear is to be killed excepting with firearms. Should a woodsman be attacked by a bear while cutting down trees in the woods may he not use his ax?"

The Grange in Minnesota.
The subordinate granges in Minnesota are flourishing, and a healthy growth is everywhere manifest. There is some opposition manifest by people who would use the grange for their own purpose, but faithful members are working in season and out of season to block such schemes.

It is the farm that marks our progress; it is the barometer of our prosperity and commands for us our proud position that we occupy among our sister states. Farming is no longer a mere trade, but an art requiring industry and intelligent skill to make it a success. Thanks to the Order of Patrons of Husbandry, in Minnesota means are provided which will enable farmers to acquire this art and skill. Our agricultural college stands at the head of all such institutions as to quality and extent of work.—Mrs. S. G. Baird, Master Minnesota State Grange.

Illinois State Grange.
At the last session of the Illinois state grange resolutions were adopted in favor of central township schools; to give No. 2 corn its former grade in grain inspection system; for parcels post and postal savings banks; against one cent letter postage until the rural delivery is fully established; for the people to initiate and ratify important legislation; against ship subsidy; to manage state institutions under civil service rules; for highway control of motor vehicles; people to elect United States senators; for government control of monopolistic corporations; for the isthmus and inland ship canals; for pure food and anti-shoddy laws; for reciprocal treaties to widen foreign grain markets; to enlarge powers of the interstate commerce commission.

Rowes Corner (Me.) grange is only a little over a year old, but has 200 members and property valued at \$6,000.
