Mr. Keeler was a son of Edward Keeler, deceased. When a boy he lived with his Uncle T. J. Keeler, of Laporte, for several years and attended school here during that time. Deceased was about 34 years of age and leaves a wife and two children. The funeral was held at Williamsport on Wednesday at 10 a. m.

There is no line of business that will make a man an honest living that is all fun or even largely fun. All business is a struggle to the man who has to hustle for a living, and upon the earnestness he shows on his work his success depends. But there are means to make any business less wearisome, to relieve the drudgery that accompanies it. Farming is no exception. It can be made interesting or it can become year after year the same round of hard work and mental stagnation. Which it is going to be does not depend on the farm, the crops, the stock or any other material thing, but on the mind of the man. To the alert, studious man farming is a problem of never failing interest. It is always presenting new subjects; it is never wholly mastered, but always has the facination of the unknown. It demands more than the stupid routine of piece-work in the factory, and it is well that it is so. Every man who studies to infuse interest into his occupation is raising his work to a higher level and making it easier for himself and others.

The Civil Service Commission has received a call from the Phillippine Government for 150 male teachers, with salaries as follows: 25 at \$1,200; 70 at \$1,000 55 at \$900 per annum. It is desired to secure these teachers without unnecessary delay, and an examination will be held on October 19, and 20, in various cities. Peace has been established in the Phillippines and the conditions of living are steadily improving, therefore this call for teachers affords an excellent opportunity to young men who wish to follow the profession of teaching, and which offers fine opportunities for promotion. Teachers appointed will be promoted to higher grades in the service according to their ability. The salaries range from \$900 to \$2,000 for teachers and from \$1,500 to \$2,500 for division superintendents. The Commission wants only faithful, conscientious and energetic workers.

Voters should remember that they will have a new lesson to learn before they can vote intelligently this fall, the new ballots being entirely different from the old one. The old ballot had a separate column for each party which had made nominations. But one the new ballots the names of all the candidates for one office will be printed under the name of that office. For instance under the heading "State Treasurer," all candidates for that office will be printed. The name of the candidate will be first at the left, and at the right of his name will be the name of the party which nominated him. At the right of this party name will be a small square. If two or more parties have nominated the same man for the same office the name of each party which nominated him will be printed at the right of his name. At the top of each ballot there will be printed in large letters the names of the different parties which have made nominations, and a party name. If you want to vote a straight ticket you will put a cross in the big square at the right of your party name and that will be counted for the whole ticket. But if you want to cut your ticket you put a cross in the small square at the right of the name of the man for whom you want to vote. Don't put a cross in the big square at the top and also in the little square at the right of each candidate; if you do this neither one will count. Remember the big square is for a straight ticket, the little square 48 for a cut ticket.
