

Relief

From Headache and Neuralgia
In a Few Minutes After Taking

Dr. Miles' Anti-Pain Pills.
Chronic Case Cured.

"I cannot speak to highly of your remedies and I will always tell my friends how much they have done for my husband and myself for sudden attacks of headaches, neuralgia and rheumatic pains. There is nothing equal to Dr. Miles' Anti-Pain Pills. They are simply splendid and give relief in fifteen or twenty minutes. I used to be subject to attacks of headache, which had become chronic, and I took a course of Nerve and Nerve and Liver Pills in connection with the Anti-Pain Pills. The result is I now have very little trouble in that way. My husband has also taken these remedies and praises them very highly. We always have some of both kinds of pills in the house, and do not feel that we could get along without them.—MRS. KATE K. JOHNSON, McClellandville, Delaware.

There are many reasons why you should take Dr. Miles' Anti-Pain Pills, but the best reason is that they will give you almost instant relief from headache or other pain. In cases of chronic headache, when the sufferer knows an attack is coming on, a Pain Pill will usually prevent it entirely. In cases of extreme nervous exhaustion, when the brain is too tired and the body too nervous to rest, an Anti-Pain Pill will soothe the nerves so that sleep may come. They never fail, yet contain no opiates and are non-laxative.

All druggists sell and guarantee Dr. Miles' Anti-Pain Pills. They are non-laxative; contain no opiates, never sold in bulk, 25 doses, 25 cents. Dr. Miles Medical Co., Elkhart, Ind.

NEW YORK STATE GRANGE.

Proceedings of the Thirty-first Annual Session at Cortland.

The thirty-first annual session of the New York state grange convened at the opera house in Cortland, N. Y., on Feb. 2, Hon. E. B. Norris, state master, presiding. Nearly the full delegation, numbering this year 170, was in attendance, and Patrons visiting brought the number up to fully 500.

On the first day the annual address of the state master was given. On the subject of good roads he said there is a strong and increasing demand for a better system of road building. While we do not believe in a wanton expenditure of money to secure good roads, we do believe that wise legislation, with a just and economical expenditure, will result in enhancing the value of farm land. The great work before the grange is to see that wise legislation is enacted, also a reasonable amount of money appropriated by our nation and state, not to build expensive boulevards, but to construct them with a view to practical uses.

He called the attention of the grange to the fact that a careful inspection should be given to all the tax bills introduced in the legislature, and an active opposition should be pursued against any bill that does not fairly represent the agricultural interests in equity with others. Good road legislation will be pressed for passage in the present legislature. The canal appropriation bill submitted to the people at the last election for the expenditure of \$101,000,000 was ratified by a large majority. Although the grange did not believe it wise or expedient to bond the state for this large amount of money to enlarge the Erie canal, yet the will of the majority should be recognized, he said, and it now remains for the grange to see that the money is judiciously, economically and honestly expended.

The extension during the past year of free rural mail delivery secured by the earnest work of the grange is proof of its increasing popularity. The legislative committee in its recent conference with the postmaster general was informed that the rural service would be pushed with renewed vigor during the year 1904 and that an appropriation of \$15,000,000 would be required to maintain the service during the fiscal year. As the farmers of this great nation get in closer touch with one another through the channels of organization and with the modern methods of transportation, better facilities for mail delivery must essentially follow. Our Order is assuming a prominent place in legislation and will soon take its position among the industrial interests of our country.

As we review the situation, the annual receipts from agriculture bewilder our vision. Notwithstanding the new and enormous markets within our own borders and the increase in the consuming power, without doubt the time will come sooner than we expect when production will be far beyond consumption. Busy as we American people are today, the inevitable struggle for commercial supremacy in the markets of the world for our surplus products will be increased or modified in proportion to our preparation to meet the problem.

The secretary submitted his report, from which we take the following facts:

The report of the secretary ends Oct. 1, 1903, and at that time there were 567 active granges in the state, 42 of them having been organized the past year. The total membership is 58,172, a gain of 8,136 the last year. This is the actual membership, as every grange that has not reported within the year has been placed on the dormant list, and no dormant or unaffiliated members are reckoned in the grand total of 58,172. There are 39 Pomona or county granges, 6 having been organized the past year. The grange is now represented in 47 counties of the state. The total cash receipts of the secretary's office were \$18,209.77.

The report of the treasurer, P. A. Welling, showed the total receipts from the secretary, excluding a balance on hand Jan. 1, 1903, of \$13,159, to be \$17,903; accrued interest, \$290.04; total, \$18,193.04. Total disbursements for 1903 were \$15,940.12, showing a balance on hand Jan. 1, 1904, of \$15,412.24.

At the evening session an address of welcome was delivered by Judge Eggleston of Cortland, which was responded to by State Master Norris. Other speakers were Hon. George S. Ladd, master of Massachusetts state grange, and Professor L. H. Bailey, Cornell university. Readings were given by Miss Zoe Welch and Miss Rogers, and music was furnished by a male quartet from Cortland.

Hon. E. B. Norris, Sodus, N. Y., was re-elected master for the fourth term.

The grange in Michigan is certainly awake to the importance of instruction in agricultural studies not only in the agricultural colleges and in the common schools, but also in the subordinate granges.

Co-operation in buying fertilizers an grass seed is one of the simplest and yet one of the most satisfactory forms of co-operation can take among Patrons.

Mrs. J. H. L. Roe of Wolcott (N. Y.) grange has been its secretary for twenty-two years. She must be fairly familiar with her duties by this time.

Short Talks on Advertising

By Charles Austin Bates

No. 28.
When a contractor is in a hurry to drive a long plank down the side of a new sewer he sets two men at it. Each with a big maul hits it alternate blows as often and as hard as he can. The strokes come as evenly as a pendulum swings.

One man and one maul would drive the plank down, but it would take longer.

The bigger the maul the quicker and easier he will do the work.

Two men, or a dozen, with tack-hammers would not get the plank driven in a hundred years.

There's a parallel to this in advertising. If you're in a hurry to drive your business, use two papers and make the advertising maul—the space—as big as possible. If you haven't money enough to buy two big mauls, only buy one, use only one paper—the best—and make the space big enough to be felt.

You'll do more good with one maul than with half a dozen tack-hammers. You'll get more benefit from a regular advertisement, of sufficient size, in the best paper in town, than you will from half a dozen smaller ads in a weaker paper.

If you have only one ad, have it right. You don't believe in cutting your store in two, do you? You don't establish a branch until you feel sure you are doing all you can in the main store.

Be sure you are doing enough in the best paper before you think of adding another.
