

Weak

Heart From Attack of LaGrippe.

Palpitation, Smothering, Short Breath.

Dr. Miles' Heart Cure Cured Me.

The terrible after effects of LaGrippe are most dangerous when they attack the heart, the engine of life. Weak hearts are as common as weak stomachs and when an attack is made upon the weak heart, that organ soon becomes a diseased heart and the patient will unless promptly treated, suffer long and eventually die of heart disease, the dread of millions. Dr. Miles' Heart Cure strengthens and regulates the heart's action, enriches the blood and improves the circulation.

"Some years ago I had an attack of the grip, and it left me with a very weak heart. Palpitation, shortness of breath and smothering spells that made me sit up in bed to breathe, robbing me of sleep, made me most miserable. I would become fatigued and exhausted from the least exertion and was in such a critical condition that I could not attend to my business. My physician seemed unable to control my case, and instead of getting better I was gradually growing weaker every day. Then I began taking Dr. Miles' Heart Cure and after I had used two bottles I was greatly improved. I continued with the remedy until I had taken in all six bottles when I was able to attend to business without inconvenience. I was completely and permanently cured of heart trouble by Dr. Miles' Heart Cure and cheerfully recommend it to all sufferers from that terrible affliction."—H. H. EHLE, Gloversville, N. Y.

Judge Parker's Reticence.

On the other hand, Judge Parker's friends think his reticence may be justified by the fact that the Democracy has for eight years past had a candidate who talked enough for the next eight years to come.—Pittsburg Dispatch.

Hearst's \$2,000,000 Bid.

Hearst's success in getting delegates has created some dismay among the conservative elements of his party. It is said that he will give the Democratic national committee \$2,000,000 to nominate him.—Chestertown (Md.) Enterprise.

The Patrons' Fire Insurance association of St. Lawrence county, N. Y., carries insurance on farmers' property to the amount of about \$7,000,000. It has been in existence twenty-five years. The average cost of insurance has been about \$1 per thousand per year.

Gorman Finds an Issue.

Gorman has found what he thinks is an issue. He calls Roosevelt a czar, and the slogan he suggests is, "Down with one man power." Well, the Democrats must have some kind of an issue, and the less it means the more leveling it will provide.—Jersey City Journal.

THE GRANGE

Conducted by J. W. DARROW, Chatham, N. Y., Press Correspondent, New York State Grange

A HISTORIC GRANGE HALL.

It is Located at Ludlow, Vt., and Was Once a Church.

It was in 1783 that, at a town meeting, it was voted to erect the church building which now is occupied by the Ludlow grange, or more correctly speaking, its lower floor is thus occupied, a second story having been constructed about twenty-five years ago. It was moved to its present site about sixty-five years ago. The plates and cross plates of the building, which is 50 feet long by 40 feet wide, are 8 by 12 and were hewed by hand, as was the entire frame, each timber being hewed from one tree.

The records read that "Oct. 23, 1783, town meeting at the stake, voted that

LUDLOW GRANGE HALL.

the building committee secure a sufficient quantity of rum to raise the meeting house frame." The massive frame, which contains lumber enough for three modern buildings of the same dimensions, was soon ready for the raising. Rev. Antipas Steward was the first pastor of this church, and his salary was \$200 and thirty cords of wood.

On the lower floor, as above stated, the grange has fitted up a pleasant room with anterooms and kitchen. The hall is used frequently for socials, entertainments and other gatherings, and the ancient building is highly prized both for its associations and its convenience. The picture of the church is taken from the Lewiston (Me.) Journal.

A Comforting Thought.

If Mr. Hearst fails to secure the nomination he will at least have the consolation of knowing that he has distributed a considerable amount of money and thus added to the prosperity of the masses. To a man so deeply devoted to the welfare of the common people this should be quite comforting.—Kansas City Journal.

Bryan Keeps Mum.

Mr. Hearst assures us he will not bolt, no matter who may be the nominee. Upon this particular point Mr. Bryan is not saying a word.—Grand Rapids Herald.

The True Situation.

Uncle Sam's true financial situation appears to be that he has a deficiency in his Democratic pocket, but a surplus on his Republican side.—Philadelphia Inquirer.

What is Scott's Emulsion?

It is a strengthening food and tonic, remarkable in its flesh-forming properties. It contains Cod-Liver Oil emulsified or partially digested, combined with the well-known and highly prized Hypophosphites of Lime and Soda, so that their potency is materially increased.

What Will It Do?

It will arrest loss of flesh and restore to a normal condition the infant, the child and the adult. It will enrich the blood of the anemic; will stop the cough, heal the irritation of the throat and lungs, and cure incipient consumption. We make this statement because the experience of twenty-five years has proven it in tens of thousands of cases. Be sure you get SCOTT'S Emulsion, 50c and \$1.00, all druggists. Short Talks on Advertising

By Charles Austin Bates.

No. 8. One man succeeds and another man fails and people wonder how it happens. It seems sometimes to people who don't think deeply that the weaker, duller man goes ahead, and that his more brilliant brother sticks in the rut at the bottom of the hill.

Slight differences in men seem to make all the wide differences between success and failure.

In games of chance (?) the "bank" has only a slight percentage, but the bank always wins.

Back of every result is a reason. Back of business success are earnestness, energy, persistence, concentration. Between these and achievement is advertising.

No man ever yet made a success of business without advertising of some sort. Maybe he didn't call it advertising, but it was advertising just the same.

Advertising primarily consists in letting a lot of people know you are in existence and what excuse you may have for it.

The nucleus of advertising is a sign over the door.

If nobody had ever put up a sign, one baking powder company would not now be paying out \$800,000 a year placing signs in all the newspapers of America.

When a man goes into business he has some cards printed, and when he meets an acquaintance thereafter he pokes out a card and says: "When you are down my way, drop in." That's advertising.

The trouble is that you can't repeat the operation often enough—personally. What you can do is to put the card and the remark, more or less elaborately expressed, into such a paper as the one you are reading now and have it handed to a great number of people all in one day.

The difference in men that makes one do this and another refuse is small. That is, it looks small at the start. It's like most all little things. When you stop to analyze it and figure it out to its ultimate result, you find that it grows into proportions of great magnitude.

An advertisement in the newspaper is a little thing, but it goes into thousands of homes and tells thousands of people just what you most wish them to hear.

If the ad. is an honest ad. it will always pay.

"When you're down my way, drop in."
