

Weak

Heart From Attack of LaGrippe.

Palpitation, Smothering, Short Breath.

Dr. Miles' Heart Cure Cured Me.

The terrible after effects of LaGrippe are most dangerous when they attack the heart, the engine of life. Weak hearts are as common as weak stomachs and when an attack is made upon the weak heart, that organ soon becomes a diseased heart and the patient will unless promptly treated, suffer long and eventually die of heart disease, the dread of millions. Dr. Miles' Heart Cure strengthens and regulates the heart's action, enriches the blood and improves the circulation.

"Some years ago I had an attack of the grip, and it left me with a very weak heart. Palpitation, shortness of breath and smothering spells that made me sit up in bed to breathe, robbing me of sleep, made me most miserable. I would become fatigued and exhausted from the least exertion and was in such a critical condition that I could not attend to my business. My physician seemed unable to control my case, and instead of getting better I was gradually growing weaker every day. Then I began taking Dr. Miles' Heart Cure and after I had used two bottles I was greatly improved. I continued with the remedy until I had taken in all six bottles when I was able to attend to business without inconvenience. I was completely and permanently cured of heart trouble by Dr. Miles' Heart Cure and cheerfully recommend it to all sufferers from that terrible affliction."—H. H. ERLE, Gloversville, N. Y.

Judge Parker's Retiree.
On the other hand, Judge Parker's friends think his retiree may be justified by the fact that the Democracy has for eight years past had a candidate who talked enough for the next eight years to come.—Pittsburg Dispatch.

Hearst's \$2,000,000 Bid.
Hearst's success in getting delegates has created some dismay among the conservative elements of his party. It is said that he will give the Democratic national committee \$2,000,000 to nominate him.—Chestertown (Md.) Enterprise.

The Patrons' Fire Insurance Association of St. Lawrence county, N. Y., carries insurance on farmers' property to the amount of about \$7,000,000. It has been in existence twenty-five years. The average cost of insurance has been about \$1 per thousand per year.

German Finds an Issue.
Gorman has found what he thinks is an issue. He calls Roosevelt a czar, and the slogan he suggests is, "Down with one man power." Well, the Democrats must have some kind of an issue, and the less it means the more glowing it will provide.—Jersey City Journal.

FREE FROM DUST.

Highways Rendered Dustless in France by Use of Tar.

A recent official report of the department of bridges and roads in France shows the continuance of the good results obtained in rendering roads free from dust by coating the surface with tar.

The engineer for the Seine and Marne departments reports that after an unsuccessful trial of a mixture of oil and petroleum a coating of tar was in the summer of 1902 laid down on seven different lengths of road. After carefully observing these during a period of twelve months he finds that dust and mud have wholly disappeared, and the cost of maintenance of the roads has been considerably reduced.

Further comparing the previous outlay on the roads with that of those with tarred surface, he says: "It appears that the tarring method requires no greater outlay and at the same time very considerably improves the condition of the roadway. In La Cher two lengths of the Chausee Nationale were coated with tar in June and August of 1902.

"Both these experiments have been entirely successful, the road now being covered with an elastic skin, while the sound of foot passengers' tread is muffled, and horses and draft oxen require only one-half the effort they put forth before. The noise and vibration caused by vehicular traffic are much reduced, and neither dust nor mud is formed on the tarred surface."

A Farmer's Loss.

An illustration of the cost of bad roads to the agricultural portion of the country may be had in an example recently witnessed in Texas. A crop of onions raised by irrigation at Caroso Springs was being hauled forty miles to the nearest station on the International and Great Northern railroad, where it was delivered at 1 1/2 cents per pound. As the yield was 25,000 pounds to the acre this crop was worth \$375 at the station, but to place it there the charge was 50 cents per 100 pounds, or \$10 per ton, or per acre's yield \$125, causing a net loss to the farmer of 33 per cent.

It is estimated by the postmaster general that postal receipts this fiscal year will approximate \$144,000,000, which is nearly double the figure of less than ten years ago. This great expansion of the revenue—and the postal expense as well, which is even greater—is largely due, of course, to the extension of the rural free delivery service.

The appropriation for the rural free delivery service for the coming year is \$20,773,700, but this sum will not enable the department to create as many new routes as were possible last year. The reason for this is that 97 per cent of the appropriation will be used to pay salaries of carriers under the increased rate of pay.

It is expected that with the new order of things it will be possible to establish routes at the rate of about 600 a month. At this rate the entire appropriation will be expended by the time congress meets in December.

Miss Ruth Lane, nineteen years old, of New Bedford, Mass., has been appointed a rural mail carrier on a route that has been given up by two men because of the rigors of the position.

What is Scott's Emulsion?

It is a strengthening food and tonic, remarkable in its flesh-forming properties. It contains Cod-Liver Oil emulsified or partially digested, combined with the well-known and highly prized Hypophosphites of Lime and Soda, so that their potency is materially increased.

What Will It Do?

It will arrest loss of flesh and restore to a normal condition the infant, the child and the adult. It will enrich the blood of the anemic; will stop the cough, heal the irritation of the throat and lungs, and cure incipient consumption. We make this statement because the experience of twenty-five years has proven it in tens of thousands of cases. Be sure you get SCOTT'S Emulsion, 50c. and \$1.00, all druggists. Short Talks on Advertising

By Charles Austin Bates

No. 8.
One man succeeds and another man fails and people wonder how it happens. It seems sometimes to people who don't think deeply that the weaker, duller man goes ahead, and that his more brilliant brother sticks in the rut at the bottom of the hill.

Slight differences in men seem to make all the wide differences between success and failure.

In games of chance (?) the "bank" has only a slight percentage, but the bank always wins.

Back of every result is a reason. Back of business success are earnestness, energy, persistence, concentration. Between these and achievement is advertising.

No man ever yet made a success of business without advertising of some sort. Maybe he didn't call it advertising, but it was advertising just the same.

Advertising primarily consists in letting a lot of people know you are in existence and what excuse you may have for it.

The nucleus of advertising is a sign over the door.

If nobody had ever put up a sign, on a baking powder company would not now be paying out \$800,000 a year placing signs in all the newspapers of America.

When a man goes into business he has some cards printed, and when he meets an acquaintance thereafter he pokes out a card and says: "When you are down my way, drop in." That's advertising.

The trouble is that you can't repeat the operation often enough—personally. What you can do is to put the card and the remark, more or less elaborately expressed, into such a paper as the one you are reading now and have it handed to a great number of people all in one day.

The difference in men that makes one do this and another refuse is small. That is, it looks small at the start. It's like most all little things. When you stop to analyze it and figure it out to its ultimate result, you find that it grows into proportions of great magnitude.

An advertisement in the newspaper is a little thing, but it goes into thousands of homes and tells thousands of people just what you most wish them to hear.

If the ad. is an honest ad. it will always pay.

ONE FULL QUART OF WHISKEY FREE

Casper's 11 Year Old Whiskey

We know the meaning of words and will do as we say. We claim to be the lowest-priced Whiskey House and the largest Mail Order Whiskey Dealers in the South. All the North Carolina Whiskey we sell is good—there's no bad. People here wouldn't adulterate if they knew how—they are too honest. Most whiskey sellers are noted for mixing, blending and watering. We sell more genuine old whiskey and less water than any known competitor. "Casper's 11 Year Old Whiskey is a Liquid Joy! It's made by honest people in the mountains of North Carolina, in old-style copper stills, just as it was made by our grandfathers. First-rate whiskey is sold at \$5.00 to \$6.00 per gallon, but it's not any better than "Casper's 11 Year Old." It must please or we will buy it back. We have a capital of \$200,000, and the People's National Bank and the Piedmont Savings Bank of this city will tell you our word is good. To introduce this old, honest whiskey, we offer four Full Quarts of "Casper's 11 Year Old" in two sample bottles, one 15 one 18 year old—a cork, screw and a drinking glass—all for \$2.95. If \$2.95 is sent we will double the above and put in free One Full Quart Extra. We have some of this whiskey only 7 years old, and will give you a gallon for \$1.00 or will furnish twenty full quart bottles on receipt of \$1 and give free corkscrews, drinking glasses and samples, making this whiskey cost less than \$1.50 per gallon delivered. We ship in plain boxes with no marks to indicate contents, and Freeway all Express. Shippers West of Texas, Kansas, Nebraska and Dakota must add 20 cents per quart extra.
