County Seat
Local and Personal Events
Tersely Told.

Mr. M. E. Reeder of Hughesville, was in town Monday.

The Laporte Boro division case for many months before the Superior court, was reversed by that august body Tuesday of this week.

M. P. Gavitt of Jamison City, transacted business at the county seat Saturday.

Floyd Hunter while at work in the stove factory yard, Tuesday, was injured slightly by a pile of staves falling upon him.

Simon Fries and sisters Threasa and Mrs. Jacob Fries Jr. were at Dushore Monday, attending the funeral of Mrs. Wm. Barry.

Miss Sarah Hunsinger of Cherry Mills was the guest of Miss Mame Heim last week.

Mrs. Edward Schrader and son Harry were Hughesville visitors Tuesday.

All Ladies wishing to spend a sociable afternoon are cordially invited.

Mr. Wm. Loeb spent part of last week with Dushore friends. William evidently has the same views as has Russel Sage, regarding vacations, as he says it was his first vacation in three years.

Mr. Vernon Hull and Mrs. Wm. Hull of Hillsgrove, Mr. Marlynet of Overton, and Miss Harriet E. Grimm represented Sullivan county at the convention of the State S. S. Association, held at Pittsburg, October 12, to 15.

R. A. Conklin, district deputy grand master of the Sullivan County Odd Fellows, installed officers in the lodges at Dushore, Bernice, Hillsgrove and Forksville. The Odd Fellows of the county report themselves as very well pleased with their deputy.

The Ladies' Aid Society of the Baptist Church will meet in social circle at the home of Mrs. R. A. Conklin, Wednesday afternoon, October 26, at 3 o'clock. Supper will be served at 5:30, at the nominal price of ten cents. All ladies wishing to spend a social afternoon are invited.

George W. Ginter and a crew of painters who are employed at Ringdale painting bridges for the W. & N. B. R. Co., had quite a scare a few days ago when a big black bear put in his appearance near where they were working. Not one of the men will acknowledge that they were frightened, but the next day a shot gun was procured and is kept in easy reach at all times since.

We pause to hear Mr. Scouten explain how his brother-in-law, Associate Judge Harvey Sickler of Tunkhannock, Wyoming County, could draw last year a salary of \$1,394.00. Note that Judge Sickler lives in Tunkhannock the County Seat and is not entitled to mileage. Come, Mr. Scouten, speak up. Was it right? Was it legal? And still you could blacken the name of the late Judge Kraus and impute dishonesty to Judge Reeser both of whom, with mileage added, drew about \$500 less than your brother-in-law.

Reader, do not misunderstand us. We are not complaining that Judge Sickler has drawn one cent more than the law allows him. Only we want Mr. Scouten to be honest with the people and explain how an associate judge can legally receive more than \$300 a year.

The Ladies' Aid Society of the LaPorte Baptist church will meet at the home of Mrs. R. A. Conklin Wednesday afternoon, October 26, 1904, at 3 o'clock P. M. Supper will be served at 5 o'clock P. M., at the nominal price of ten cents.

For SALE.—One bay drive or farm horse, 11 years old, weight 11 hundred, been used this season on farm.

A. P. Wieland, Nordmont, Pa.

For SALE.—One Durham bull 17 months old, 16 yew sheep, will sell or let on shares.

W. B. Snyder, Nordmont, Pa.

Looking For Trouble.
Senator Bailey is confident that the people will be so much disgusted with Roosevelt that they will be ready to elect a Democrat in 1908. Maybe, maybe. The Republicans are not looking so far ahead for trouble.—Philadelphia Inquirer.

WIDE AWAKE COUNTY

FLORIDA COMMUNITY FINDS IT PAYS TO BUILD GOOD ROADS.

Bonds Issued to Carry on the Work and Modern Methods of Highway Building Adopted—Big Increase in Farm Values Expected.

Hillsborough county, Fla., affords an interesting example of modern methods of road building, writes John Farson in the Chicago Tribune. It is situated on the west coast about midway of the state and is best known through its county seat, Tampa. Until the last year this county had only fourteen miles of hard surfaced road outside of its cities and villages, although it had a population of 36,000 and contained over 1,300 square miles. Outside of these fourteen miles, nearly all of which were immediately adjacent to the city of Tampa, practically the only roads were meandering trails through the woods. The soil is of the kind usually met with in Florida, either deep sand or boggy mud, and at times these roads are impassable. The few miles of road that had been constructed were made only by force of sheer necessity and at large cost. Material was brought in from outside the county, and there was a general impression that Hillsborough county had no road material within its limits.

All this was changed recently when a few of the most enterprising of the citizens discovered that here and there through the county were occasional deposits of rock, and an energetic campaign for good roads was begun. An issue of \$400,000 of county bonds was voted and was finally carried, although there was much opposition on the part of many who believed the scheme was impracticable—opposition which was carried to the supreme court of Florida in two different cases and reappeared in the local courts in the form of injunctions before the bonds were finally issued.

From the proceeds of these bonds \$34,000 was devoted to the purchase of first class road machinery, including eight miles of twenty-five pound steel rails, with sufficient five foot ties, a sixteen ton narrow gauge locomotive and ten dump cars of four ton capacity. The machinery included a ten ton steel roller, three road graders, a rock crusher of eighty tons capacity, a steam drill, large pump and hose for washing and tearing down the overburden of sand covering the rock pits, a twenty horsepower boiler and a thirty horsepower boiler and engine on wheels. Several rock pits in different parts of the county were bought for a trifling sum and the work was begun.

Like other southern counties, Hillsborough county has a chain gang, the number of convicts varying at different times from fifteen to forty. These men were put to work in the rock pits and on the road. The railroad was used only where the rock pit is over two miles from the road to be constructed. If the pit is at close range mule teams are used to haul the crushed rock. At a greater distance the ties are quickly laid and the rails spiked down and a train of ten cars starts out with a load of forty tons of rock to be deposited on the new road.

Several different kinds of material are found, and most of them are used with good success. From the creeks and rivers is a soft lime rock, which has been found to pack or cement so well as to form a hard, smooth roadbed. In other parts of the county is a hard, flinty rock of an older formation, while in the eastern part several valuable tracts have been purchased, containing an abundance of phosphate rock and pebble mixed with clay, which are particularly valuable because they can be so cheaply worked and are serviceable when properly laid. In still other parts is found a gray clay and marl in strata from two to eight feet in thickness. This material frequently contains a high percentage of aluminum and makes a splendid finish for roads.

While this new era of roadmaking for Hillsborough county has been in progress only a year, it has already clearly demonstrated its success both in cheapness and quality of construction. Twenty miles of road have been completed within the last year, fifty more have been surveyed and cleared of roots and stumps, seventeen of these have been graded and eighteen miles have been ditched.

It has been determined that the cost of clearing a roadway forty feet wide runs from \$80 to \$150 per mile and that the complete cost of a mile of road from the time the surveyor begins his work until the last surface application has been rolled is as low as \$1,200 where the rock pit is near by and ranges from that to \$3,000 in the case of roads eight or ten miles away from the pit. The frequency of these pits has made it possible for the officials to plan for the construction of over 150 miles of road from the proceeds of \$400,000 of bonds after paying for their road machinery, and the best of all is the fact that they are actually "good roads," as hard and smooth as any well macadamized city street.

Already the score of miles constructed within the last year has materially affected the trade of Tampa, near which most of the roads have been built. As no other county in the state is so well equipped with road machinery, and as no other county on the west coast has more than a few miles of hard surface road, the advantage which is already accruing to Hillsborough county has been markedly apparent. With a magnificent harbor and roads running in every direction, it is expected that within two years every part of Hillsborough county will be so closely connected with the port by the best of roads as to increase the aggregate value of farm lands far more than the amount of bonds issued.

CENTRAL
State Normal School
LOCKHAVEN, PA.

J. R. FLICKINGER, Principal.
Fall term, 15 weeks begins September 5th, 1904.

Last year was the most successful in the history of this important school—about 700 students. Location among the mountains of central Pennsylvania, with fine water, splendid buildings and excellent sanitary conditions make it an ideal training school. In addition to its Normal course it also has an excellent College Preparatory Department in charge of an honor graduate of Princeton. It also has departments of Music, Education and Business. It has a well educated Faculty, fine Gymnasium and Athletic Field.

Address for illustrated catalog,
THE PRINCIPAL.

Sonestown Cider Mill

will open September 10, 1904 and will continue to run on Thursday, Friday and Saturday until noon each week until November 18, 1904.

J. M. GONVERSE.

Foley's Honey and Tar
cures colds, prevents pneumonia.

Life Insurance

A FEW OF THE MANY REASONS WHY YOU SHOULD HAVE A POLICY

WITH THE NEW YORK LIFE

BECAUSE—Incontestable from the date of issue. Because—absolutely without restrictions. Because—non forfeitable from date of issue. Because—cash loans are provided after second year, on demand at 5 per cent interest without fee or other charge. Because—if death does not occur an accumulative policy is a highly profitable investment for the policy-holder who lives.

Policies now maturing to living policy-holders prove this. In fact NEW YORK LIFE policies do not leak.

Health and Accident Insurance also written. A postal card will bring an agent to you, or a personal interview can be had at the office Saturdays, regular office day.

GEO. BROWN, Agent.
LOPEZ, PA.

Office in Dr. Christian Bld.

Chippewa
Lime Kilns.
