

Severe

Nervous Trouble and Dyspepsia.

No Sleep for Weeks Because of Pain.

Dr. Miles' Nervine Gave Back My Health.

Dyspepsia nearly always arises from a derangement of the nerves. When the stomach is not well the entire system suffers. Constipation, bad breath, sour stomach, frequent headaches, biliousness, etc., will lead to terrible consequences if not treated in time. Dr. Miles' Nervine is a specific for nervous dyspepsia and all nervous diseases.

"My health was miserable for years, due to severe nervous trouble and dyspepsia. I had not been able to sleep for weeks at a time without being awakened with pains in my chest and stomach. My limbs felt tired, I was unable to do my house work without feeling completely worn out. The doctors failed to relieve me, and after taking an endless amount of their medicines I began taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills. I obtained relief from the first bottle of Nervine, was able to sleep better than I had in years. My stomach began to gain strength and I felt better in many ways. I have taken twelve bottles of Nervine and Nerve and Liver Pills in the past three years but have not taken any of late as I have not felt the need of it. I go about my work an entirely different woman and have recommended them to ever so many people. I am a great believer in Dr. Miles' Nervine and Liver Pills, I have them on hand all the time. I feel very grateful for the Dr. Miles Remedies."—Mrs. J. W. WHITMAN, Mechanic Falls, Me.

Are You Pale?

Are your cheeks hollow and your lips white? Is your appetite poor and your digestion weak? Is your flesh soft and have you lost in weight?

These are symptoms of anemia or poor blood. They are just as frequent in the summer as in the winter. And you can be cured at one time just as well as another.

Scott's Emulsion

of cod liver oil with hypophosphites will certainly help you. Almost everyone can take it, and it will not disturb the weakest stomach.

It changes the light color of poor blood to a healthy and rich red. It nourishes the brain; gives power to the nerves. It brings back your old weight and strength.

Short Talks On Advertising By Charles Austin Bates.

No. 25.

I talked the other day with a man who had failed in the drug business. He said that he didn't believe that advertising a drug store paid, and that it was so different from other businesses that advertising could not possibly help it.

He said that his store had been an exceptionally good one; that the location was very fair, and that the stock was above reproach, but there were two other drug stores nearby which had been there for some time before he came. The people round about were acquainted with them, and to some they were just a little bit more conveniently situated than the new store.

"There were two other drug stores nearby. The people round about were acquainted with them."

My friend, the druggist, didn't try advertising. That is the way he knows that it does not pay. He said: "People do not realize that there is a difference in drugs—that the paregoric they get in one drug store is better than that which they get in another."

Advertising would have saved that man's business. By advertising he would have introduced himself to the people, and they would have become acquainted with him and his store in that way. By advertising he could tell them that there were different grades of paregoric, and that he kept the best grade; but he didn't try it, and so he knows positively that advertising doesn't pay.

Maybe he would have had to advertise three or six months, or possibly for a year, before he would have found that he was gaining actual profit on his advertising expenditure. Advertising a new business is, to a certain extent, like advertising in the dull season. It is the after-effect that must be looked at and not the immediate returns. Even if a new man were to meet his prospective customers personally, it would be some time before he would make actual buyers of them.

It is this way with a traveling salesman.

The first few trips in a new territory do not consume very many pages of his order book. In the mean time he is getting acquainted—advertising. He is letting people know who he is and what he is doing, and what he wants. If he is pleasant and courteous and persistent, he will win trade, but it will take time.

Do not expect an ad to do more than a man.

MOTORS FOR FARMERS.

Predicted They Will Use Them to Market Produce.

Judge Spinks, a leading jurist of British Columbia, while in New Orleans recently had the following to say regarding road improvement:

"In British Columbia I have good roads, but they are narrow. The farmers, I think, would adopt the motor to market their products here if the roads would permit it, but being narrow it would be difficult to handle the machine. But the road movement, from what I can learn, has taken hold of Americans in earnest.

"I am glad to see the people of this country taking an interest in good roads, for it is a commercial necessity and means much to the farmer. It is, in my opinion, only a question of time till the farmer will market his product by motor instead of the railway for a radius of thirty miles of a city. And if he is not able to own a motor himself there will be a means for him to transport his stuff by motor just the same. The activity of the promoters of good roads is a good sign of the future development of this feature of American commerce, and when the motor is perfected it will be adapted to many purposes for which we now see little use.

"Good roads are an essential to the farmer, as it cheapens the cost of marketing his produce, and the day is not far distant when the community with good roads will be the most prosperous."
