

Severe

Nervous Trouble and Dyspepsia.

No Sleep for Weeks Because of Pain.

Dr. Miles' Nervine Gave Back My Health.

Dyspepsia nearly always arises from a derangement of the nerves. When the stomach is not well the entire system suffers. Constipation, bad breath, sour stomach, frequent headaches, biliousness, etc., will lead to terrible consequences if not treated in time. Dr. Miles' Nervine is a specific for nervous dyspepsia and all nervous diseases.

"My health was miserable for years, due to severe nervous trouble and dyspepsia. I had not been able to sleep for weeks at a time without being awakened with pains in my chest and stomach. My limbs felt tired, I was unable to do my house work without feeling completely worn out. The doctors failed to relieve me, and after taking an endless amount of the medicines I began taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills. I obtained relief from the first bottle of Nervine, was able to sleep better than I had in years. My stomach began to gain strength and I felt better in many ways. I have taken twelve bottles of Nervine and Liver Pills in the past three years but have not taken any of late as I have not felt the need of it. I go about my work an entirely different woman and have recommended them to ever so many people. I am a great believer in Dr. Miles' Nervine and Liver Pills. I have them on hand all the time. I feel very grateful for the Dr. Miles Remedies."—MRS. J. W. WHITMAN, Mechanic Falls, Me.

Short Talks On Advertising By Charles Austin Bates.

No. 25.

I talked the other day with a man who had failed in the drug business. He said that he didn't believe that advertising a drug store paid, and that it was so different from other businesses that advertising could not possibly help it.

He said that his store had been an exceptionally good one; that the location was very fair, and that the stock was above reproach, but there were two other drug stores nearby which had been there for some time before he came. The people round about were acquainted with them, and to some they were just a little bit more conveniently situated than the new store.

My friend, the druggist, didn't try advertising. That is the way he knows that it does not pay. He said: "People do not realize that there is a difference in drugs—that the paregoric they get in one drug store is better than that which they get in another."

Advertising would have saved that man's business. By advertising he would have introduced himself to the people, and they would have become acquainted with him and his store in that way. By advertising he could tell them that there were different grades of paregoric, and that he kept the best grade; but he didn't try it, and so he knows positively that advertising doesn't pay.

Maybe he would have had to advertise three or six months, or possibly for a year, before he would have found that he was gaining actual profit on his advertising expenditure. Advertising a new business is, to a certain extent, like advertising in the dull season. It is the after-effect that must be looked at and not the immediate returns. Even if a new man were to meet his prospective customers personally, it would be some time before he would make actual buyers of them.

It is this way with a traveling salesman.

The first few trips in a new territory do not consume very many pages of his order book. In the mean time he is getting acquainted—advertising. He is letting people know who he is and what he is doing, and what he wants. If he is pleasant and courteous and persistent, he will win trade, but it will take time.

Do not expect an ad to do more than a man.

A Gift to Chautauque.
