It is worth knowing for the fly days that have now come that a few drops of sassafras oil scattered about the house will keep the flies away as if by magic. This is said to be the secret of flylessness of drug stores, where the soda fountain would otherwise attract flies by the thousands.

Miss Myra Baumunk of Lake Run, is at the Sayre Hospital where she underwent on operation for appendicitis.

The next excursion to Harvey's Lake on August 17, will be a big one. It will start from Williamsport and take passengers from all along the line of the W. & N. B. railroad.

Mr. William Cott of Dushore, a graduate of the Philadelphia College of Pharmacy, has opened a drug store at Mildred. The store is said to be thoroughly up-to-date and will be a great convenience to residents of that place.

The wife of Dr. T. W. Raper of Lairdsville, and their daughter, Grace, who were seriously injured in a runaway about two weeks ago, are still confined to their beds. Mrs. Raper being still paralysed from the hips down.

Mr. and Mrs. T. E. Ford returned to their home in Philadelphia last Friday, after spending a delightful vacation with the former's brother Prof. Ford, and his family at Mokoma Place.

Harry Lane, a fifteen year old boy of Jamison City, had the first three fingers of his right hand badly injured by a flying axe that slipped from the hands of his father who was felling trees, a few days ago. The axe missed hitting him in the side by the margin of an inch. The boy went with his father into the woods to cut down some trees and was standing by looking on when the accident occurred. His father was chopping at a thick tree and had raised the implement and was swinging it when it slipped from his hands and went flying at terrific speed in the direction that the boy was standing. The axe came blade first and struck his hand. The first finger was severed and the other two were so badly injured that it is feared amputation may be necessary.

Ford.—A pocketbook. Owner will receive same by calling at this office and proving property.

Preaching services at the M. E. Church next Sunday evening at 7 o'clock followed by Epworth League.

Emerson Woodward of Muncy, was painfully injured while fishing at Eagles Mere. He was sitting on some logs which projected over the water when they gave away throwing him into the water and piling up on him. He managed to get out from under them and got out of the water, but had his left hip and knee badly injured.

Deposits in New York savings banks increased \$85,000,000 during the past twelve months, the largest previous increase having been \$71,000,000, in 1899. Of the whole increase \$52,000,000 occurred in the past six months, showing how exceptionally prosperous the current year has been thus far. Nearly one-half of the increase in deposits was the interest credited. The number of open accounts is a little more and a half millions. The Massachusetts savings banks have also issued a very favorable statement of their operations for the past year, but in that state also a very large part in the increase of money due the depositors is the interest credited to them. Even in the most prosperous seasons the actual amount of money added by the average depositor to his savings bank account is small. But small savings and interest that accumulates day by day have in ten years added enormously to the resources of the people of small means.

The crop report for July shows an increase of 2,000,000 in corn acreage bringing the total acreage at this date up to 94,011,000. This, with the exception of 1901, says the Chicago Inter Ocean, is the largest acreage on record. Under usual conditions it means a yield of 2,500,000,000 bushels, and a value to the farmers of \$1,000,000.

With a larger acreage the condition of the growing corn in Illinois is 6 per cent. better than at this date in 1904, 2 per cent. better in Iowa, 20 per cent. better in Kansas, 17 per cent. better in Missouri. In Nebraska, Indiana and Ohio the condition is not quite so good as last year but in the country as a whole the condition is better by one per cent. than in 1904, and by 8 per cent. than in 1903. In other words, conditions in the corn belt are favorable to as heavy a yield as in 1902, when the 2,523,648,312.

The lawn fete at the Rectory last Tuesday evening proved one of the most pleasant affairs of the season, and was enjoyed by an immense throng. The grounds were beautifully decorated with streamers of bunting from which were suspended rows of Japanese lanterns, brilliantly illuminating the grounds and presenting a very pretty picture. The prize box table in charge of Mrs. E. Rappleye and Mrs. E. P. Ingham, seemed the greatest attraction to the visitors and the boxes were all sold at an early hour, as was also the large amount of candy in charge of Miss Jessie Wrede. Delightful music was furnished by Mrs. E. M. Dunham, Miss Olive Barrows and Rev. E. A. Heim. Three coaches filled with guests from Hotel Eagles Mere, drove over and were among the happiest in the throng.

N. C. Schaffer, Superintendent of Public Instruction at Harrisburg, is sending out the warrants for the State appropriations to the various school treasurers. The special appropriation which was received by all the school districts of the State for the past three years, which was granted by a special act of the Legislature of 1902 for a period of three years, expired with last year, consequently all districts are just short that much. The regular appropriation this year is about the same in all cases as last year.
