**A WONDERFUL TREATMENT
 FOR THE LIQUOR HABIT**

Will Remove All Desire For Alcoholic
 Stimulants Within Forty-eight
 Hours and Restore Patient
 to Normal Health.

A treatment has at last been developed
 that is accomplishing wonderful re-
 sults in the reclamation of victims of
 the alcohol and drug habits. It is the
 prescription of Dr. Isaac Oppenheimer,
 a noted physician of New York city,
 who used it in his private practice for
 a number of years and which is now
 being administered at the Oppenheimer
 Institute, New York.

That it has done all that is claimed
 for it is well authenticated by the re-
 ports of many prominent men and
 women who have carefully investigated
 its work and also by the numerous
 testimonials of former patients who
 had been for years sufferers from
 liquor abuse or drug addiction. The
 many wonderful cases that have been
 effected are exciting universal atten-
 tion and there remains no doubt that
 these worst enemies of mankind have
 been finally conquered.

During the time the treatment for
 alcoholism is being administered there
 is no detention from business and it
 can be taken without the knowledge of
 one's family or nearest friend. No
 hypodermics are employed and every
 provision is made to secure absolute
 privacy in every particular. The
 treatment positively removes the crav-
 ing for alcohol within forty-eight hours
 and after a full course of from three
 to four weeks the patient is restored
 to his normal mentality and former
 physical vigor.

The Oppenheimer Institute will send
 any one writing for it literature re-
 lating to alcoholism and drug addic-
 tion that will prove interesting.

NO PLACE FOR DRUNKARD.

Industrial World Reserves Good Po-
 sitions For Sober Men.

The man in business or the man with
 a family has no excuse for getting
 drunk, and the habit of doing so will
 ruin his chances in life or the ob-
 taining of steady and profitable em-
 ployment quicker than anything else.
 The industrial world has great oppor-
 tunities for the sober man, but there
 is no place for the one who indulges
 to excess in alcoholic stimulants. Whisky
 has ruined more homes, destroyed
 more lives, bankrupted more enter-
 prises than any combination of de-
 structive agents.

Inebriety is now generally recognized
 as a disease by the medical profession
 and treated as such. Science has come
 to the aid of the unfortunate, and it
 has been made possible to remove the
 alcoholic craving, which is the root
 of the drink habit, and restore the patient
 to a normal state of health in a short
 time without detention from his or-
 dinary business.

The Oppenheimer Institute Treat-
 ment is especially devised to overcome
 such cases of alcoholism, no matter
 how serious the complaint may be or
 how long stimulants have been used to
 excess. The excellent results attend-
 ing the administration of the treat-
 ment are attested to by many well
 known men of national reputation and
 of highest standing and character.

A periodic drinker in the employ of
 the Otis Elevator company was borne
 with because his services were so val-
 uable. When he went on his periodic
 debauch it was necessary to put three
 men in his place to do his work. At
 last when his furious craving came on
 him he hurried to the Oppenheimer In-
 stitute, and in a few hours his craving
 was gone, and in four weeks he was
 restored and for three years has been
 entirely free from the periodic attack.

Any one interested in the subject of
 alcoholism, its treatment and cure, is
 invited to write for instructive and in-
 teresting literature on the subject to
 the Oppenheimer Institute, New York.

FAMILIES ARE REUNITED.

The Oppenheimer Treatment For The
 Cure of Alcoholism is Accomplish-
 ing Wonders With Sufferers
 From the Drink Habit.

The Oppenheimer Institute for the
 treatment of alcoholism and drug ad-
 diction is achieving wonderful results
 with sufferers from these baneful hab-
 its who take the remedy. Men who
 have been thought irreclaimable and
 were given up as lost by relatives and
 friends have been restored to their
 normal condition of health and men-
 tally with the craving for alcoholic
 stimulants entirely eradicated.

The treatment is simplicity itself.
 There is no detention from business
 and the administration of the remedy
 occupies only a few minutes daily.
 There is absolutely no publicity, as
 the treatment can be taken without
 the knowledge of any one. All desire
 for liquor is entirely removed within
 forty-eight hours.

Alcoholism is now recognized as a
 disease and as such is treated by sci-
 entific administration of the Oppenheimer
 Treatment. The treatment has re-
 ceived the highest endorsement from
 many well known chemists and men

prominent in national affairs and
 throughout the business world. Many
 families have been reunited through
 the Oppenheimer Treatment and fa-
 thers and sons again become the pride
 and honor of the household circle.

A decorative painter had been sepa-
 rated from his family for three years,
 for he not only spent his earnings for
 drink, but pawned anything he could
 lay hands on in the home. His wife,
 an cultivated, refined woman, took in
 sewing and laundry work to provide
 for herself and children, and the eld-
 est boy was kept out of school and at
 work to earn the rent. A minister
 brought this man from a workhouse
 infirmary to the Institute. In twenty-
 four hours he was free from the crav-
 ing, and in less than three weeks from
 the time he began treatment he was
 painting for two days the interior of a
 saloon in the presence of the bar, load-
 ed with stimulants, and had no desire
 for them. The family has been re-
 united, the home life renewed, a bur-
 den lifted from the heart of the wife,
 the children, well fed and well clad,
 sent to school, and all are radiantly
 happy.

If you are interested in the subject
 write to the Oppenheimer Institute,
 New York, and they will send full in-
 formation.

WHY MEN DRINK.

What is it that prompts the average
 drinking man to continue his indige-
 nance through fully conscious of the
 fact that his ruin is being brought
 about?

Does he think that it is a elixir for
 the cure of liquor is now thoroughly
 explained. Probably not one man in
 ten who may properly be considered
 as coming within the category of ex-
 cessive users of alcoholic stimulants
 experiences any pleasure in the taste
 itself. In fact, there are many to
 whom whisky, gin or brandy is posi-
 tively nauseating and who partake
 of these liquors only with conscious
 effort.

Many drink from a desire to relax
 the nerves and escape for a time from
 the cares and worries of their lives. Con-
 vivality may be cited as another cause
 or excuse for drinking, but the drinking
 man is not always with his associates.
 Nevertheless it figures as a big factor
 in the formation of the craving for
 alcoholic stimulants.

While the evils of drunkenness have
 long been recognized, the method of
 its cure has only been solved within
 a few years. It is now treated as a
 disease, and as such can be overcome
 by specially devised remedies. Logi-
 cally and scientifically speaking, the
 only way by which the inebriate can
 be cured is by removing from him the
 craving for liquor, which is the root
 of the evil, and by bringing his
 nerves into such a state that they will
 no longer demand alcoholic stimulant.

Such treatment is administered at the
 Oppenheimer Institute, New York City,
 and is accomplishing excellent results.
 On the advisory board of directors of
 the Institute are Bishop C. H. Fowler,
 Methodist Episcopal church; Rev. John
 J. Hughes, Father Fathers, New York;
 Major General B. C. Corbin, U. S. A.,
 and many other equally well known
 and distinguished men.

**EXCURSIONS
 TO THE WEST**

To the Pacific Coast—to California, Oregon, Washington—
 round-trip, long transit and return limits, liberal stop-over
 privileges.

The rate is practically on the basis of one fare for the round
 trip. Of course, if you wish to visit both California and Oregon
 or Washington, the cost is slightly more.

These reduced rates are in effect on certain dates in months
 of May to October, inclusive. They apply from all Eastern points
 via Chicago, St. Louis or Memphis gateways. The Rock Island
 System will take you up in either Chicago or St. Louis, or at hundreds
 of other Middle West points and carry you to the Coast in through
 Standard or Tourist Sleepers with unexcelled Dining Car service.
 The Rock Island also affords a choice of routes: on the "Scenic"
 route you can stop off in Colorado—see Salt Lake City—visit
 Yellowstone National Park; on the "Southern" route you can go
 via El Paso, thru New Mexico, then "up coast" to San Francisco
 and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good
 chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion
 rates in effect to that section and return, all summer long,
 specially reduced June 30 to July 4, August 12 and 13,
 and August 30 to September 4. Extension trips to Ogden
 or Salt Lake and return at low cost also.

From September 15 to October 31, 1905, one-way
 tourist or "colonist" tickets will be on sale to California and
 the Pacific Northwest—about half regular fare.

If interested, send name and address on this coupon, designating
 which booklet wanted and to what point you plan to go. Name probable
 date of start also, so we can advise definitely with respect to rates, etc.
