## LEGISLATURE ADVOCATES OPPENHEIMER TREATMENT

Special Committee of New York As-  
sembly Recommends its Adoption  
by the State For the Reclama-  
tion of the Drunkard.

The relation of alcoholism to crime  
received serious consideration by the  
senate and assembly in the state of  
New York during the session of the  
present year, 1905, the result being the  
appointment of a special committee by  
the judiciary committee of the as-  
sembly to investigate and report what  
they considered to be the best methods of  
dealing with the treatment of criminal  
inbriates. The report of the commit-  
tee will interest all classes.

About 50 per cent of the convictions  
in the criminal courts of New York  
state are for intoxication, the punish-  
ment in many cases being a term in  
prison, where the offenders are treated  
as criminals. On the expiration of  
their sentences they are sent back to  
the community with the stigma of  
"convicts" or "jail birds" to seek a  
livelihood as best they may.

This treatment of inbriates is inhu-  
man from a humanitarian point of  
view and an enormous expense to the  
state in the maintenance of jails and  
penitentiaries as well as by the sup-  
port of offenders while imprisoned. It  
has been recommended for several  
years past in various official reports  
that some action should be taken by  
the state to better the condition of the  
criminal inbriate and that he should  
be furnished with some means by  
which he could, if he so wished, be-  
come a temperate and law abiding  
citizen.

The special committee made a care-  
ful and exhaustive investigation into  
the various methods for the cure of al-  
coholism brought to their notice and  
reported as follows, in part:

"In Re Criminal Inbriates.—The  
official report of the state commission  
of prisons for 1903 states:

"The taxpayers of the state are an-  
nually subjected to large expense in the  
arrest and rearrest of persons charged  
with drunkenness, and much of the time  
of our criminal courts is occupied in their  
trial, and about one-half of the expense  
of maintaining our jails and peniten-  
tiaries is caused by the maintenance of  
this class of offenders during their term  
of commitment. When a man is in-  
toxicated his reason is dethroned for the  
time being. It is often necessary for the  
protection of the public that he be taken  
into custody and receive treatment at  
the hands of the state. This offense (drunk-  
ness) should not be treated strictly as a  
crime. Drunkenness has in it no ele-  
ment of malice. The law should recognize  
this distinction. The present practice of  
sending him to the jail or to the peniten-  
tiary brand as a criminal to consort  
with thieves only degrades and discour-  
ages him and at the same time inflicts  
punishment and privation upon his fam-  
ily. Some wiser method of dealing with  
this offense should obtain.

"Pursuant to the above recommen-  
dations, the committee have carefully  
considered the need of some action for  
the relief of these dependent and de-  
liriant classes and also various meth-  
ods of treatment of persons suffering  
from alcoholism. Recognizing that  
many of these persons are suffering  
from a disease, some form of medi-  
cal treatment should be given.

"In the judgment of this committee  
the best treatment therefore is that of  
the Oppenheimer Institute, as it is  
strongly indorsed and advocated by  
large numbers of physicians and busi-  
ness and professional men of high  
standing, national repute and unques-  
tioned authority, the treatment itself  
being reported as prompt, effective and  
free from certain objections inherent  
in other systems. A further reason  
for the selection of this treatment is  
its especial adaptability to those  
classes specified by the state commis-  
sion of prisons and the Charly Or-  
ganization society on account of its  
simplicity of operation, no residence at  
an institute being required, and also  
because of its easy administration in  
each city and county of the state.

"Furthermore, carefully compiled re-  
ports show that the Oppenheimer In-  
stitute has already treated with  
marked success a considerable num-  
ber of this class of inbriates, many of  
them at the instance of courts and pro-  
bation officers, both in New York state  
and elsewhere."

The solution of the problem had in  
mind by the committee as being at once  
more economical, more scientific and  
more humane may be shown by a sin-  
gle illustration. The Philadelphia Even-  
ing Bulletin and the North American  
called the attention of their readers to  
a man, a veteran of the Grand Army,  
who had spent most of his time for  
thirty years in jail for drunkenness.  
He was then under his one hundred  
and eighth sentence in the house of  
correction in Philadelphia for intoxica-  
tion. This attracted the attention of  
the Oppenheimer physician, who vis-  
ited the prisoner and with the consent of  
the proper official brought the man un-  
der treatment. In twenty-four hours  
he was entirely free from his craving  
and at the instance of the physician  
was paroled. He came every day to  
the Institute for his medicine and in  
four weeks was completely restored.  
He has had a year and a half of good  
health, lived as a peaceable, orderly  
citizen, a breadwinner and producer of  
value and kept his family off the list  
of public or private charity. This is  
the work that should be done for the  
criminal inbriate in every part of the  
Union.

The Oppenheimer Treatment, which  
is so highly praised by the special com-  
mittee, is being administered in New  
York city by the Oppenheimer Insti-  
tute and at branches in many cities  
throughout the United States, in En-  
gland and other countries. Any one in-  
terested in the subject of alcoholism,  
its treatment and cure, can have sent  
to him without charge interesting and  
instructive literature on the subject by  
writing to the Institute.

## The Oppenheimer Treatment A Factor in Life Insurance

It is well known that a considerable  
proportion of the applications for life in-  
surance are rejected on account of phys-  
ical conditions of the applicants, due in  
a great measure to the presence of al-  
bumen or sugar in the urine. A condition  
indicating or threatening Bright's dis-  
ease is shown by the presence of albu-  
men and is fatal to the chances of being  
accepted. A condition indicating or  
threatening diabetes is manifested by  
the appearance of sugar. Examining  
physicians of life insurance companies  
always seek minutely for symptoms  
of these diseases, and if the slightest  
indications are discovered that they  
exist the applicant is summarily re-  
jected, the risk being recognized as too  
great.

In cases where the use of alcoholic  
stimulants has contributed to these  
conditions it has been found that they  
are amenable to proper treatment, and  
permanent relief can be secured by  
the taking of a course of the Oppen-  
heimer Treatment for alcoholism. In  
fact, it can be safely stated that 90 per  
cent of such cases (if treated) are re-  
stored to normal health. Not only have  
patients been relieved of these infirmi-  
ties, but in numerous instances where  
applicants have been refused by life  
insurance companies they renewed  
their applications and after passing a  
thorough examination were accepted as  
usual, healthy and good risks.

A recent case is that of a man who  
was anxious to insure for over \$150,000.  
He had been a good liver and was re-  
jected by several companies on account  
of albumen. By advice of his physician  
he took the Oppenheimer Treatment for  
alcoholism. In a few days the albu-  
men entirely disappeared and his  
normal health returned in a short  
time. He again applied for insurance,  
and on account of the importance of  
the case was repeatedly examined by  
several physicians and found to be en-  
tirely cured of his trouble. Since then  
he has been accepted for all the insur-  
ance he desired to carry.

The Oppenheimer Treatment for al-  
coholism is of such a character that  
several of the large insurance com-  
panies accept as good risks men who  
have taken the Oppenheimer Treat-  
ment while rejecting the graduates of other  
institutions treating alcoholism.

The Oppenheimer Institute of New  
York has published a report of a spe-  
cial investigation on this subject which  
will be sent free upon request.

# EXCURSIONS TO THE WEST

To the Pacific Coast—to California, Oregon, Washington—  
round-trip, long transit and return limits, liberal stop-over  
privileges.

The rate is practically on the basis of one fare for the round  
trip. Of course, if you wish to visit both California and Oregon  
or Washington, the cost is slightly more.

These reduced rates are in effect on certain dates in months  
of May to October, inclusive. They apply from all Eastern points  
via Chicago, St. Louis or Memphis gateways. The Rock Island  
System will take you up in either Chicago or St. Louis, or at hundreds  
of other Middle West points and carry you to the Coast in through  
Standard or Tourist Sleepers with unexcelled Dining Car service.  
The Rock Island also affords a choice of routes: on the "Scenic"  
route you can stop off in Colorado—see Salt Lake City—visit  
Yellowstone National Park; on the "Southern" route you can go  
via El Paso, thru New Mexico, then "up coast" to San Francisco  
and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good  
chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion  
rates in effect to that section and return, all summer long,  
specially reduced June 30 to July 4, August 12 and 13,  
and August 30 to September 4. Extension trips to Ogden  
or Salt Lake and return at low cost also.

From September 15 to October 31, 1905, one-way  
tourist or "colonist" tickets will be on sale to California and  
the Pacific Northwest—about half regular fare.

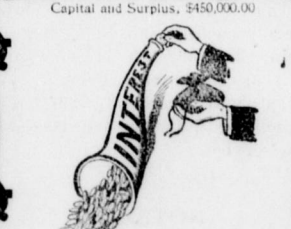

If interested, send name and address on this coupon, designating  
which booklet wanted and to what point you plan to go. Name probable  
date of start also, so we can advise definitely with respect to rates, etc.
