EXCURSIONS TO THE WEST

To the Pacific Coast—to California, Oregon, Washington—round-trip, long transit and return limits, liberal stop-over privileges.

The rate is practically on the basis of one fare for the round trip. Of course, if you wish to visit both California and Oregon or Washington, the cost is slightly more.

These reduced rates are in effect on certain dates in months of May to October, inclusive. They apply from all Eastern points via Chicago, St. Louis or Memphis gateways. The Rock Island System will take you up in either Chicago or St. Louis, or at hundreds of other Middle West points and carry you to the Coast in through Standard or Tourist Sleepers with unexcelled Dining Car service. The Rock Island also affords a choice of routes: on the "Scenic" route you can stop off in Colorado—see Salt Lake City—visit Yellowstone National Park; on the "Southern" route you can go via El Paso, thru New Mexico, then "up coast" to San Francisco and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion rates in effect to that section and return, all summer long, specially reduced June 30 to July 4, August 12 and 13, and August 30 to September 4. Extension trips to Ogden or Salt Lake and return at low cost also.

From September 15 to October 31, 1905, one-way tourist or "colonist" tickets will be on sale to California and the Pacific Northwest—about half regular fare.

If interested, send name and address on this coupon, designating which booklet wanted and to what point you plan to go. Name probable date of start also, so we can advise definitely with respect to rates, etc.

Send Colorado booklet and rates.

Tariff is a Safeguard of the American Standard of Living.

When American production is so enormous that after supplying domestic needs there still remain manufactures to the value of half a billion dollars for export to the markets of the rest of the world, it must be conceded that even out and out free trade would not gain for the consumer any material reduction in the cost of the products he purchases. All that a general tariff reduction could accomplish would be the replacing of American labor with cheap foreign labor.

No longer can the idea of a sweeping horizontal reduction of the tariff be seriously entertained. In a broad sense the tariff is simply an equalizer of labor costs and the safeguard of the American standard of living. As such it has been taken entirely out of the realm of discussion by the ever increasing volume of our exports of surplus manufactured products.—Providence News.

An Educational Force.

Ohio is taking the lead in the establishment of traveling libraries, and the granges are active in furthering the cause. There are 900 traveling libraries issuing from the Ohio State library, and the farmers are by far the largest users of these volumes.

Financially Sound.

With \$87,000 in good securities, the national grange is in position to do things. Conservatism, however, should be and will be the policy in the use of these funds.

National Grange Personal.

National Master Jones and wife were presented with a beautiful silver tea service on his retirement from the chief office in the order.

In view of the fact that O. H. Kelley is to draw \$1,200 a year for life from the treasury of the national grange on account of "meritorious service," he says he hopes to live to be 100. He is now about eighty.

J. A. Newcomb, master of the Colorado state grange, is already getting things in shape for the next annual session of the national grange, which will be held in Denver.

National Master Hachelder comes well equipped to the duties of his important office. He has a broad grasp of the public questions with which the grange will have to deal in the future.

State Master Gaunt of New Jersey won high encomiums for the work which he did to make the national grange feel at home in his state. He was elected to the office of national
