There are other residents who will follow this example in the near future.

The following has been found a sure cure for broken dishes: If the dish to be mended can be tied together with a stout string, then place it in boiling water and leave one hour, you can never tell the dish had been broken and it can afterwards be put in boiling water without the pieces coming apart. This experiment has been tried and proven and many are the broken dishes which are now as good as new.

Notwithstanding courts decision as to the authority of the Pure Food Commissioner of the State to interfere with the sale of liquors, whether they are pure or impure, the activity of experts employed by Dr. H. B. Warren in the laboratories of the State chemist has not ceased.

Whiskey, wines and malted liquors are being received at the laboratories from all parts of the State and analyzed. It is reported here that several special agents have been employed and required to exert even greater activity since the decisions of the court were handed down.

These facts have led to the belief on the part of liquor men and other persons interested in the work of the department that Dr. Warren is planning some coup which will come as a big surprise to the State generally and to rum sellers in particular.

It has been suggested that the commissioner plans to submit to Congress the results of his campaign and urge the National Legislature to take some action designed to put an end to the sale of impure liquors. The data which Dr. Warren can obtain with his agents and corps of experts would, it is believed by some persons, amaze Congressmen and virtually coerce them into taking some decided action.

Dr. Warren declines to say anything concerning the purpose of his activity.

Under the post office appropriation bill which Senator Penrose reported to the Senate last week, rural free delivery carriers are given fifteen days leave of absence each year, exclusive of Sundays and holidays, and \$500,000 is appropriated to pay substitutes.

The Sullivan County Normal School will be held in Dushore this year. The School will open Monday June 25, and will continue four weeks. Prospective students are requested to read the following carefully.

The work will be based entirely upon the Illinois Course of Study. If you own a copy of the Course do not fail to bring it with you.

Text books will be used to supplement the Course, hence uniformity of text books is not important. Bring your own books if you are supplied. A limited number will be supplied with books without charge if carefully used.

The purpose of this School is to increase the efficiency of the teaching force of our County and give students an opportunity of reviewing their studies. Inasmuch as the Illinois Course of Study has been adopted throughout the county it is of pre-eminent importance that the teachers thoroughly familiarize themselves with it. No matter what grade of certificate the teacher may hold, he or she should not fail to make a careful, critical study of this Course, which must be followed in the schools. The best teaching is that done by those who are faithfully and intelligently following this Course of Study, and it is always the best teachers who are in demand.

Only those who are willing to work are desired as students. The work will require lots of hard work and idlers will be out of place.

Despite the additional burden which it places upon him, the County Superintendent, will supervise the work and assist in the effort to increase the teaching power of those who are entrusted with the life interests of the boys and girls of the County.

Remember, this school is not conducted for profit. Every dollar received is expended for the expenses of the school. After paying the instructors a fair compensation for their labor the rest is spent for aid in carrying on the work. Cavin's Orthography and Smith's outlines in History have been purchased with the balance left from last year and will be furnished for use during the school term.

Tuition: Four weeks, \$5; less than four weeks, \$1.50 per week.

Students desiring boarding places and citizens who desire boarders will communicate with any member of the faculty or with the Superintendent.
