The severe electrical storm on Tuesday afternoon carried death and destruction in its wake. A young man named Frantz, near Muncy, struck by a bolt of lightning and killed instantly while standing on the porch conversing with his older brother and his father. The brother was knocked unconscious and it is feared will be left paralyzed. The young man who was killed was badly burned, and his shoes were torn off his feet by the lightning.

At Sonestown the storm was accompanied by hail.

A prominent Berwick man will be placed in charge of the force of 400 meat inspectors to be organized by the government under the provisions of the new meat inspection law. This honor will be conferred on U. G. Houck, son of the late Samuel Houck, a lifelong resident of Berwick.

"If Pennsylvania had lost as many hogs from hog cholera as it has lost human beings from typhoid fever this year the people would be up in arms." This statement, made by Dr. Samuel G. Dixon, had been preceded by the announcement that typhoid is costing the state, in one way and another, \$14,000,000 a year to say nothing of the expense to families, which would add another \$3,639,200.

The petition for a supersedas filed June 8, in the Laporte Boro School Building case was dismissed by the Supreme Court without making any decision as the case evidently had no merit to the court's point of view. The School Directors are now at liberty to again proceed with the erection of a School Building. The Board was at first delayed with their work by an injunction and later by a supersedas but they again have a clear track and are taking advantage of lost time.

We can't vouch for the truthfulness of this statement, but there are so many queer things in this age that it may be true, that in the big cities restaurants have been started with no tables, no chairs, no food, no waiters, Christian science restaurants; you think you eat; so much a think.

Naturalization papers will not be secured with so much ease hereafter owing to the stringent regulations which enforced by the recent amendment to the United States law. The applications must, since July 1st, be made exclusively in the Federal Court, and a much higher grade of intelligence will be required from the applicant, while the procedure specified will have a tendency to do away with much of the fraud practiced throughout the country.

The applicant must be either of the Caucasian or African race, have lived in the United States for five years, be able to speak, read and write the English language; must file his petition in triplicate; and file also information to the date of his arrival and the petition must be filed in the clerk's office for ninety days previous to the hearings.

A fee of seven dollars will be required, a part of which goes to the clerk and a part to the government. The certificate of naturalization gives a complete description of the applicant, his place of birth, age, height, complexion, color of his eyes, special marks upon his person; the name of his wife, her place of birth and age, and the names of her children, their ages, places of birth and residence.

Six women who sat together on the front porch of the home of Daniel Sharadin, Schuylkill Haven, were completely hypnotized by a monster copperhead snake, which emerged from under the porch and coiled itself in front of them. Charles Detwiler saw the women sitting as if paralyzed with their eyes on the reptile. As he looked the snake uncoiled and started to glide toward one of the women. Detwiler rushed in to the yard and struck the snake with a club, killing it. Three of the women swooned after the danger was over.

I take pleasure in announcing to the general public, and to Sunday school people in particular, that J. A. Muller of Princeton University, who labored in Sullivan county last summer in the interest of the Sunday Schools, will be with us again this summer. He will begin his work in the west end of the county about July 1. He will proceed thence to make a tour of the county. The nature of Mr. Muller's work is pretty well understood. He aims to advance the forward movement, gather statistics and create new enthusiasm for Bible study. He made himself deservedly popular last year. I trust that he may meet with a pleasant reception this year and that his labors may be heartily endorsed and ably seconded.

Vernon Hull, Co. S. S. Chairman.
