## Duty of Young Republicans.

Pennsylvania Republicans in the present state campaign expect the club men of the commonwealth to do their full duty, and there is every reason to believe that there will be no disap pointment on that score.

It is announced from Easton that the Republican clubs of the entire county of Northampton are preparing to enter-thin the visitors, and that all will be welcome who come with the delegates and will receive the same courtesies and hespitality as the official represen tat the clubs.

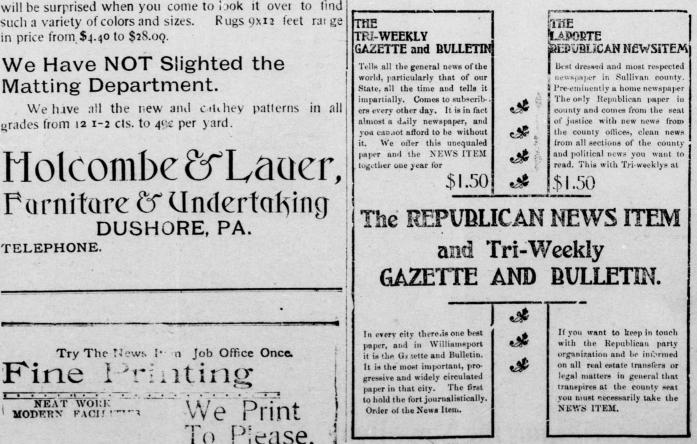

A special committee is at work get. ting Republicans of national fame to promise to address the great mass meeting which will be held on September 20. There are already assurances of the presence of some of the best-known and most popular Republican Told and that the increased earnings due to the Oppenheimer Treatment present an increase of 212 per cent have been invited, and many of the wer the gross previous earnings. In the light of what has been ac-complished through the work of the inpenheimer Institute in reclaiming class of formerly hopeiess drunk-s and in actually restoring their earning power, increasing it more than threefold, it is submitted that this work, already demonstrated in its effectiveness, should be extended throughout each county of each state of the Union and to every country where alcoholism is recognized as a curse.
