Jacob M. Wihnton, MUNCY VALLEY, PA.

MEN OF THE NATION.

Indorse the Oppenheimer Institute and its Great Work For Practical Temperance.

The following excerpts are taken from replies to inquiries relative to the efficacy of the Oppenheimer Treatment as a means of overcoming the drink habit. The names of the persons quoted include well known clergymen, men of national reputation, business men, bankers, capitalists, noted physicians, philanthropists and others of highest standing and credibility.
The Oppenheimer Treatment is administered at the Oppenheimer Institute in New York and at branches in various cities of the United States, England and other countries.
By its means the desire for alcoholic stimulants is entirely removed within forty-eight hours, no detention from the ordinary business pursuit being necessary while it is being taken. A complete restoration to normal health is assured in a few weeks and the craving will never of itself return. The testimonials tell the story of the benefits that are to be derived from a course of Oppenheimer Treatment:
Rev. C. H. Fowler, D. D., LL. D., bishop Methodist Episcopal church, writes: "I am thoroughly acquainted with the Oppenheimer Institute and can say they will do all they advertise. The treatment is a success. It will entirely remove the craving in from six to forty-eight hours. It cures. You can trust both the treatment and the men."
Rev. Henry C. Potter, D. D., LL. D., bishop Protestant Episcopal church, New York, writes: "There are cases personally known to me of persons whom it has successfully treated."
Lady Henry Somerset of London, England, writes: "I have carefully watched the cases which during these past few months passed under his care, and I am quite prepared to state that Dr. Oppenheimer has accomplished what he undertakes. I frankly own that at first I was skeptical as to what the result would be. I had seen so many failures and had hitherto little faith in such remedies, but from the first Dr. Oppenheimer maintained that what he would undertake to do was to kill the urgent desire and craving which might have for stimulants and that he would restore him to health."
Archer Brown of the firm of Rogers, Brown & Co., iron merchants, writes: "I have not the slightest doubt that the Oppenheimer Treatment will take from your friend the appetite for alcohol and leave him free from any injurious effects of the treatment. I have put through some test cases myself to enable me to speak with knowledge, and the results have been most gratifying."
Leroy W. Baldwin, president Empire Trust company, writes: "I unhesitatingly say I believe the Oppenheimer Treatment is all that and even more than is claimed for it. I have had evidence of the most remarkable cures effected by it, and I have no hesitation in recommending it."
Father John J. Hughes of the Paulist Fathers, New York, writes: "I have been convinced from many cases I sent to the institute that the treatment is genuine. You need have no hesitation in urging your friend to take the treatment, provided he is sincere and wishes to be benefited."
Hon. E. E. Jackson, ex-governor of Maryland, writes: "I have no hesitation in saying to you that if your friend desires to be cured of the alcoholic habit the Oppenheimer Treatment will certainly take away all desire for stimulants. I say this because I have seen a very bad case completely cured. Of course it will not prevent your friend from drinking, but it will take away any craving for it and completely build up his health and nerves. My judgment is it is the best and only treatment for such cases."
Hon. Lyman J. Gage, former secretary of the treasury of the United States, now president of United States Trust company, New York, writes: "The institute in question has been very successful, and I think it is better to respect actual evidence. Some aggravated cases of alcoholic and drug diseases have come to my attention showing remarkable success in the way of cure."
Rev. George Edward Reed, D. D., president Dickinson college, Carlisle, Pa., writes: "I know that wonderful cures have been effected and believe that the treatment is better than any other offered to the public. I would certainly advise you to have your friend enter the institution for treatment."
Dr. Edgar V. Moffat, Orange, N. J., writes: "I have availed myself of the Oppenheimer Institute in my practice for the cure of alcoholism and drug addiction and am enthusiastic over its work and results. In my opinion it is the best 'cure' before us today."
Cyrus Edison, M. D., formerly health commissioner of the port of New York, writes: "I have had a pretty extensive experience with the Oppenheimer Treatment, having witnessed its effect in perhaps fifty cases. I consider it of very great value and have yet to see anything but good resulting therefrom. I have noticed no such secondary results as are frequently seen after other so called 'cures.' In fact, patients feel better and stronger than before in every way. The treatment seems to act as a general restorative and as a tonic which absolutely removing desire for the stimulant, either drug or alcoholic."
Mrs. Isabella Charles Davis, international order of the King's Daughters, writes: "I was feeling very nervous and very much run down last winter when I saw Dr. A. W. Chase's Nerve Pills recommended for such a condition. I got a box and tried them. They have done me a world of good, toned up and strengthened my system generally, made my nerves strong, and steady and give me a feeling of life and vigor. The medicine is a good restorative and restorer and I can recommend it highly to anyone needing a 'cure' and general tonic." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase M. D. are on every package.

WRITES: "For nearly two years I have been carefully watching the effect of the Oppenheimer Treatment for alcoholism upon a very large number of patients, and I am convinced that men and women suffering from the dreadful disease can be permanently cured if they will obey the instructions of the physicians at the Institute. If Christians who are working to save the outcast and the suffering would make it possible to place this treatment within the reach of the poor who need it, under conditions that would allow of a ministry to sin-sick souls as well as to diseased bodies, I believe a rescue work could be done that would be without parallel in this country."
A. W. McDougal, secretary of the Bureau of Associated Charities, Newark, writes: "The Oppenheimer Institute is the most successful one now dealing with drunkenness and is indorsed without a reservation by a number of men of national reputation."
Anderson Fowler of the Produce Exchange, New York, writes: "I have pleasure in stating that I have never known the Oppenheimer Treatment to fail to cure alcoholism in any instance. The treatment is so simple that it can be
Reducing Width of Highway.
The sentiment in favor of the reduction of the width of highways from sixty to forty feet appears to be becoming quite general. Petitions from landowners in the different states, we learn, are being made to the highway commissioners to this effect. The claim made is that too much land is allowed to grow up to weeds by having the road so wide, as the extra ten feet could be well utilized if taken into the farm. It is claimed also that by narrowing the legal width of highways a better road can be built and more easily kept in good condition.
National Master Bachelor is the busiest man in nineteen states or perhaps twenty.
"The figures of Cuba's trade with other countries are also given and show in practically all cases a larger percentage of increase in imports from those countries than of imports from the United States. From the United Kingdom, for example, the increase in imports is 34.5 per cent, from Spain 23.8 per cent, from France 48.4 per cent, and from Germany 39.9 per cent, while from the United States the increase is but 12.8 per cent. Thus in the case of each of the countries named the percentage of increase in imports during the first six months of 1904 was greater than that in imports from the United States. Comparing the imports during the first half of 1904 with those of the corresponding period of 1903, Cuba increased her imports from all countries 22.8 per cent, her imports from countries other than the United States 30.3 per cent and her imports from the United States alone 12.6 per cent. In the first half of 1903 the United States supplied, according to these figures, 42 per cent of the total imports of Cuba and in the corresponding period of 1904 39 per cent."
Such are the deductions made by the official bureau of the government charged with the duty of procuring and publishing the facts regarding the nation's trade. It is important, therefore, to note precisely what the results were in order to ascertain just what has been accomplished. Taking only the trade statistics of the United States, Great Britain—or the United Kingdom, rather—Germany, France and Spain since our treaty of reciprocity went into effect or for the first half year of trade since the ratification of the treaty, it is found that during those six months the imports into Cuba were as follows from the countries named:
Six months Per cent ending June 30, of imports 1903. 1904. increase.
United States.....\$13,686,673 \$15,416,503 12.6
United Kingdom 4,919,910 6,097,430 24.5
Spain..... 4,928,555 6,099,984 23.8
France..... 2,249,167 3,257,681 44.4
Germany..... 1,594,116 2,226,223 39.2
It will be seen that the United States has not secured a fair proportion of Cuba's trade under the reciprocity arrangement and that competing countries have obtained the lion's share of Cuba's increased purchases.
Charges Lacked Substance.
Judge Swayne's acquittal on all charges is in no degree a surprise despite the fact that articles of impeachment drawn by the house are supposed to constitute a formidable prima facie case. When the charges were first filed they did not impress the country profoundly, and when the case was presented to the senate they seemed to lack substance.—Washington Star.

To the People:
Rich's Famous All Wool Sock has fallen into competition with a very inferior article. The imitation is so perfect that only an expert is able to detect the counterfeit with its cotton and shoddy mixtures, until the sock is put into service. Unscrupulous competitors are representing the sock as Rich's All Wool, thus deceiving the customer and injuring our reputation.
To protect ourselves and the trade, in the future Rich's Socks will bear a Red Seal Trade Mark printed in White, a facsimile of which is shown above.
Respectfully,
John Rich & Bros., Woolrich, Pa.
