PLAYING NATIONAL POLITICS

the Issue With Roosevelt and Stuart As Their Leaders. [Special Correspondence.]

Philadelphia, Aug. 28. The home-coming of Bryan this week

brings national politics to the front all over the country, and especially in Pennsylvania, where the democratic state convention which named Emery for governor in its platform declared Bryan the certain successor to Roose velt

There is now a clean-cut issue whether Roosevelt or Bryan shall be indorsed by the voters of Pennsylvania this fall.

Republicans For Reform.

It is the argument of the d mocrats and of the so-called Lincom Party, which has been swallowed by the Demwhich has been swallowed by the Dem-ocrats, that only local issues are in-volved. They claim—the Democrats and the Lineohites—that they alone can give good government. Yet, if we take into consideration the work of the recent session of the special legis-lature, we find that every reform delature, we find that every reform de-manded by the most drastic reformer was adopted. In other words, the Republican party gave direct proof that it was not only willing but anxious to lead the movement for political re-form and political regeneration. The platform of the Republican party

and it is useless to deny that it is also one of concern: Two years before the one of concern. Two years before the nominating convention will be held, Bryan is as good as nominated al-rendy. State after state has declared for him through Democratic state conventions. During the past week two more states fell into line. Wisconsin went wild over his name and indorsed him outright as the standard bearer of 1908. Pennsylvania Democrats went on record in practically the same man-ner, for they hailed him as the great Testal \$405,15571 State of Pennsylvania County of Sullivan ss. I. M. D. Philadelphia Republicans are deeply interested in what will probably be the initial meeting of the state campaign. It will be given in the Acad-emy of Music in this city on Wednesday evening, September 12. The meet-ing is to be held in connection with an immense demonstration to be given under the auspices of friends and neighbors of Mr. Stuart in the southern section of the city. Leading busi-nessmen and manufacturers are working with the Republican clubmen to make this occasion a grand success. Money saving advantages It is predicted that there will be the largest turnout of Republican clubs are always being searched for Lose no time in making a ver made in that section of the city, and that the Academy of Music will not be large enough to hold the thou-

Stuart for governor places at the head of the Republican state ticket a clean, up-right and respected member of the party. It would not have been pos-sible to find among the regular Re-publicans any other man of reputation who enjoys more of the good will of the people of Philadelphia than the ex-mayor, and this good will extends in large measure-into the state.

in large measure into the state. "Throughout his career he has been associated with no scandals or abuses of his making or his sanction either in official life or in party management; his personal character is high, and his instincts as a citizen and as a party man are in the direction of honest polities and good government. His ad-ministration as mayor of Philadelphia was one of the two best under the Bullitt act, and in every public or semi-public post to which he has been summoned, his tact, sense and integrity have enabled him to be useful and successful.

"There is no doubt that Stuart is in entile sympathy with the strong plat-form on which he has been nominated, and that if elected governor he may be depended upon to carry it out in the purposes of his administration. "Stuart today is unquestionably stronger than his party, or rather the party organization behind him."

IN NAME OF COMMON SENSE

Why Should Any Intelligent Person Demand Tariff Revision?

Demand Tariff Revision? The United States now leads all the countries in the world as an exporting nation, and yet we have been told since the beginning of tariff discussions that a protective tariff country must neces-sarily be isolated and excluded from the markets of the world.

Isn't it time that even the most ob-durate of free traders should acknowl-edge that they have been in error and that their most cherished dogmas are fallacies? Is it not also time for the American people to learn to exercise a little self control in the presence of conditions which are temporarily not just to our liking?

Never before in the history of our Never before in the history of our country has a protective tariff law been so theroughly vindicated as has the Dingley tariff law. If on the day of the enactment of that statute some enthusiastic friend of protection had predicted upon the floor of congress or elsewhere that in a decade under the operation of that law the United States would become the createst export may volume of our exports and imports would become the greatest export na-tion in the world and that the total volume of our exports and imports would exceed \$2,500,000,000 he would have been looked upon as a dreamer or a broatist a lunatic.

Why in the name of common sense should we not be satisfied with such marvelous achievements? Why should any sensible person be demanding a change?-Burlington (N. J.) Enterprise

Not Put In That Form.

Not Put in That Form. The Democratic idea of restricting immigration is to tear down the pro-tective wall and thus cut American wages to the foreign level, so that there will be no inducement to come to the United States to live. But that argu-ment is never put before American wage earners in its baild simplicity.— Buffalo News.
