EXCURSIONS TO THE WEST

To the Pacific Coast—to California, Oregon, Washington—round-trip, long transit and return limits, liberal stop-over privileges.

The rate is practically on the basis of one fare for the round trip. Of course, if you wish to visit both California and Oregon or Washington, the cost is slightly more.

These reduced rates are in effect on certain dates in months of May to October, inclusive. They apply from all Eastern points via Chicago, St. Louis or Memphis gateways. The Rock Island System will take you up in either Chicago or St. Louis, or at hundreds of other Middle West points and carry you to the Coast in through Standard or Tourist Sleepers with unexcelled Dining Car service. The Rock Island also affords a choice of routes: on the "Scenic" route you can stop off in Colorado—see Salt Lake City—visit Yellowstone National Park; on the "Southern" route you can go via El Paso, thru New Mexico, then "up coast" to San Francisco and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion rates in effect to that section and return, all summer long, specially reduced June 30 to July 4, August 12 and 13, and August 30 to September 4. Extension trips to Ogden or Salt Lake and return at low cost also.

From September 15 to October 31, 1901 one-way tourist or "colonist" tickets will be on sale to California and the Pacific Northwest—about half regular fare.

If interested, send name and address on this coupon, designating which booklet wanted and to what point you plan to go. Name probable date of start also, so we can advise definitely with respect to rates, etc.

POMONA'S FINANCES.

How Shall Money Be Raised—By Fees or Dues?

How shall the Pomona grange secure its finances? Is the question which sometimes arises for discussion in Pomona granges. There is one of three ways—charge members an initiation fee alone, or an initiation fee and yearly dues, or let each subordinate grange pay per capita dues to the Pomona grange. A Pomona grange does not need a large sum in its treasury, and yet a comfortable fund for any exigencies is desirable, remarks a writer in the Country Gentleman. We believe that the initiation fee of 50 cents per member, as in New York, will be found to be sufficient for all the needs of most Pomona granges, and this surely is a most convenient arrangement for procuring the finances of the county grange. If we have a per capita tax for both Pomona and state granges, there will be little left for the subordinate grange, and if annual dues are charged members of the Pomona grange it would require a very considerable amount of labor on the part of the secretary of the Pomona to see that these dues were collected. Where the initiation fee is made the sole source of revenue the Pomona should not admit to its fifth degree session, and of course cannot, any fourth degree member who has not taken the fifth degree. In other words, to open a Pomona grange on the fourth degree and perform all the work in that degree, except initiation of candidates, would be to give the advantages of the Pomona grange to members of the subordinate granges, whether members of the Pomona or not.

DEGREE WORK.

A Maine Paper Thinks It Consumes Too Much Time.

Perhaps the greatest bar to beneficial achievement in some of the younger and most rapidly growing granges in Maine, says the Maine Farmer, is the almost constant inflatory work going forward. Not a few of such have scarcely a regular meeting during the active season which is not devoted to working degrees on classes, which in many instances are composed of but two or three candidates. The work may be well done and is of undoubted interest to those being instructed, but to the members not in the game the constant consumption of time for this purpose sooner or later dampens their enthusiasm for other work of importance.

If the grange in Maine should establish a rule that no degrees should be worked in any subordinate grange except at two stated meetings during each quarter without a special dispensation from the state grange officials, we believe the effect would be of great advantage to the Order. By this method special preparation could be arranged and the work made of a much higher character, thoroughly enjoyable to candidates, spectators and those performing the work.

Waste of time and consequent absence of genuine, enthusiastic discussion of the important problems of local and state interest cannot be neglected by an organization like that which the Patrons of Husbandry has now become. Such neglect can mean only the loss of influence, which never was more needed than at the present time for holding advantages already gained and advancing other essential reformatory measures which organized interests in different lines of activity will use their utmost influence to prevent being secured.

EXPENSES AND PER DIEM.

The Ideal Grange.

I think that the ideal grange will be one which gives some attention to all phases of the individual needs—the social, the intellectual, the financial, the political and the moral or inspiring side. It is a mistake for any grange to permit any one factor to dominate. Nevertheless the grange finds people coming to it with all sorts of preparation for grange service, with all kinds of tastes and with all degrees of education. If it is to live and thrive it must deliberately cater to these varying needs.—Professor Butterfield.

Mrs. Brigham, wife of Colonel Joseph H. Brigham, assistant secretary of agriculture, died in Washington on Nov. 29. She was stricken with apoplexy on the Wednesday previous. Colonel Brigham is past master of the national grange.

THE BARGE CANAL.

Senator Ambler of the New York State Grange Legislative Committee Favors Resubmission.

Senator Henry S. Ambler, who was one of the most ardent opponents of the barge canal scheme in the legislature last winter, will introduce at the earliest opportunity at the next session of the New York state legislature a bill for the resubmission of the proposition to the voters of the state unless prior action may be taken by the legislature for the repeal of the act. Senator Ambler argues that the expenditure of \$101,000,000, as now contemplated, will not suffice for the purpose, but that it will require at least \$300,000,000 to complete the canal. If the canal is constructed he believes it will be a huge burden upon the agricultural interests of the state and upon real estate in the cities. He further says that there has been a radical change in the opinion of many who supported the measure before, as they did not then have full information as to the possibilities of cost of construction nor that it would be inadequate to the purpose. He believes that the canal should be made a national waterway and its construction paid for by the national government. He has recently caused to be sent to the masters of the subordinate granges in the state a communication asking that they forward a petition signed by their members to the canal board asking that no more expenditures be incurred for the barge canal until such time as the legislature shall convene and consider the proposition anew.

New York State Dairymen's Association.

The New York state dairymen's annual convention will be held in Herkimer, N. Y., on Dec. 13-15. This is one of the strongest agricultural organizations in the Empire State, and its aim is educational in every particular. It is self-sustaining, although it receives no state appropriation. Among the speakers will be ex-Governor Hoard of Wisconsin, Dr. W. H. Jordan of Geneva experiment station, Professor Pearson of Cornell and Dr. Hills of Vermont, and several others will be invited. It has been decided to eliminate the exhibition of dairy appliances from the convention for the reason that most of the prominent houses who deal in dairy supplies are now making exhibits at St. Louis at great expense, and the exposition does not close until a late date, which will render it quite impossible for them to make a creditable showing at the convention. Grangers of central New York will attend this meeting in large numbers.

FAIL TO CONVINC.

Free Hide Advocates Have Not Proved Their Case.

The citizen who has fair ground for complaint with the present law or any other law lives in a free country, with the privilege of voicing his dissatisfaction. The best thing such a man can do just now is to try to prove his case before the people. Let him produce the evidence that the existing act seriously injures him in a wealth producing American business and there is enough love of justice, even among the most intense protectionists, to insure for him consideration and redress at the earliest practicable moment.

The assertion may be made with no little confidence that evidence of such a kind has been presented by nobody during the contention lately made over the matter of tariff revision. The men, for example, who have been clamorous for free hides (to which we have no objection) have not explained in what manner the duties on hides obstruct the shoe manufacture, which marvelously expands its product and its exports, reduces its retail prices and holds an absolute monopoly of the domestic market.—Philadelphia North American

CURES
RHEUMATISM
LUMBAGO, SCIATICA
NEURALGIA and
KIDNEY TROUBLE

"5-DROPS" taken internally, rids the blood of the poisonous matter and acids which are the direct causes of these diseases. Applied externally it affords almost instant relief from pain, while a permanent cure is being effected by purifying the blood, dissolving the poisonous substance and removing it from the system.

DR. S. D. BRAND
 Of Brewton, Ga., writes:
 "I had been a sufferer for a number of years with Lumbago and Sciatica in my arms and legs, and tried all the remedies that I could gather from medical books, but without result. I was advised by a number of the best physicians, but found nothing that gave the relief obtained from '5-DROPS.' I shall therefore use it in my practice for rheumatism and kindred diseases."

Sick

Headaches and Dizzy Spells, Weak, Nervous, Wretched, Tired, Until Dr. Miles' Nerve Cured Me.

Are you in a "poor condition"? Are you almost ready to give up from exhaustion, nervousness, headaches, backaches, and dizzy spells? No need to mention the details of a run down or "poor condition" to those who are suffering. Better to tell you of Nerve, the remedy sold on a guarantee to help you, and restore your poor weakened nerves to life, strength and health.

"Dr. Miles' Restorative Nerve has done a great deal for me. In the fall of 1897 my health was in a very poor condition. I was nervous, dizzy spells, and sick headaches made me most miserable. I had been under the care of our local physician for some time, but got no better. I was on the verge of nervous prostration. I had no appetite, and could not sleep. I grew very fatigued as the dizzy spells continued to flash and strength. Oh! those awful days. A lady friend who had taken Restorative Nerve advised me to try it. I bought a bottle at the local drug store and when it was one helping me. I continued taking it according to directions until I had used three bottles when I felt so much better I stopped taking it. I feel that my present greatly improved health is all due to Dr. Miles' Restorative Nerve. I am glad to tell for the benefit of those who are suffering from nervousness, dizziness, and sick headaches, that I recommend the Nerve wholly on its merits as a nerve tonic and restorative."—Miss P. M. Holcomb, Dalton, Mass.
