Work makes men. Luck usually fails. Pluck nearly always wins. To succeed in anything one must overcome obstacles. Force and fiber are built by hardships. Grit is as necessary in the making of a man as gumption. Hardships are not always handicaps. Often they are helps. Hang onto your job until you are sure of a better one. Dependable boys are in demand. And no boy can be depended upon who does not finish the task he sets his hand to do. However disagreeable our work do it thoroughly. Do it better than the average boy will do it. In that way you will come to be known as a dependable boy. And mind you this; men everywhere are looking for capable, honest, gritty, dependable boys. The sooner you let people know that you are that kind of a boy, the sooner you will get a better job. And don't be in a hurry to give up the work you already have. Be sure something better is offered. Wait awhile. Do your work well. Promotion will come. And do not envy the boy who has an easy time. You would much better pity him. He has a good time now, but some day he must "make good." With his flabby muscles and easy habits and his many wants, he stands a far poorer chance than you. Remember above all, young fellow, you are making a man of yourself.

The little son of Dr. and Mrs. A. G. Buxton was dangerously ill last week, with spasmodic croup. Mrs. P. E. Magargle and Mrs. C. A. Starr of Sonestown, attended the funeral of Ernest Laner, on Tuesday.

Bankers have been notified of Washington of a new \$10 counterfeit note, recently discovered by the Secret Service men. It is of the series of 1901, check letter A., Lyons register and Roberts, treasurer. This counterfeit is apparently printed from wood cut plates of excellent workmanship of two pieces of good quality paper, between which heavy pieces of silk have been distributed. The number of the note at hand is 3,592,735. This number compares favorably with the genuine both as to color and formation of figures. The seat is somewhat darker than the genuine. The large X, with superimposed "Ten" is crimson instead of pink.

Over 3,500 people attended the opening of the new Peoples' Department Store at Benton on Saturday. At one time during the afternoon, the place was so crowded that the people could not move and it was absolutely impossible for the clerks to attempt to do any business.

The lead pencil is one of the most common articles in every day use, and nearly 320,000,000 pencils are manufactured in this country every year. To manufacture these millions of pencils there are required 110,000 tons, or 7,300,000 cubic feet of wood, so that each day in the year 300 tons or 20,000 cubic feet of wood are used for pencils. Since practically all of the wood is red cedar, and since the pencil industry is steadily growing, the supply of red cedar is greatly depleted; yet no substitute has been found for it. Leaving out of consideration the imported pencils, the average educated American over 10 years of age uses six pencils of home manufacture each year. Ten years ago he used less than five.
