An exchange tells of a newspaper reporter who interviewed thirty successful business men and found that all of them when boys had been governed strictly and frequently thrashed. He also interviewed thirty loafers and learned that twenty seven of them had been "mamma's darlings," and the other three had been reared by their grandmothers.

WOMAN WHO TALKED "PARK"
Scheme to Secure Her City a Beautiful Pleasure Ground.

Had it not been for a woman's idea Bay City, Mich., would probably not now be preparing to convert a blue acre strip of river front, occupied by business houses, into a public park, says the Detroit Free Press. The woman is Mrs. Alfred E. Bousfield, wife of one of the wealthiest residents of Bay City. Mr. Bousfield is one of the three men who brought the \$250,000 hotel and auditorium project to a successful issue.

The day the old Fraser House burned Mrs. Bousfield began talking "park" in earnest to her husband. The latter became impressed with the idea, and he broached it to S. O. Fisher, president of the board of trade, and C. A. Eddy, his associates in the hotel project. The three gentlemen presented the scheme to the public, and it was ratified at the polls election day by a 4 to 1 vote.

As a result of Mrs. Bousfield's idea the new hotel will cost \$50,000 more than originally planned, fourteen new business blocks in the business district are in the hands of the architects, over \$400,000 has changed hands in downtown realty, business property has increased in value from 25 to 100 per cent, and buildings valued at \$125,000 are to be torn down.

Interest in the hotel and park proposition, however, had aroused people generally in matters of civic improvement, and Mrs. Bousfield, always more or less interested in municipal improvement work by local clubs, took a leading part in the organization of the new Woman's Civic Improvement league. She threw open her home on Center avenue for meetings, to which women of all classes of society were invited. Other wives of wealthy men followed the example, and now the membership of the league is mounting rapidly toward the thousand mark.

Absolute democracy prevails among the members, and women who have never before known each other owing to differences in the social scale are working hand in hand. They have overthrown all municipal precedents, made a grand assault on the council and secured the aid of the city in cleaning up the town, the city furnishing the teams to haul away the accumulation of a winter's debris from all private residences.

Newspapers Help Grange Work.
Editors of country newspapers are well disposed toward the grange. They will use write-ups of meetings of local granges if they are furnished them; they will announce the programme in advance; they will lend valuable aid to the grange movement. But they expect reports to have something in them. They want grange news, too, not stuff ten days old. Every grange should have a local press correspondent who should be selected with special reference to his fitness for the work.

GRANGE FOR GOOD ROADS.

A Purely Grange Road Bill Now Before the New York State Legislature.

The New York state grange legislative committee has had a new bill prepared amending the Fuller-Plank law, so that poorer towns will receive a larger share of state aid and grading the towns according to the average assessed valuation per mile of road rather than the valuation per town. In its grading of towns for state aid under the money system the grange bill uses the assessed valuation as equalized by both the board of supervisors and the board of equalization.

There were numerous good road bills before the legislature, but none of them took account of the inequalities that appeared in the working of the old law. The grange bill proposes to give towns with a valuation of less than \$5,000 per mile a 100 per cent addition to that which they raise themselves; those between \$5,000 and \$7,000 valuation, 90 per cent; between \$7,000 and \$9,000, 80 per cent; between \$9,000 and \$11,000, 70 per cent, and between \$11,000 and \$13,000, 50 per cent. A limitation is fixed for towns with \$25,000 per mile valuation not to exceed \$25 per mile annually, and towns with a mileage valuation exceeding \$25,000 will not be permitted to draw more than one-tenth of 1 per cent of their total valuation. This is purely a grange good roads bill.
