A destructive fire occurred at Dushore last night when the large planing mill was completely destroyed. The mill was owned by a company, one of largest stockholders being ex-treasurer Frank Lusch. The loss will be heavy as there was no insurance, it having expired about two weeks ago. We have not been able to learn anything concerning the origin of the fire.

Geo. VanBuskirk who was tried and convicted of second degree murder at last term of court, was refused a new trial and sentenced to twelve years of solitary confinement in the Eastern penitentiary.

In the Berwick Enterprise appears a large advertisement offering twenty acres of land free to those who wish to establish industries in that town. Berwick has made a wonderful growth in the past dozen years and is reaching out for greater things in the future.

The smallest fine ever imposed by an alderman was that inflicted by a Nanticoke alderman on two prominent young men of that city. They were each fined two cents for passing over a bridge without paying toll.

Stumbling over a bale of hay Saturday morning in the hay loft at the barn of Michael Devany's hotel at Emmons, Edward Kellar of Unityville, fell through the hay hole and, alighting on a sleigh, was so badly injured that he died in a few minutes. He was a brother of Mrs. John Gansel of Muncy Valley.

The Muncy Valley Farmers' club of Hughesville, Wednesday night elected Edgar R. Kiess president; S. D. Townsend and W. A. Ball were chosen vice presidents. The association is now in good shape, and under the new management success for the next Hughesville fair is almost an assured thing.

The heavy rains of the early part of the week caused the streams in this vicinity to rise considerably. But as for the county seat, it is perfectly safe from the dangers of high water. Our sister village, Sonestown is not so fortunate. On Tuesday the swollen streams near that place overflowed their banks and took another course, forming a creek on Main street of that village. Many cellars were flooded, and the damage to the roads will be considerable.

Thirteen thousand acres of wild land located in potter county, has been purchased by the State Forest-commission for the sum of \$26,131.

**Problems For Which the Serious Mind- ed Are Needed to Solve.**

There is nothing that women cannot do, but the work must be planned with a thoroughness that precludes failure and done with a modesty which is the inherent charm of the superior sex, says the Woman's Home Companion.

As I said, every community has its own problem. Most of these originate outside of the home. Pure water, pure food, pure air, clean streets, sanitary schools and tenements, district nursing, the education of the ignorant in the care of babies, the question of paupers, the public baths and traveling libraries, the treatment of our women prisoners in prison and after, the lodging house problem—these are only a few of the civic puzzles crying for trained women to solve.

A woman does probably her greatest share of her duty as a citizen when she makes a home a safe and happy harbor of refuge from a stormy world, when she brings up her children into noble manhood and womanhood and when she does not destroy her husband and family by bad cooking and bad temper, but that same woman crowns her career as a citizen when she interests herself in and becomes a vital part of some problem of government. A woman successful in home life is desperately needed in civic life.

It is not a question of how much a man knows, but what he can make of what he knows.—Holland.

A School Coinage. It is not a generally known fact that the Bluecoat school (Christ's hospital) once possessed a coinage of its own. At that time the coin of the realm could not be used at the hospital. Before he could buy anything in the "tuck shop" a new boy had to get one of the headles, who were the school money changers, to change his shillings and pence into "house money," as it was called. This was made of copper, the coins being octagonal in shape, with their value stamped on them. These curious coins are now very rare, and numismatists possessing any are fortunate.—London Captain.
