Vast flocks of wild ducks and geese frequented the rivers and bays and were looked on as the least expensive portion of the food which the Virginians had to procure. Fish of the most delicate and nourishing varieties were caught with hook or net. Oysters and shellfish could be scraped up by the bushel from the bottom of the nearest inlet or tidal stream.

Apples, peaches, plums and figs grew in abundance. Not only were grapes cultivated, but excellent varieties grew wild through the forest. Such an abundance of wild strawberries could be gathered that no attempt was made to raise the domestic berry.

The watermelon flourished, and in hominy, the roasting ear and corn pone the Virginians possessed articles of food of great excellence, which were entirely unknown to the people of the old world. There was produced on every plantation an extraordinary quantity of walnuts, chestnuts, hazelnuts and hickory nuts. Honey was obtainable in abundance, both from domestic hives and from hollow trees in the forest.

Bad Night For the Show.

Piloting an unknown show through a starving territory is no cinch, but I have thought out a good idea. In anticipation of each engagement I am going to call out the reserves and when they are out they will be invited in. That will help fill the house.

You have heard of the various excuses for light business—"because the night is so dark," etc. This is a hot one:

"Young man," said the local manager to the agent on his first tour, "why do you bring your troupe here on a Saturday night? Don't you know you won't do any trade?"

"What's the difference between Saturday night and any other night?" asked the agent.

"Because everybody's getting shaved."—New York World.

This is the one phonograph that gives you all the sound vibrations. It has not only two horns, but two vibrating diaphragms in its sound box. Other phonographs have one diaphragm and one horn. The Duplex gets all the volume of music other phonographs get the half. Not only do you get more volume, but you get a better tone—clearer, sweeter, more like the original. Our
FREE CATALOGUE
will explain fully the superiority of The Duplex. Don't allow any one to persuade you to buy any other make without first sending for our catalogue.
Save all the Dealers' 70% Profits
The Duplex is not sold by dealers or in stores. We are Actual Manufacturers, not jobbers, and sell only direct from our factory to the user, eliminating all middlemen's profits. That is why we are able to manufacture and deliver the best phonograph made for less than one-third what dealers ask for other makes not as good.
All the Latest Improvements
The Duplex is equipped with a mechanical feed that removes the record of all the destructive work of propelling the reproducer across its surface. The needle point is held in continuous contact with the inner (which is the more accurate) wall of the sound wave groove, thus reproducing more perfectly whatever music was put into the record when it was made. The Duplex has a device by which the weight of the reproducer upon the record may be regulated to suit the needs of the occasion, thus greatly preserving the life and durability of the records. These are exclusive features of the Duplex and can not be had upon any other make of phonograph. Plays all sizes and makes of disc records. Our Free Catalogue explains everything.
