## \$24,000---\$44,000 Which Do You Prefer ?

The average man earns about \$1,100 a year. He works 30 years and earns a total of \$44,000 in a life time. The average day laborer gets \$2,000 a day or \$600 for a year of 300 days. He earns \$24,000 in a life time. The difference between \$44,000 and \$24,000 is \$20,000. This is the minimum value of a practical education in dollars and cents. The increased self-respect cannot be measured in money. Why not stop plugging away at a small salary when the International Correspondence Schools, of Scranton, Pa., can give you an education that will make a high salaried man of you? No matter what line of work you care to follow, this great educational institution can prepare you in your spare time and at a small cost to secure a good-paying position. Our local Representative will show you how you can triple your earning capacity. Look him up today. He is

### Sunday School Convention.

The Annual Convention of the Sullivan County Sunday School Association will be held at Dushore Pa. on Thursday and Friday August 20th, and 21st, 1908. The first session will begin at 10:30 A. M. on Thursday. Each Sunday-school in the county is earnestly requested to elect the full quota of delegates and see as far as possible that they attend. Sunday-School Superintendent and Pastors are delegates by virtue of their office do not need to be elected. The committee of entertainment at Dushore earnestly request that the names of delegates elected and the Sunday-Schools to which they belong shall be sent to the chairman of the committee or to the Editor of the Gazette Herald at the earliest possible moment. Elect your delegates at first opportunity. This does not bar out delegates whose names are not furnished, but is a matter of courtesy and will be greatly appreciated by those having the entertainment to look after. The general public are invited to the sessions of the conventions. An attractive program, including good music and interesting speakers has been provided.

All interested in Sunday School work should make an effort to attend at least one session of the convention.

Respectfully Vernon Hull  
County S. S. Chairman.

The Lock Haven State Normal School meets these requirements and its large patronage is the best proof of this fact. It has a fine faculty made up of graduates of the best training schools and colleges in the United States and foreign countries. The expenses are moderate and its home influences are particularly attractive. Its location is unsurpassed in this state and its regulation equals the best anywhere. Address the Principal for illustrated catalogue.

The present season promises to be a prosperous one for farmers of the North Tier. The hay crop, which is being harvested, is reported to be a large one and of excellent quality. While potatoes are backward, the crop promises an abundant yield. Oats and corn will both be shy. Rye and wheat are ready for harvesting and looking fine. The acreage of buckwheat is the largest in many years.

Farmers are puzzled to know what disposition to make of the bumper hay crop they are now lifting. Many of them kept last season's crop in the hope that the price would advance above \$15 per ton, only to find that the price slumped steadily. As a result, many tons of last seasons hay are still unmarketed and their is little or no demand for it. Hay is now selling at \$10 and \$11 a ton, but it must be a good article to bring that price.

In order more profitably to utilize the crop, many farmers are already starting to fill their silos preparatory to disposing of a portion of the corn yield in the same way. Giving as their reason that more money can be realized by feeding stock than dumping the grain on the market.

The farmers in this section are worrying over hard times, but are at a loss to find means of disposing of their products in already overcrowded markets.

The series of mystery stories now being published by "The Philadelphia Press" are surely the most interesting thrilling and fascinating stories that have ever been published by any newspaper. The stories are filled with thrilling experiences, baffling plots and tragic endings, which keep the reader deeply interested from beginning to end.

"The Philadelphia Press" also publishes the recognized sporting page and is the known authority among base ball fans. It is thoroughly accurate, reliable and is full of ginger and is written by men who know. "The Press" devotes more space to interesting sporting news than any other Philadelphia paper

Europe, which is nothing if not economical, has found out how to get money out of sawdust. In this country it is one of the puzzling wastes in lumbering operations. The waste is serious, too, for the kerf—the part cut off by the saw in the mill and transferred into sawdust—always bears a rather high ratio to the boards obtained. In cutting thin stuff one fourth of the log, and even more may be kerf. Efforts to turn sawdust into pulp for the paper mill has usually been unsuccessful on account of mechanical difficulties in handling. In several European countries however a way has been found of turning sawdust to account. The sawdust chiefly pine and fir, is ground with millstones, exactly as old time mills made cornmeal, wheat, or rye flour. Expensive machinery is not required, but it is necessary to take special precautions against fires which might start from sparks between the millstones. The sawdust is sold to the dynamite factories to be mixed with nitroglycerine and forms the body or absorbent for that high explosive. It is also in demand for the manufacture of cheap blotting papers. The mills in the Harz Mountains, in Germany an important manufacturing center, are kept busy meeting this demand. The price of the flour in Germany ranges from 7.50 to 12, 50 a ton. It is shipped in bags, like meal, or in bales of about 40 cubic feet, made by high pressure.

### Meyers Family Reunion.

The first annual meeting of the Meyers family Reunion was held at Strawbridge Aug. 1, at the pleasant home of James Myers. Here gathered the descendants, relatives and old neighbors of Jacob and Fredrea Myers, who came to this county from Germany in 1847 and settled on a farm three miles south of Muncy Valley near Beaver Lake where they raised thirteen children, eleven of whom were present. Everybody enjoyed a pleasant day, and old friends and relations met who had not seen each other for years.

After a hearty dinner the following officers were elected; Jacob Myers; Pres., John Myers; Treas.; Percy Bay; Family historian, Tracy Lawrenson; Sec'y. Addresses by Rev. S. B. Bidlack of Muncy Valley and Rev. Cooper of Unityville, were appreciated by every body. Stories of life on the farm when boys, were told by Jacob, Henry and John Myers which proved very interesting to the young people. It was decided that the next meeting is to be held at Strawbridge on the first Saturday in August 1909. The benediction was pronounced by Rev. Cooper and the meeting adjourned.

The following are the names of persons present: Mrs. Fredrea Stuemple an aged sister of the late Mrs. Jacob Myers, Mrs. Laura Deckert, John A. Myers and wife, Jacob A. Myers and wife, Henry B. Myers and wife, David C. Myers and wife, George W. Myers and wife, Lafayette L. Myers and wife, Mrs. William Myers, James M. Myers and wife, Albert T. Myers and wife, Charles T. Shunk, Pa., Aug. 1—The Shunk Base Ball Team went to Estella today and after nine fast and exciting innings downed the Estella aggregation at the tune of 4-3. Brinchley of Shunk pitched a great game throughout; only thirty-one men facing him in the nine innings. Mac Mamire starred at shot. For Estella, Jennings covered ground around second like a professional and lead his team mates at bat with two safe bingles.

There was no unpleasant wrangling to mar the good features of the game and the Shunk boys are unanimous in their praise of the courteous treatment given them by the Estella baseball people.

### BERNICE ITEMS.

Mrs. Wm. B. Brown and family are visiting his parents Mr. and Mrs. Daniel Schoonover of Mildred.

Misses Nellie Deiffenbaugh of Cleveland Ohio is visiting her uncle and aunt Mr. and Mrs. S. A. Dieffenbaue.

Miss Ednie Tubiech of Dushore spent two days last week with her friend Ruth Meyers.

The tariff question is not troubling Mac but he will argue the fish question with any man.

John O'Connor of Mildred is playing ball with the Wilkes Barre team.

Miss Cora Lilly of Sayre returned to her home after spending some time with her friend Ruth Meyers. James J. Connors has been cured of insomnia since he started out as a horse trainer.

H. P. McLaughlin was a Shamokin visitor last week.

Quite a number from this place were Elmira visitors Sunday.

Mr. and Mrs. C. E. Jackson enjoyed an automobile ride to Wyandling Friday along with Hon. A. L. Dyer of Lopez.

C. E. Jackson has sold the contents of his drug store and rented the building to Harry Biddle of New Albany who will take possession about Sept 1st., and will continue to compound drugs at the same old stand.

If their are any farmers who purchased cream separators from Sears, Roebuck and Co., one of the largest mail order houses in the country they might as well prepare for trouble. This firm has been selling cream separators the right to manufacture which it claimed. The Vermont farm machinery company sued Sears Roebuck and Co., for infringement of a patent covering cream separators and the New York court of appeals has decided that the claim of the Vermont company was just mulcting the mail order house in double damages. The mail order house will also be compelled to stop the sale of this particular cream separator.

The court also decided—and this is where the farmers who bought the machines will be interested—that Sears Roebuck and Co. must furnish the Vermont company with the names and addresses of all persons who bought the cream separators from the former. It is evident that Vermont company wants these names for some purpose, the obvious purpose being to compel the farmers to pay the penalty for using separators which were purchased from Sears Roebuck and Co. If this is the case those farmers who have been using these machines will have been given an expensive object lesson of the folly of dealing with mail order houses which may have more beneficial effects than all the moral suasion which has been employed to show them the wrong of that practice.

Cottagers at Harveys Lake are very much dissatisfied with the conditions around the lake, owing to the fact that the waters of the lake are being drawn off, leaving a wide strip of mud and slimy ooze, instead of clean grassy banks.

The situation is the result of a quarrel between property owners. Years ago Dr. Troxell, who owns nearly all the land at the outlet of the lake, built a dam and raised the water several feet. It overflowed the land of Judge Lynch at the end of the lake, who brought suit for damage. It covered \$4,000, and Dr. Troxell, supposing that ended the matter, let the dam remain as it was. Now he is confronted with another suit for the value of the land over flowed, and as the cottagers refuse to come to his aid in defending the case, has commenced drawing off the water and when it gets low enough to be safe to do so he will dynamite the dam, letting it all out but the natural pond, unless some way of settling the difficulty is found. The boat landings and bath houses are already high and dry upon land. New Age.

The sixth annual meeting of the Rogers family association will be held on the fair ground at Forksville Sullivan county, Wednesday, August 26.
