RULES OF PROCEDURE

May Be Made a Feature of an Evening's Programme.

State Lecturer Lowell of New York Submits a List of Parliamentary Questions and Answers Which Grange Members Will Find Instructive.

No meeting of the grange can be conducted correctly without some knowledge of parliamentary rules, and as there is, we believe, a very considerable lack of knowledge of such rules and in order that members may be posted upon the more important parliamentary questions that arise without having to take the trouble to look them up for themselves State Lecturer Lowell of Fredonia, N. Y., has prepared the following parliamentary questions, with their answers, which we suggest can be made an interesting feature for an evening's programme. The lecturer might assign these questions to members at a previous meeting or call upon members without giving them previous notice and ascertain how many are capable of answering the questions without consulting Cushing's Manual or some other equally good authority:

1. Is it in order to lay an amendment on the table?
 No: It is done sometimes to kill a question before the house, to get some one to vote who thinks he is getting rid of the amendment only. If you lay an amendment on the table, the main question goes with it. It is not good parliamentary form.
2. May a member arise to a question of privilege and speak on the question before the house?
 No.
3. How many times may one person speak on a question and not be out of order?
 If he moves the question, twice; if not, once.
4. When a question of privilege is before the house and a motion is made to take up the order of the day, what becomes of the question of privilege?
 It is lost.
5. When a person wishes to make remarks on a motion of his own should it be done before or after stating the motion?
 Always before.
6. Can you tell whether the following questions are debatable or undebatable or whether they require a majority or two-thirds vote to be carried?
 (a) Motion to close debate. Requires a two-thirds vote, undebatable.
 (b) Objection to the consideration of a question. Requires a two-thirds vote, cannot be amended, is undebatable.
 (c) Motion to limit debate. Requires a two-thirds vote, is undebatable, can be amended.
 (d) Motion to extend the limit of debate. Requires a two-thirds vote, is undebatable, can be amended.
 (e) Motion to take up the previous question. Requires a two-thirds vote, cannot be amended, is undebatable.
7. Can you tell what questions can be amended and what cannot?
 There are nineteen questions which cannot be amended. Here are some of the most important ones: Motion to adjourn, amendment to an amendment, call to order, lay on table, take from the table, withdrawal of a motion, objection to the consideration of a question.
8. How and when may a question be reconsidered?
 At the meeting when the motion was passed or the next following. The mover must be one who voted on the prevailing side; requires a two-thirds vote.
9. Can all questions be reconsidered?
 No.
10. If an appeal is taken from the decision of the chair and the vote is a tie, what is the result? Why?
 It is lost, because if half the voters are with the chair he makes a majority.
11. Can a presiding officer vote after the votes have been counted?
 In some cases by unanimous consent he can cast the deciding vote.
12. Can you correctly dispose of an amendment to an amendment?
 First put the amendment to the amendment, if carried, put the amendment as amended; if carried, put the original question as amended; if lost, put the question as they come, beginning always with the amendments.
13. What is a point of order?
 When a person is speaking and states something wrong any one may arise and say, "I arise to a point of order." The chairman shall say, "State the point of order." The one rising shall then cite wherein the speaker has made a wrong statement, and if the chair sustains the point of order the speaker shall sit down; if it is not sustained and no appeal is taken, the speaker may continue.
14. Question of privilege—when made?
 It may be made when a speaker has the floor. As soon as it is disposed of the assembly resumes the consideration of the question which was interrupted.
15. Objection to consideration of question—when made?
 When a question comes up which any one thinks should not be discussed he may object to its consideration. Cannot be amended, is undebatable, requires two-thirds vote, does not require a second and is in order when another has the floor.

Always before.

6. Can you tell whether the following questions are debatable or undebatable or whether they require a majority or two-thirds vote to be carried?
 (a) Motion to close debate. Requires a two-thirds vote, undebatable.
 (b) Objection to the consideration of a question. Requires a two-thirds vote, cannot be amended, is undebatable.
 (c) Motion to limit debate. Requires a two-thirds vote, is undebatable, can be amended.
 (d) Motion to extend the limit of debate. Requires a two-thirds vote, is undebatable, can be amended.
 (e) Motion to take up the previous question. Requires a two-thirds vote, cannot be amended, is undebatable.

Short Talks on Advertising
 By Charles Austin Bates.

No. 19.

People generally read advertisements more than they did a few years ago. The reason is to be found in the advertisements themselves. Advertisers are more careful than they used to be. They make the advertisements more readable. Some of them even become, in a way, a department of the paper, and people look for them every day with as much zest and pleasure as they turn to any other feature.

This is true of many department stores all over the country. In many cities there is just one man who appreciates the value of such interest. He breaks away from the old set style. He tells something interesting in his space every day.

There are lots of interesting things in business. Look over the miscellany page of any paper—look at its local news columns, and its telegraph news, for that matter, and you'll see that the majority of the items are more or less closely related to some business fact.

Dress these facts up in a becoming garb of words, and they will find readers, even though they be in a "mere advertisement."

Let the merchant come down off his pedestal. He needn't be flippant—far from it, but let him not write as if he were addressing somebody afar off, and telling him about something at even a greater distance.

The newspaper goes right into its reader's house—goes in and sits down with him.

It is on the table when he eats, and in his hands while he is smoking after the meal. It reaches him when he is in an approachable condition.

That's the time to tell him about your business—clearly, plainly, convincingly—as one man talks to another.

Neighbors' Night in the Grange.
 Where granges are conveniently located one to another it may be well for them to exchange programmes occasionally—that is, a programme prepared at one grange may be given at a neighboring grange and the exchange be made of mutual interest. Occasional debates between neighboring granges are also interesting and profitable.

Washington State Grange.
 Washington state grange is showing what an earnest organization can do in securing the enactment of laws for the establishment of direct primaries, the Torrens land system and an appropriation of \$10,000 for farmers' institutes.

For the information of inquirers it may be stated that in the absence of the master of the grange the overseer or a past master of the grange who is presiding has all the prerogatives of the office.

The Improved U. S. Separator
 Separates the Cream from the Milk not Husband from Wife.

No Jawing from the Women.

EAST SHOREHAM, VT., March 12, 1898.
 I like the No. 4 Improved U. S. Separator bought last year very much. It skims to a trace, and puts the product of our dairy in such a shape that we have realized a per cent. more from our cows this winter than ever before (this is a fact). It has been run for 2 months, and not cost a cent for repairs. The enclosed gearing is, to me, a great thing. I would not have a separator that the bowl did not empty itself. The draft is the lightest of any machine that I ever turned, and I have had experience with two others. The bowl is so easy and simple to clean that it does not come into account. The calves are doing the best that I have ever had them do. No jawing from the women. This separator makes them always pleasant, for it saves them nine-tenths of the work of the dairy. Now I do not write this for your benefit, but for the good of some one who may be trying to decide whether and what to buy for a separator. Your sales here show that some of us are of the same mind on the separator question.
