The action of the appropriations committees at Harrisburg in making \$90,000 available for the payment of bills in connection with the stamping out of the foot and mouth epidemic among Pennsylvania cattle, indicates the cost of the successful effect to check this disease that has cost European countries millions of dollars to stamp out. Of the new appropriation \$35,000 will be returned to the state treasury to make good for money already expended in the emergency About \$40,000 will be required to pay for the cattle that have been killed and the cost of inspection, quarantine and damages to property will amount to as much more. An idea of the manner in which the recent cattle disease affected prices may be gleaned from the prices bid by farmers of Bucks county quite recently on a load of cows, the lowest figure being \$52 per head. High prices will no doubt prevail until such times as there is a greatly increased supply of cattle.

The new and bright comic features are now appearing in the PHILA-DELPHIA PRESS. They are entirely new and very funny, drawn especially for the Philadelphia Sunday Press

Mr. Softleigh is an easy old gentleman and is always getting into trouble because "He cannot say no," his experiences are very interesting and funny.

The other new feature is an interesting little chap called "Clumsy Claud" who tries to help his papa in all his undertakings. He is very ambitious and industrious, but his results are always the reverse, for he is always getting into some mischievious trouble on account of

being so clumsy,
These new features will appear regular every Sunday in the comic section in the of the Philadelphia Sunday Press. Also our famous hairbreadth Harry. Oil Roads in liftnois.

A most interesting experiment is being conducted in central Illinois, near Springfield. The state highway com-Springfield. The state highway com-mission is making a test of oil on coun-try roads. While oil roads are no nov-elty in many parts of the United States, they are not known on the heavy black soil of central fillinois. The top soil of the road is being mixed with an asphalt oil to a depth of six inches. What the results will be no exinches. What the results will be no one an predict, but this may be the solution of the good roads problem. In many parts of the Sucker State stone roads are out of the question. out the material near at hand the great prairie states cannot expect to have stone pikes, as do some of the eastern states. Good roads must be secured by drainage, special care and possibly by the use of oil. This experi ment will be watched with a great

Road Building Picnic.

"Don't you people ever work the roads in this section?" asked an automobilist as he pried the rear wheel of his machine out of a rut with a fenc

"Work 'em? Well, I should say we do," answered Uncle Charlie Scaver from the top rail of the fence. "Why we work these roads on th' assess ment plan. None of that money sys-tem for us fellers. Every farm is as-sessed so many days' work on th-highway, an' after th' farm work is all done an' we ain't nuthin' else ter do we all turn out, thirty or forty o' us with plows, borses picks, shovels us, with plows, horses, picks, shovels an' hoes to work th' roads. I tell you it's a picnic. Work? Why, they make th dirt fly until they get tired. Then we find some shady spot to rest, eat our lunch, drink some cider, smoke an' maby play a game or two of seven up An' we call it a day."

Capitol Hill, said:
"I am very much impressed with your state capitol. The entire building is one of which you may well be proud. For the scheme of park extension from For the scheme of park extension from the capitol I have only commendation. It is badly needed. I have thought so frequently in passing by on railroad trains. Never was I more impressed in this way than today. By all means extend the park, and do it now. The thousands of travellers will then be able to obtain a satisfactory view of your handsome state house."

Aside from the appearance of things

Aside from the appearance of things there are practical and economic rea-

sons in support of the park extension project. Harrisburg is rapidly devel-oping as a manufacturing city, and property values are going up by leaps property values are going up by leaps and bounds. Every year of delay will largely increase the price that the state will have to pay for the property. It is only a matter of time until the growth of the state government will require an extension of the present building on the acction of new grouns. building or the erection of new groups of buildings. The public grounds as they are today would not permit of

such addition.

Leaders of all parties and public men generally are outspoken in their belief that now is the time to make a start on the extension of Capitol park

start on the extension of Capitol park During a visit to Harrisburg on Jan. 19 last, Senator Boies Penrose said: "I am earnestly in favor of Capitol park extension. It is an entirely proper and legitimate undertaking for this great commonwealth. Harrisburg has great commonwealth. Harrisburg has for several years expended large sums as a municipality, and through the direct investment of its citizens is making the seat of the state government ideal in every way, and it is therefore right that the commonwealth should exhibit the same enterprise in providers for the meanifecture of the Medical Commonwealth should be for the meanifecture of the Medical Commonwealth should be for the meanifecture of the Medical Commonwealth should be for the meanifecture of the Medical Commonwealth should be for the meanifecture of the Medical Commonwealth should be for the meanifecture of the Medical Commonwealth should be for the meanifecture of the Medical Commonwealth should be for the meanifecture of the Medical Commonwealth should be for the meanifecture of the Medical Commonwealth should be for the medical Commonwealth should be for the medical Commonwealth should be seen to the same should be should be should be seen to the same should be sh ing for its magnificent capitol building

"There is no reason whatever for postponing this needed improvement. The state is abundantly able to undertake the work and it would seem to be the height of folly to further delay the inevitable extension of the public grounds. Millions of dollars are being grounds. Millions of dollars are being expended by the national government in improving the city of Washington, and no loyal citizen of Pennsylvania will object to the making of a proper setting for the capitol here.

"From what I can gather of the sen-timent of the legislators there is little

timent of the legislators there is little doubt that the Capitol park extension measure will be sent to Governor Stuart for his approval at the present session of the legislature."

Senator Penrose's confidence in the passage of the bill at this session is shared by members of the legislature generally. They realize that the park extension can now he authorized withextension can now be authorized with-out curtailing the necessary appropria-tions for schools, roads, local charities and other legitimate objects of state

People generally read advertisements more than they did a few years ago. The reason is to be found in the advertisements themselves.

Advertisers are more careful than they used to be. They make the advertise-Some of them even become, in a way, a department of the paper, and people look for them every day with as much sest and pleasure as they turn to any other feature.

Dress these facts up in a becoming garb of words, and they will find readers, even though they be in a "more advertisement."
