Mr. Clayton Dunham resumed
work on Monday clearing and
grading the Borough park. A
large force of men are engaged in
the work and the general appear-
ance of the grounds already has
developed into marvelous attract-
iveness. A considerable amount
of money has been expended for
this worthy improvement, and the
heretofore hidden beauty has been
forced to reveal its delightful land-
scape beauty under the artistic
hand of Mr. Dunham, and the
persistent efforts of the Village
Improvement Society. When a
more desirable walk has been laid
around the park and the ground
covered with nature's velvet sword
the park will be nothing less than
a dream of beauty.

The effect of Jersey's new law for
the prevention of drunkenness is likely
to be watched with interest by
the people of every state in which
the sale of liquor is licensed. The
bill to which Governor Fort attached
his signature last week was supposed
to have been buried out of sight
when, immediately after its intro-
duction by Senator Hillery, it was
referred to the committee on com-
merce and navigation, but it was
resurrected no one seems to know
just how, passed both houses during
the closing hours of the session, and
received the governor's approval on
Tuesday.

The act provides that the board of
chosen freeholders or other govern-
ing body of every municipality,
shall appoint three reputable citizens
to constitute a board of protectors
whose duty it shall be to determine
who shall be prevented from buying
liquor in licensed drinking places.

It is the duty of the board of pro-
tectors to investigate conditions as
to drunkenness in the municipality
and then to mail to all licensed
liquor dealers a notice to desist from
selling liquor to any resident or
frequenter of the municipality who
is a drunkard or near drunkard, af-
ter warning by the board of protectors,
is subject to a penalty of \$50 for
the first offense, \$100 for the second
offense, and \$200 and the forfeiture
of his license for the third offense.

The sale of liquor to habitual
drunkards has long been a breach
of the law in most states, but the
establishment of a Board of Protectors
with authority to decide who are
or are likely to become habitual
drunkards is new and important.

Bills For Better Roads.
In the Iowa legislature two bills
have been introduced in the interest
of better roads. One provides for
the doubling of the county road tax
for the development of the most im-
portant roads which radiate from the
principal market town in each county.
The other bill places a tax of 85 c
on all automobiles under thirty horse-
power and \$10 on thirty horsepower
and over, the proceeds to go into the
state good roads fund.

Good Road's Great Value.
A good road is a convenience and
necessity. It helps both the buyer
and seller of farm produce. It is invalu-
able to farmer and merchant alike.

**Problems For Which the Serious Mind-
ed Are Needed to Solve.**

There is nothing that women cannot
do, but the work must be planned with
a thoroughness that precludes failure
and done with a modesty which is the
inherent charm of the superior sex,
says the Woman's Home Companion.

As I said, every community has its
own problem. Most of these originate
outside of the home. Pure water, pure
food, pure air, clean streets, sanitary
schools and tenements, district nurs-
ing, the education of the ignorant in
the Cost of Oiling Roads.

A recently published report of the
Boston park commission is interesting.
In 1906 twelve miles of road were
treated with oil to keep down the
dust, and the result was so satisfac-
tory that in 1907 the whole extent of
more than forty miles was treated in
this way. Mr. Putnam, the engineer,
has carefully calculated the cost, and
he says that the annual cost of sprin-
kling a thirty foot roadway was \$189
a mile, whereas the cost of oiling the
same roadway thirty feet wide was
\$375. In addition to laying the dust,
the asphaltum in the oil had a binding
effect on the surface of the road and
very materially lessened the cost for
repairs. The oil is put on in an emul-
sion in which fifteen pounds of soap
dissolved in fifty gallons of water are
mixed with a hundred gallons of crude
oil, the whole being agitated to the
proper point of emulsion, and then 150
gallons of this are mixed with 450 gal-
lons of water and sprinkled on the
roads. The plan has given the very
best satisfaction in Boston and might
be tried elsewhere with correspond-
ingly satisfactory results.

A Move For Good Roads.
Nearly 1,000,000 voters of Penn-
sylvania have signed petitions asking
the state legislature to start the move-
ment which in 1913 will give a bond issue
of \$50,000,000 for building good roads.
The sum of \$5,000,000 will be asked
for to begin immediate work.
