

## Grains Crisp and Gigantic— Eight Times Size

Puffed Wheat and Puffed Rice—the foods shot from guns—are eight times natural size.

They are four times as porous as bread. They are nut-like, crisp and brown.

And they are digestible, for every starch granule has been literally blasted to pieces.

That's about all we can say. Cold type cannot describe them. There is nothing with which to compare them.

You will think the foods queer, and they are. But don't think that you will not like them.

Last month, there were seventeen million dishes served in homes that have found them out.

The folks who once taste them, demand them. The folks at your table are just like the rest.

Serve them one package and all will say, "Let us have those puffed foods always."

### Puffed Wheat—10c Puffed Rice—15c

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tremendous.

Then the guns are unsealed, and the steam explodes. Instantly every starch granule is blasted into a myriad particles.

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered. We have simply the magnified grain.

One package will tell you why people delight in them. Order it now.

#### Every Landowner Must Keep His Section of Highways Improved.

G. Zerklist of Climax Springs, Mo. who is especially interested in the Kansas City Star's fight for good roads, says: "Perhaps it would be of interest to know how the roads in Sweden are maintained. There are three classes of roads there—highways, village roads and private roads. The highways run between county seats, and the grades are limited to 2½ per cent. The village roads cannot be in excess of a 4 per cent grade. The cost of building is divided among the landowners according to acreage, whether it is government land or is owned by private citizens, except where one owner has an extremely costly road to build along his land. In that case he gets due allowance in distance for the cost of construction. No village road can be opened until it is built to the proper grade.

"As to maintenance, every landowner must keep his section of the road properly improved. If he does not a government inspector orders the improvement at public expense, and if the landowner fails to pay the cost the government takes a sufficient amount of his personal property and sells it to satisfy the judgment.

"Every man must maintain his own roads in that country under government supervision. One provision of the government law in Sweden also is that the driver is not allowed to ride up the hills on a loaded wagon if it is necessary to use a whip on his horse."

#### Road Improvement in Cuba.

One of the beneficial results of the American occupation of Cuba has been the establishment of an adequate system of roads and the beginning of construction. These roads are built primarily for the marketing of crops, but they are used extensively by automobiles as well. They are made uniformly thirty-four feet wide, with sixteen feet of macadam in the center. The surface finishing is placed on a foundation of ten inches of broken rock, and they have no grades greater than 6 per cent. Bridges are of steel, culverts of concrete. Ditches are dug in the low places, and the roadway is generally elevated above the level of the contiguous land. The main road is complete from Havana to San Cristobal and from Pinar del Rio to Esperanza, besides numerous short branches.

#### Dimit, Not Demit.

In seeking honorable dismissal from a grange a member secures a card known as a "dimit." This word is often spelled incorrectly "demit," for which there seems to be no valid reason. A writer in the American Agriculturist gives the correct derivation of the word as from the Latin dimittere, to send away. Webster defines it as to dismiss, let go or release. Demit is derived from the Latin demittere, to send or bring down, to lower. A dimit from an organization does not lower one, and no grange should accept bylaws from its committee with such spelling in the text.

Those senators and congressmen holding down the grange's demands for parcels post, postal savings banks and the grange good roads bill will never have any monuments raised by popular subscription, says the National Stockman.

National Secretary Freeman was one of the speakers upon the agricultural special run over the C. H. and D. lines in Ohio. Other speakers were Governor Harmon and Secretary Sandles of the Ohio state board of agriculture.

seven years of its existence only one assessment of \$1 per thousand has been necessary. The subordinate granges in Orange county own real estate assessed at \$34,000 and did a commercial business of over \$300,000 the past year.

**Co-operation For Rural Improvement.** A personal letter to the writer from J. Horace McFarland, president of the American Civic association, with headquarters at Harrisburg, Pa., conveys the information that this association will be glad to co-operate with the grange on matters pertaining to rural

It is not a generally known fact that the Bluecoat school (Christ's hospital) once possessed a coinage of its own. At that time the coin of the realm could not be used at the hospital. Before he could buy anything in the "tuck shop" a new boy had to get one of the beads, who were the school money changers, to change his shillings and pence into "house money," as it was called. This was made of copper, the coins being octagonal in shape, with their value stamped on them. These curious coins are now very rare, and numismatists possessing any are fortunate.—London Captain.

**AVOID  
The  
INTERNAL  
WRONGS  
of  
ALUM**

Alum  
in food causes  
stomach disorders—Its continued use means permanent injury to health.

Following the advice of medical scientists, England and France have passed laws prohibiting its use in bread making.

American housewives should protect their households against Alum's wrongs by always buying pure Grape Cream of Tartar Baking Powder.

Pure Grape Cream of Tartar Powder is to be had for the asking—

## COME HERE NOW

We are making new friends fast: selling more goods than ever before

But we still want more friends, want to sell our stock faster, so we are spurred on to deeper price cutting. People wonder how we can do it. To this we can answer, that no other store in the section has the wholesale buying facilities enjoyed by this establishment. We can buy lower, we can sell lower.

### Sweater Coats

Mens or Boys' Sweater Coats	.38
