IS ONLY A BEGINNING THIS

James F. Vail, Inspector Bedell and Foremen Hyland and O'Carroll Head the List of Those "Separated from the Service."

New York, N. Y., Nov. 23.-The weeding out of the customs service of the men who have been implicated or accused in the sugar frauds and other frauds but against wheth no evidence of actual crime has been obtained began in earnest, when Collector Loeb announced the discharge of James F. Vail, formerly deputy surveyor in charge of the weighing division; George E. Bedell, an inspector and formerly chief clerk in charge of the same division; James P. Hyland and Joseph O'Carroll, foremen of weigh-ing districts, and fifteen other weigh-ers and gaugers whose names are not mentioned in the official report given out at the Custom House. So far as could be learned the men to whom immunity and a retention of their jobs were granted for testifying against Philip Musica at his trial for cheating the Government out of duties on cheese are not included among the men whose heads went into the basket.

The official statement of the removals as given out by the Collector "Collector Loeb announced to-day

the separation from the customs ser vice of the following: George E. Be-dell, inspector, formerly chief clerk of the weighing division; James P. Hy-land and Joseph O'Carroll, ex-fore-men of weighing districts; ten assistant weighers, three inspectors, who were formerly assistant weighers, one inspector, formerly assistant gauger, "James F. Vail, formerly deputy sur-

veyor in charge of the weighing divi-sion, is dropped from the service and his office of deputy collector is abol-ished. The Collector has no proof nor have Special Assistant Attorney-Generals Stimson or Smith, of any corruption on his part, but he was in charge of the weighing division dur-ing the time that the extensive underweighing frauds were perpetrated and the fact that such conditions could exist in his department warrants his separation from the service on the grounds of negligence and inefficiency,

"In addition to the above, since March 9 last, the day the Collector took office, he has removed from the service for irregularities in the weigh-ing department eighteen other offli cials, six of whom are now under in-dictment. In other branches of the service he has removed for cause thirty-six officials, making the total number of removals from the service since March 9 seventy-three.

"The Collector is continuing his in-vestigation." Vail and Hyland are the men who

were accused by Philip Musica of teaching him the way to cheat the Government.

gitis," "anaemia," etc. The home is conducted by the Lighthouse Mission Association, or-ganized last year under a State char-ter. At the head of the institution is A. H. Tourtelot, who stated to The Wold to-day that he is a non-sectarian miniater and head nearen head ender and Word to-day that he is a non-sectarian minister and had never been ordained. The directors are: W. H. Searil, The-odosa Doughty, Henry Curtis, Arthur Brunnell, George Nawhinney and Lillia Tourtelott, all of Providence. The institution solicits contributions from the public. The particular brand of milk which

caused the deaths of the infants bore the usual notice that it conformed to the pure food and drug act.

CHILD LOST \$1,000

Systematically Robbed Father to Play

Slot Machines. Pittsburg, Nov. 22.—After missing sums of from \$6 to \$20 from his till every business day since July 4, Hen-ty Sliskin, a shoe dealer of Frankstown avenue, became angry when he found that \$40 was missing. He an-nounced that he would send for the police.

His eleven-year-old son Leonard, hearing this, rushed up and, bursting into tears, announced that he had robbed the till regularly since July 4, when he had got his first knowledge of a nickel-in-the-slot machine. The father, after investigating the story, had the police raid three candy stores, at which the child admits having gambled away more than \$1,000. The proprietors were arrested.

Monthly Teachers' Meeting. The usual meetings will be held Saturday, Dec. 4. The teachers of the Sonestown and Dushore districts will hold a joint meeting at Laporte. Other meetings will be held at usual places except where different arrangement has been made by the local district Teachers whose meetings lack in interest because of the small number of teachers who participate, may meet with any of the other districts if they so desire. The original arrangement was provided for the convenience of the teachers. In addition to the usual program teachers will come to the meetings prepared to answer and discuss the following questions :

1.--- What is "Method ?"

2 .- What are the essentials of a

good method? 3.-What is the end and aim of method ?

4.-Distinguish between method and device. Between Course of Study and method.

5 -- What is meant by adopting a method? Explain fully.

6 .- What method do you use to teach beginners to read? In first and second year number work? In fourth year geography? In seventh year arithmetic? In eighth year arithme

tic? In seventh year history? 7.-What are the particular points of merit in each method you use? 8 .- To what extent has your use of each method been justified by the results you have obtained by its use : 9.-Do you always use the same method in any given subject? Do you change your method or do you use different devices in following the same general method?

10,-Explain the following terms frequently met with in treatises on method : Analytic ; synthetic ; obective; subjective; generalization; apperception ; abstract ; concrete ;

comparison and application. Secretaries will forward the names of the teachers who attend each meeting with those who participate actively in the discussions underscored.

Teachers will prepare their own questions for the third month.

Fall Spraying and Pruning.

A number of requests for information in regard to fall spraying and pruning reached Prof. H. A. Surface, State Zoologist of Pennsylvania, recently. The following reply to one of the letters received, will be of interest to owners of orchards everywhere:

"Replying to your letter asking if you must spray this fall for scale insects, I beg to say that it is not necessary to spray in the fall, but if your trees are much infested, it is better to spray both fall and spring. If my trees were not badly infested, I should spray only in the spring when the buds are swelling. I consider this the best time of the year to spray and of coure the boiled lime-sulphur wash either commercial or homemade, is my choice of material.

In regard to fall pruning, I can say that this is as good as spring pruning, the pruning being done at any time when the leaves are off. If you will prune your trees off. Boston, Nov. 22.—In a statement is-sued to the newspapers Mrs. Augusta E. Stetson, the "admonished" leader New York Christian Science of the Church, admitted that she had been in the wrong in her controversy with the directors of the mother church. The two days conference with the

directors appears to have brought Mrs. Stetson to her knees, although she says that it was Mrs. Eddy's letter read to the members of the New York church yesterday that convinced her she was in error.

Don't Be a Snail.

Did you ever notice how a snail draws himself back in his shell and keeps very quiet when he hears anything? You will probably say that snails cannot hear. Maybe not, but they know anyway. Some people are like snails; when they hear a noise like some news they keep quiet and don't tell the editor. Now who wants to be a snail? When yeu hear anything of interest to the public, tell it to us, and when you see it in print you can say to yourself: "I helped publish that paper."
