LAPORTE, SULLIVAN COUNTY PA. FRIDAY, AUGUST 16, 1910.

Discovered by Neighbor of Woman. The bodies of Dr. Russell Campbell and Mrs. Ira Morrison were found at the home of the Morrisons in New Germantown, Perry county, Pa., Monday morning.

A neighbor discovered the body of the woman lying across the front doorstep, and further search revealed the doctor's body in his room.

Hasty examination showed that the woman had died from internal hemorrhages, resulting from an operation. The theory is that Dr. Campbell per formed the operation some time dur ing the night, and on discovering the fatal result killed himself. His death was due to cyanide of potassium.

Dr. Campbell was twenty-four years old and a graduate of the Medico-Chiwas a son of Dr. Hans Campbell, a well-known physician of Path Valley, Franklin county. A few months ago the young man went to New Germantown and set himself up in practice, taking a room at the home of Ira Morrison, a local dealer in cattle.

Morrison went to Dry Run, fourteen miles away, on Saturday to attend a pienic and to buy cattle, and remained over Sunday. He hastened home when notified of the tragedy.

About 11 o'clock at night David Rra-mer, a neighbor, thought he heard moaning in the Morrison house as he passed, but as no light was visible he concluded he was mistaken. At 6 o'clock in the morning, Luther Ray passed the Morrison home and saw two bare feet protruding from the half open front door. Running up the steps, he was horrified to find the body of Mrs. Morrison in her night clothes and bathed in blood. She was dead. Hurrying on into the house, Ray found the body of the young doctor in his room, dead on the floor. Beside him was a partly empty vial of cyanide of potassium.

Dr. Campbell's hands were bloody and his shirt was spattered with blood. The instruments with which the operation had been performed on Mrs. Morrison were found in such condition as to leave no doubt of what had taken place.

A coroner's jury was hastily sum-moned, and word was sent to District Attorney Rice, who hastened to the scene from New Bloomsfield. The jury found a verdict to the effect that Mrs. Morrison had died from the ef-fects of an operation, and that Dr. Campbell had died from poison taken with suicidal intent, as a result of the disastrous outcome of the operation. Mrs. Morrison was thirty-five years old. Dr. Campbell had been pracicing

at New Germantown only about six months. During all of that time he had boarded with the Morrisons.

Mrs. Bednarsky took the third-story back rooms, told her friends that her husband had become a criminal and was wanted for several robberies in Buffalo. She had left that city be-cause she could no longer stand his way of obtaining a living. But she wrote from Franklin street to him, telling him that if he would be honest

At this time he was living in Buffalo with a man named Carrol Fabian, with whom he was very friendly. On Saturday afternoon he rang the

bell at the Franklin street house and was admitted by Mrs. Wilczwisky. Husband and wife met joyfully, but when he left, after a two hours' stay, Mrs. Bednarsky told her friend that Mrs. Bednarsky told her friend that she was not happy, as she did not know where he had obtained the fare to this city. The first aerial race between the birds of nature and of man's production took place in the course of the great aerial cross-country competi-tion at Amiens, France, and was easily won by man. Forty-seven car-rier pigeons were released at Doual at the same time that Le Blanc in his Farman biplane started from the mark

on his fifty-mile flight to Amiens. Rushing without a tremor through the calm air, the biplane soon out-distanced the birds, and when Le Blanc reached Amiens the birds were not yet in sight, the first pigeon arriv-ing six minutes and twenty seconds after Le Blanc. Before the last of the flock had come in Legagneux, who had started at the same time as Le Blanc. but consumed nine minutes more on the trip, arrived, beating the last pigeon by twelve minutes.
