**A Timely Warning.**  
Every voter in this State should carefully read an address delivered by the Hon. John S. Fisher a few days ago at Indiana. It is one of the most convincing arguments in support of the continuance of control of State and National affairs by the Republican party ever submitted to the voters of Pennsylvania. There is nothing of the demagogue about Mr. Fisher. He does not resort to canting hypocrisy and defamatory charges. He meets that sort of campaigning with a clear, common sense and accurate analysis of the issues that confront the voter and presents sound reasons why every Republican in the State should support his party's candidates. At Indiana he thus warned the people against William H. Berry and the Keystone party:

"Republican defeat in Pennsylvania this year means national defeat in 1912. The triumph of the spirit of unrest now means its triumph again in 1912. If Pennsylvania falters now it will be heralded from the housetops that the Republican ranks have been broken in its stronghold. It will be said that the tariff has been repudiated in the citadel of its strength, and that the conservative policies of the Republican party no longer find favor with our people. Are we as Pennsylvanians ready to spread broadcast over the nation this impression?"

The man who is willing to have a Democrat in the White House and a Democratic majority in Congress will vote for Berry and the other Democratic candidates on the Keystone ticket. He will do this because a vote for the Keystone ticket will be a vote for the Democratic party.

There is no doubt regarding Mr. Berry's policies. Repeatedly on the stump he has said that he was proud of his democracy. There-

fore a voter who desires a return of the Democratic party to power consistently can vote for the Keystone ticket.

But will any man who believes in the principles of the Republican party vote for the Keystone ticket? Will any wage earner or farmer or business man whose prosperity is due to the protective system vote for Mr. Berry and his associates? If so, he will take the longest chances he ever took at the polls in his life. If the Republicans of this State cast their ballots for the entire Republican ticket there will be no danger of the direful consequences against which Senator Fisher warned the people.

## VICTORY CERTAIN ON TUESDAY NEXT

Pennsylvania Republicans Prepare For Rousing Majority.

### WALTON'S CALL TO ACTION

State Chairman Urges All to Go to the Polls to Insure a Magnificent Triumph.

In the closing days of the campaign there is the greatest confidence among the Republican leaders of a sweeping victory for the full Republican state ticket.

Chairman Henry F. Walton, Secretary W. Harry Baker and the other active spirits at the Republican state committee headquarters in Philadelphia report that there has been a remarkable change in situation in a number of counties to the advantage of the Republican candidates owing to the strenuous campaign that has been under way during the last two weeks. Districts which some time ago were classed as doubtful are now certain to be carried for John K. Tener for governor and all his colleagues on the Republican ticket.

A final note of warning has been sounded by field marshal Walton to Republican committeemen to guard against the danger of over-confidence, and Republicans are generally admonished to refrain from giving "complimentary votes" to Democratic or independent candidates in local contests and are urged to vote the full Republican ticket to insure the counting of their ballot.

### National Issues Involved.

The importance of the election on account of the congressional contest is emphasized by Senator Penrose, who is anxious that Pennsylvania

shall maintain her prestige as the leading Republican state of the union in the house at Washington. Pennsylvania by reason of her large delegation in the present house was enabled to protect her interests in framing the present tariff act.

Republican state leaders in commenting upon the result of a canvass of Pennsylvania made by the Philadelphia Press and published last Sunday, insist that its estimated plurality for John K. Tener, the Republican candidate for governor, is too low. The Philadelphia Press says that "impartial estimates furnished the Press from all the counties" give the Republican state ticket a plurality of 125,750.

While the leaders say they are not ready to make public their estimates by counties they admit that their reports give Mr. Tener over 150,000 plurality and some express the opinion that the final figures will be even larger.

### Democrats Lining Up.

There are indications that while a very spectacular campaign is being made in the interest of Berry, the Keystone party nominee has been losing during the last week much of his Democratic support, the defection going to the regular Democratic nominee, Grim.

This situation is explained by the Democratic leaders who contend that the rank and file of the Democrats feel that "this is going to be a Democratic year" and they intend to stand by their regular party organization so as to be in line to take part in the primaries for the election of delegates to the Democratic national convention and to be in touch with the Democratic leadership in the event of a national Democratic victory.

## Make Your Own Building Blocks, Silo Blocks, Drain Tile and Fence Posts

With Our Low Cost Machinery any Farmer Can Make His Own Building Blocks, Drain Tile and Fence Posts at a Big Saving in Cost

For the farmer owning a sand pit, gravel pit, or a stone quarry or who lives near one or more of these, where this material may be had simply for the hauling, cement is the cheapest and best building material he can use. Enough Portland Cement to make a building block 8x8x16 inches costs about two or three cents. For most farmers the gravel or crushed stone and sand costs nothing at all but the hauling and the building blocks, drain tile and fence posts may be made at odd times when it is impossible to do other work on the farm. This enables the average farmer to build farm buildings of all kinds at the lowest possible cost, frequently for one-half and even one-third contractors' prices, and build better buildings than he would have if he used any other known material.

This is the age of cement, its use has become almost universal, it is the ideal material for use on the farm, not only because it is inexpensive, most farmers having all the raw materials necessary with the single exception of cement, but because it lasts practically forever and is fireproof. No farmer has adequate fire protection, therefore, he ought to erect buildings as nearly fireproof as possible. Cement block walls, cement floors, cement pillars, cement roofs, will not burn. Cement drain tiles are better than the old clay tile, because they are porous and their strength increases with age. Cement fence posts are cheaper and better than wooden fence posts, they last forever, fires along the roadsides do not effect them. Cement for the silo, cement for the pig pens, even the yards—in short, cement is ideal for every building purpose on the farm, because it is cheaper in the beginning and lasts practically forever without renewal, and is fireproof.

We sell cement working machinery of every kind at the lowest possible prices. We sell cement block machines at one-third the prices asked by many manufacturers and dealers. We have everything in cement machinery—all kinds of building block machines, silo machines, chimney molds, porch column molds, drain tile molds, fence post molds, concrete mixers, all guaranteed machinery sold way below competition.

Send for Our Free Catalogue. We issue a catalogue of cement working machinery of every description. It is filled with useful information for the farmer, builder and contractor. Send us a letter or postal card and say "Please send me your free Cement Building Block Machinery Catalogue" and we will forward it by return mail, post-paid. Write us at the point nearest you.
