The Lehigh Valley Railroad trains will soon run by telephone orders instead of telegraphy which is now used to report trains. It is expected that the new system will be in complete operation by January 1. Not only will the train system be operated by telephone, but each passenger car and freight caboose will be supplied with a portable telephone set and wherever the train stops a connection can be made with the telephone wire, and communication established with the despatcher's office.

The school children of the primary department of the Laporte Borough school, in charge of Miss Jessie Wrede, gave an entertainment on Monday evening in the assembly room of the school building. The exercises consisted of singing and speaking appropriate pieces. The number of bright intelligent children who appeared on the stage made a favorable impression on the audience, and their singing, reciting and acting excited much admiration and applause. When all did so well it would appear invidious to mention names of some few, for it was apparent that all had been well trained by a skillful teacher. Miss Wrede has few superiors in training and teaching children and the parents are fortunate in being able to retain her in this school.
