Rush J. Thomson returned home last Tuesday from a three weeks' business trip to Denver, Neb. While there he had the honor of having a seat on the platform when W. J. Bryan made a political speech to several thousand people a few nights before the previous election. Mr. Thomson tells us that business generally in the west is good.—Dushore Review.

## Fire at Mildred.

Mildred was the scene of much excitement last Saturday night when a reel of film in the moving picture show caught fire. The machine and films which are highly inflammable were kept in a fire-proof box like enclosure lined with asbestos, as required by law. The operator, Frank Koster, was at his post inside the box and when the reel burst in flames, he tried to escape. Finding his way cut off by the burning film, he turned and broke through the asbestos wall carrying a second reel of film with him. When he left the box this reel too caught afire and in turn set fire to the hall. The crowd in the hall which, owing to the bad night, was fortunately not large, and all escaped from the building. Chemical fire extinguishers and water were hastily secured and the fire put out. The moving picture machine was ruined and the hall badly damaged.

## New Postal Law Amendment.

The following official order from the Postmaster General has been received at the local postoffice:

"Whenever any unclaimed matter of the first class other than postal cards and post cards, bears the name and address of the sender as postoffice box, number of street, etc., without a request that the same be returned if not delivered, such matter will be termed "Card Matter" and must not be advertised, but must be returned to the sender within the time prescribed by the following paragraphs:

"a Uncalled for letters directed to street and number in cities, five (5) days.

b Uncalled for letters for general delivery in cities, five (5) days.

c Uncalled for letters for delivery by rural carriers, five (5) days.

d Uncalled for letters in offices of the fourth class and not intended for delivery by rural carriers, fifteen (15) days.

"Heretofore all letters bearing a return request without any number of days specified for return, were held 30 days from the date of their arrival at the postoffice.

## Fire at Hughesville.

On Sunday morning fire broke out in a lively barn belonging to F. G. Hilner in Hughesville which for a time threatened to wipe out a large portion of that town. The fire, which is thought to be of incendiary origin, started in the hay mow of the barn and spread to adjoining buildings among them the American House barn which was almost totally destroyed. The complete loss is estimated at about \$35,000 and very little insurance was carried by the owners of the property.

## "Touched" and Regains Property.

A pocketbook containing a sum of money, receipts, a railroad pass and other papers, was taken from the coat of Edward Barrett at Bernice Saturday and later was returned, minus the cash, to his daughter in Towanda.

Mr. Barrett is a Lehigh Valley carpenter working at Bernice and on Saturday morning left his coat containing the pocketbook hanging in the tool house and went to work nearby. Returning for it in the evening he discovered that the pocketbook was missing.

On Monday a young lad entered the "Sugar Bowl" confectionery store in Towanda and handed the stolen pocketbook to Mr. Barrett's daughter, who works in that place. The boy said he found it on the floor of a car. The pass and other papers were intact but the money was gone.

## Estella Defeated.

A game of basket ball was played at Estella on Friday evening of last week between the local team of that place and the town team from New Albany, in which a sound beating was administered the Estella boys. The score was 41 to 16. To a stranger to the method of playing the lively game this score would look pretty rough on the Sullivan County bunch, but considering that it was their first game, the team having been organized but a short time and composed almost entirely of "green" players, while New Albany undoubtedly has one of the swiftest teams in these parts, we think the west end boys deserve much credit for the 16 points won.

Xmas three weeks from Sunday.

## Unknown Man Commits Suicide on S. & N. Y. Train.

An unknown man committed suicide on the S. & N. Y. passenger train leaving Towanda at 5:55 Monday evening. He was found in an unconscious condition on the platform of the baggage car next to the engine tender, and lived but a few minutes after being taken into the baggage car.

It is believed that the stranger boarded the train at Towanda and drank carbolic acid shortly after leaving there. He was not discovered by the train crew until Cold Spring, beyond Laquin was reached when the fireman went upon the tender to fill the water tank and saw the body on the platform. At first it was thought that the man was numb from the cold, but when he was taken into the baggage car it was found that he had drunk carbolic acid and was unconscious from the effects.

The only thing in the pockets which might lead to the identity of the suicide was an envelope bearing the name of "Robert Brown." Other articles in the pockets consisted of a razor, cake of soap and towel, an empty bottle bearing a carbolic acid label and a bottle full of laudanum. He was about 27 years of age.

Later.—The man who committed suicide on board a train between Cold Spring and Masten on Monday evening, was Robert Brown of Laquin. The body was identified by friends of the deceased. It is now thought that he boarded the train while it was standing at the depot at Laquin. He is survived by a wife and two children.
