## Christmas Cards to Readers.

The Christmas number of The North American, which will be published on December 18, promises something altogether unique in the way of a special supplement. All buyers of the paper of that issue, excepting mail subscribers, will receive free a sheet of Christmas cards, reproduced from some of the greatest paintings of the age. There are six cards in the sheet, which when cut apart may be used for sending with gifts or for mailing as mementoes of the holiday season.

The cards are reproduced very artistically by photogravure process and the subjects are chosen with a view of suiting almost any taste.

The North American Christmas number will be unusually attractive in text and illustrations. Its special numbers are always of the highest standard. This one promises to be just a little better than those that have preceded it.

## Sign Your Name.

A notice was received this week from "a resident of Davidson Township," with the request that it be published in the News Item. As there was no name signed to either the notice of the request for its publication, we have withheld it. There are numerous reasons why anonymous letters should not be printed in the newspaper and we believe in adhering to the rule. In this particular notice there is nothing that we would be unwilling to publish, and if the person who sent it in will send us their name we will print the article. It is not required that the name be published with the article but it must be sent in with the copy.—Editor.
