"I Suffered Intense Pains in My Left Side."

Do you realize it is better to be safe than sorry, that it is the best policy to lock the stable door before the horse is stolen?

Dr. Miles' Heart Remedy

cured Mrs. C. C. Gokey, of a stubborn case of heart disease, such as thousands are now suffering with. Read what she says:

"Before I began taking Dr. Miles' Heart Remedy I had been suffering from heart trouble for over five years. I had grown so weak that it was impossible for me to do thirty minutes work in a whole day. I suffered intense pains in my left side and under the left shoulder blade, I could not sleep on the left side, and was anxious of breath that I thought I should never be able to take a full breath again. The least excitement would bring on the most distressing palpitation. I had scarcely taken a half-bottle of the Heart Remedy before I could see a marked change in my condition. I began to sleep well, had a good appetite, and improved so rapidly that when I had taken six bottles I was completely cured."

MRS. C. C. GOKEY, Northfield, Vt.

If you have any of the symptoms Mrs. Gokey mentions, it is your duty to protect yourself.

Dr. Miles' Heart Remedy.

is what you need. If the first bottle fails to benefit, your money is returned. Ask your druggist.

Lehigh Valley Coal Train Takes Lively Sprint.

On Saturday afternoon a coal train on the Bernice Branch of the Lehigh Valley Railroad covered several miles of track in about as many minutes. A short distance below Satterfield near the horse-shoe curve the train began to gain speed owing to defective air brake connections and in a short time was going at a terrific pace. Brakemen in the caboose endeavored to crawl over the cars to set the wheel brakes but were unable to do so. Before the Dushore trestle was reached the caboose was cut loose from the rest of the train which in a short time had gone from sight, tearing across the trestle at about 45 miles an hour. A short distance below Dushore the train was again brought under control and no damage resulted from the wild trip.

The Celebration.

The glorious Fourth of July celebration in Laporte was a decided success despite the fact that the new power boat was not afloat on its maiden journey owing to the fact that the engine did not arrive in time to be installed.

The parade and exercises in the high school auditorium were carried out in a very creditable manner by the participants, in the fore-noon. The afternoon was given to sports at the lake and a base ball game on the athletic grounds between Hughesville and Laporte, which resulted very disastrously to the Laporte team, the score being 10 to 1 in favor of Hughesville. Still the game had many good plays that kept the interest of the onlookers.

All day the bathing beach was crowded with those who sought comfort in the waters of Lake Mokoma and the lake itself was well covered with row boats and canoes. The big merry-go-round furnished amusements for both young and old and those who preferred dancing were welcomed to the dance pavilion by a good orchestra. The Hughesville band furnished creditable music both at the lake and in Laporte. The display of fire works at the lake in the evening was very liberal and of good variety.

Taking everything into consideration the celebration was a credit to the Lake Mokoma Company and others who worked to make it a success and it can be truthfully asserted that those who came to Laporte for a good outing and enjoyable Fourth on the mountain top, were given more than the worth of their time and money.

QUALITY

When people realize that it is not the quantity for the money, so much as the quality that counts, then they will patronize the store which does business in good pure goods. Cut prices often mean cut qualities. Our prices are as low as good goods will allow. Our goods are not of the cheap mail-order variety. When comparing prices do not forget to compare qualities. If you find the prices lower than ours, then you will find the qualities inferior—generally "bargain house" job lots.

Ask us to show you why our stock is superior.

Must Pay For Paper

Taking a paper out of the post office makes the recipient liable for the bill. O. D. Austin, a Butler (Mo.) publisher, sent his paper to Charles Burge. The latter paid for it twice and then refused to pay again. He said he ordered it stopped. But the court of appeals holds that mere acceptance of the paper created a liability. It adds:

"The preparation and publication of a newspaper involves much mental and physical labor as well as outlay of money. One who accepts the paper by continuously taking it from the post office receives a benefit and pleasure arising from such labor and expenditure as fully as if he appropriated any other product of another's labor, and by such act he must be held liable for the subscription price."

C. Walter Haas of Williamsport, representing the F. P. Light and Heat Company, was in Laporte part of the week.
