Reader are you a subscriber, if not why not? It only requires 25 cents to read this paper until after election, and possibly the paper you are reading may have laid around until it is filled with disease germs. Take no chances, but have a clean, open, honest paper at first reading.

Wasted Money.

The last legislature increased the salaries of Judges. This was unnecessary, and those who voted for it did not have the interest of the people or the welfare of the State in mind. No law judge under the old Act was underpaid, many of them received entirely too much. Thousands of dollars of the State's money have been diverted from the schools and roads by this bill, and distributed as an annual gift to public officials already overpaid. Very few Common Pleas Judges ever earned as attorneys as much money as they received before this new increase, probably not to exceed half a dozen. One or two successful lawyers, who were made judges resigned because the salary was inadequate. But these were corporation lawyers. They desired to see the prefix "Hon." to their names, and have the people call them "Judge". Four thousand dollars a year is much more than the annual income of the average lawyer who becomes a judge. It is sufficient to command the highest average intelligence of the bar. The Item certainly favors fair pay for public officials, but we certainly do not favor unfair pay for political pulls. A large medal should be made for our last legislative, and of course paid for by the state.

Unlawful Hunting.

It would hardly seem necessary to state that the season to lawfully hunt for any game in this section has not opened yet. But if rumor is correct some of our young sports are putting themselves in a position where they are likely to have a job of working for the county at a dollar a day.

Owing to the many large fires which in the last few years have burned over nearly all the forests near Laporte game birds have become very scarce. To shoot them before they are fairly feathered out is a shame and a person guilty of doing this shouldn't expect, and would probably have no mercy shown him.

The Mountain House.

Last Saturday night sneak thieves were in operation at the Mountain House, opening the refrigerator back of the house they helped themselves to seven dressed chickens, which were being preserved for a delicious Sunday dinner, taking in addition six juicy muskmelons.

QUALITY

When people realize that it is not the quantity for the money, so much as the quality that counts, then they will patronize the store which does business in good pure goods. Cut prices often mean cut qualities. Our prices are as low as good goods will allow. Our goods are not of the cheap mail-order variety. When comparing prices do not forget to compare qualities. If you find the prices lower than ours, then you will find the qualities inferior—generally "bargain house" job lots.

Ask us to show you why our stock is superior.
