Graduating Exercises

On Friday evening of last week the Graduating Class of this place held their exercises in the High School, commencing at 8:00 p. m.

A very entertaining program was made up, consisting of speaking, which was very ably done by the following graduates: Fay Hess, Hattie Traugh, Freda Armes and Estella Vough. Prof. Gartner, of Susquehanna College, made a very impressive speech on "Keeping the Boys and Girls in School".

Immediately after the exercises they held a dance on the second floor of the News Item building, which was attended by a large number and proved very delightful.

COUNTERFEIT \$10 BILLS
ARE IN CIRCULATION

New counterfeit \$10 national bank notes, crudely executed, and drawn on the Fourth National bank of Philadelphia and the Bank of New York, are now being circulated throughout this part of Pennsylvania, according to Matthew Griffith, head of the Secret Service office.

The counterfeit bills show poor workmanship and are apparently made by tracing the lines and figures of genuine notes through carbon sheets. The transfer lines are then gone over with ink or indelible lead pencil.

A good bargain in a Two Seated Second-hand Spring Wagon. Also a good Second-hand Buckboard. Inquire of T. J. Keeler, Laporte, Penn'a. x 5-31

HE DEFENDS THE ORGANIZATION

Statement Issued in Connection with the Government's Suit to Dissolve International Harvester Company.

fying the claims made under the Sherman act without seriously impairing the economic advantages and benefits secured by the organization of this company. No form of reorganization, however, was suggested by the government which seemed practically possible.

"The government has been careful to avoid embarrassment to the foreign business from the litigation; the bill makes no attack upon, and seeks no change in, the export business of the company. The filing of the bill will in no way interfere with the company's carrying on its business the same as heretofore."

"The organizers of this company acted under the advice of able counsel, and in the sincere belief that they were violating no law. If under later decisions it should be held that the law was violated, it could only be through the creation of a power to oppose which has never been exercised.

"More than six years ago the company asked for its investigation by the United States government, and opened all its books and records for inspection, and furnished all information requested. No suggestion of any change in its business methods has been made to it by the government at any time. Recently, a full and frank discussion of the whole situation has been had between the representatives of the government and the company, in an honest desire upon both sides to avoid litigation. Some plan may yet be found which will obviate the necessity of any protracted litigation by suits.

A. W. Murray of Murray was in town on Sunday with his "Blue Flash" racing machine. This machine is said to have a record of 1 mile in 55 7-10 seconds. We are no judge of racers but if noise is any indication of speed this machine must be going some.

The Republican News Item has been leased to Mr. Charles S. Dauberman of Williamsport. Mr. Dauberman has had many years experience in the newspaper business, and comes well recommended.

Now if the gas engine, the press and the rollers will behave the item should reach you regularly.

F. H. INGHAM, EXP.

The lateness in getting the News Item to our subscribers last week was due to the breaking of the form roller. As we could not get one nearer than Philadelphia, we telegrammed on Thursday evening and got one roller on Saturday.

MAMMOTH NEW BREAKER AT BERNICE MINE

The new breaker is 111 feet high at its highest point and has a frontage of 150 feet, and is 90 feet deep. It is estimated that approximately 1,250,000 feet of lumber have been used in its erection. Beyond clearing away the ruins of the old breaker, little was done towards the erecting of a new breaker within a month after it was burned down, Feb 2, 1912.

THE PONY BREAKER AT BERNICE

This little breaker which was erected by the Connell Anthracite Mining Co., within 18 days from the time the breaker at Bernice burned has done very well for a "pony."

It prepared 18,000 tons of coal within a month after completion, and up to the present time has prepared over 40,000 tons. It was expected that a loss of tonnage for at least three months would follow the fire, but William L. Connell, president of the company, gave orders for a new structure to be started without delay, qualifying only with the statement "Get it done."

Under the supervision of Thomas V. McLaughlin, outside foreman of the mine, the work was pushed so rapidly that there was very little loss of production.

SONESTOWN.

Smith Boudman says that he wishes if the man that stole his buggy cushion out of the barn is in need of a buggy he can come and take that, but the buggy had ought to have new wheels, but if the same person comes for the buggy that got the cushion, if he gets his eyes on a new set of wheels he won't be anything out in particular, only a little of his time, I mean his or her time and such time to them kind of people is never nothing but always something coming in. He says he has got a dog in one end of the barn and he thinks he will have to put a dog at the other end of the barn, and then stand on the driving floor with a shot gun, but he says all O. K., what is my loss is some ones gain.

SERIOUS CHICAGO STRIKE

Morning Newspapers of Windy City Appear in Condensed Form Without Ads.

The strike of the pressmen on the principal Chicago daily papers took on a more serious aspect early Saturday morning, when the stereotypers in all the offices affected left their work in sympathy with the original strikers. This made the third union to join in the strike, the wagon drivers previously quitting work.

The walkout of the stereotypers compelled the publishers to condense the morning papers. Only one edition was issued and this without any advertisements. It was expected that the afternoon papers would act similarly and issue only one edition in condensed form.

For the first time since the strike began shooting was resorted to Saturday. Several shots were fired in the street in front of one of the newspaper buildings at Madison and Dearborn streets. No one was injured, but the police made several arrests. Newspaper wagons, under the guard of policemen, were loaded at the time of the shooting.
