

Antitoxin for Fourth of July

To meet the Fourth of July demands, large supplies of tetanus antitoxin have been ordered for the sixty-seven distributing stations throughout the Commonwealth, by Dr. Samuel G. Dixon, Commissioner of Health.

Despite the nation wide movement for "A Safe and Sane Fourth", which has been steadily growing during the last few years, the total number of accidents resulting in the dreaded tetanus or lock-jaw, is greater on that day than any other in the three hundred and sixty-five.

The serum which the Department of Health distributes to the poor is used to immunize the victims of fire-crackers, gun shot and other wounds. When it is used immediately following the accident or within twenty-four or even thirty-six hours thereafter, the danger of infection is reduced to a minimum.

A State Family Bible

Kentucky is one of the southern states which has recently adopted a modern law for the registration of vital statistics, says "The Journal of the American Medical Association." Put into force a little over a year ago, it has been on trial. As usual, it encountered opposition. Some people were unable to see why births and deaths should be recorded; others did not like to go to the trouble to make out an orderly record of these occurrences. Because physicians and medical organizations led the way in securing this needed legislation, it was of course, regarded as something for the benefit of physicians rather than for the public good. Shakespeare asked—and so have many philosophers since his time—"What's in a name?" and the wisest of these inquirers have recognized the importance of naming a thing properly, if it is to stand well in the public eye. Evidently this fact is recognized in Kentucky. The leading editorial in the May 1 issue of the Kentucky Medical Journal, under the heading "Name the Babies," discusses some of the difficulties encountered in putting the new law into effect. In this connection, the editor philosophically refers to the State Bureau of Vital Statistics as "Kentucky's Big Family Bible." A happier name could not well be devised. When the people of Kentucky understand that the object of birth registration is to record the name and date of arrival of each little citizen of Kentucky, so that its legal identity may be established, and that the state is simply exercising the same care that leads a father to inscribe each birth in the family Bible, public support of the measure will be increased and assured.

QUALITY

When people realize that it is not the quantity for the money, so much as the quality that counts, then they will patronize the store which does business in good pure goods. Cut prices often mean cut qualities. Our prices are as good as good goods will allow. Our goods are not of the cheap mal-lot variety. When our prices do not forget to compare qualities. If you find the prices lower than ours, he you will find the quality inferior—generally "bargain" use" job lots.

Ask us to show you why our stock is superior.

HERE IS THE GREATEST INSURANCE IN THE WORLD.

Eminent physicians declare that eight million of the American people alive today will die of consumption and twelve million will die of pneumonia. These diseases are so contagious that no family is immune. Ask your physician.

Consumption and pneumonia as well as many other contagious diseases are spread by the dust and dirt brought or blown in from the streets. Settles in your carpets and rugs and cleaning in the old fashioned way fills the air with the invisible germs. People breathe it and become infected. Science and experience have proven that the surest safeguard against these diseases is cleaning with the **NATIONAL VACUUM CLEANER.** It is the greatest life insurance in the world because it makes you and every member of your family live longer and the great superiority of the **NATIONAL** is everywhere admitted.

It makes cleaning easy and is more economical to use than the broom or sweeper.

The **NATIONAL** is really everybody's cleaner, easily operated by boy or girl, can be operated with either left or right hand.

The **NATIONAL** has greater capacity than any other cleaner built for operation by one person—90 inches of air space and a large reservoir for dust and dirt, which makes it possible to clean several rooms without emptying. It has a flexible nozzle, which adjusts itself to any height of person. See other machines work and compare them with the **NATIONAL.**

A boy or girl can clean house with the **NATIONAL** far better than several strong men and women can clean house without it.

If you want to take advantage of this splendid offer you will have to act quickly.

One National Vacuum Cleaner, (retail price \$10.50,) and The News Item for one year for the small sum of \$5.00.

POUND MASTER IS THIRTY

Will Make Use of All of Dog but the Bark

Oroville, Cal., June 15. John Rich, who has been chosen "pound-master" to succeed the colored wonder, Allen Dannon, has mapped out a plan which he believes will make his bank roll much fatter before the year rolls around.

First, he gets 50 cents a dog from the city, next he intends to skin the animals and sell the hides for leather. The meat he will crush and the oil extracted he will sell. He declares that this has been found a genuine cure for consumption, and that there is a big demand for it. The flesh is to be used to feed chickens and the bones will be crushed for fertilizer. He says he will use all the dog but the bark.

Special from Eagles Mere

The "Civils" at Hotel Eagles Mere are getting quite interesting, a Mr. Bean-pole or Mr. Brown is O. K. on height—(six foot three inches) nothing like doing things up "Brown."

B. Butter-field and a lady were out on the lake and had the pleasure of a swim in the water by their canoe turning over. The water was very wet, but not wet enough to prevent the "superior sex" from changing clothes and going back to finish the boat ride. How is that for nerve?
