

# TRAIN KILLS SIX IN AUTOMOBILE

Two Others Fatally Hurt in Crash Heard a Mile.

## GRADE CROSSING TRAGEDY

Father and Three Children Are Among Dead and Mother Is Fatally Injured After Crash—Cornfield Cut Off View of Train.

Tolodo.—In a crash that could be heard for a mile six persons were killed, two fatally injured and another was hurt when a Lake Shore train struck an automobile containing nine people at Alexis, about twelve miles from here.

**The Dead.**  
COUSINO, RUDOLPH, aged thirty, farmer, La Salle, Mich.

COUSINO, MRS. LOUISE, aged 30, wife of Lafayette Cousino, La Salle. Twelve and six-year-old sons and four-year-old daughter of Rudolph Cousino.

NAVARRÉ, EVA, aged twenty, La Pleasant, Mich.

**The Injured.**  
COUSINO, LAFAYETTE, aged 23, farmer, La Salle; taken to hospital.  
COUSINO, OPAL, 2-year-old daughter of Lafayette Cousino; taken to hospital; injuries not serious.

The accident happened on a grade crossing where the view of the track was obscured by a cornfield. The occupants of the machine did not see the train until they were directly on the track and it was too late.

## AUTO KILLS CHILDREN.

Mother Sees Machine Run Down Her Little Daughter.

Boston.—Three lives were lost among the multitudes at the beach resorts about Boston. Two children five years old were killed on the Revere Beach Boulevard by automobilists. Chester Linquist, of Winthrop, was struck by a car driven by Fred Dufour, of Lynn and instantly killed. Bessie Crowley was struck by an automobile driven by Arthur L. Irving, of Winthrop, and died within a few minutes in the arms of her mother, who witnessed the accident. Both drivers were placed under arrest.

At Nantasket, Edward J. Tausey, of Charlestown, and his niece, Miss Mary F. Feeley, of Everett, were caught in the undertow while bathing, and Tausey was drowned.

## CHANCE SAVED EXPLORERS.

Mikkelsen and Iversen Looked Like Beasts When Found.

Christiania, Norway.—Captain Einar Mikkelsen, the Danish Arctic explorer, and the engineer Iversen, who were rescued on July 17 last on the coast of Greenland by a Norwegian fishing vessel after having spent more than two years in that region, looked like wild animals when their rescuers found them. They had spent the previous winter at Bass Rock Island, and it was there that the Norwegians came upon them, in a cabin which they had built.

The fishermen knocked on the door and Mikkelsen and Iversen rushed out, nearly naked, and with guns in their hands, being under the impression that the knocking was caused by beasts of prey.

The two men had enough ammunition to enable them at all times to obtain food.

## FIRE DESTROYS SEVEN VILLAS.

Loss in Blaze at Narragansett Pier Is Placed at \$150,000.

Narragansett Pier.—Seven cottages were destroyed by fire here and the property loss is figured at \$150,000. The blaze started in the Little Casino, or Orton Lodge, the central villa in a group of seven at Kentara Green.

The property destroyed includes Orton Lodge, occupied by Louis E. Stoddard, New Haven, Conn., La Cleve cottage, Corrotoman cottage and Muchison villa. At Earls Court the following places were burned: The Breeze (William Ivin's villa), occupied by Robert E. Strawbridge, Philadelphia; Kentworth, occupied by Ashton Harve, Jr., New York; Waverly cottage, occupied by Merwin White of Providence.

## JUDGE DILLON WON'T RUN.

Ohio Republican Nominee for Governor Formally Withdraws.

Columbus, Ohio.—Judge Edmond B. Dillon, nominated as the Republican candidate for Governor of Ohio at the State Convention last month, announced his withdrawal from the ticket, his reason being the determination of the Roosevelt people to put up a third ticket in the State.

## TUNNEL FOR TWIN CITIES.

Plan to Connect St. Paul and Minneapolis by 10 Minute Line.

St. Paul.—A plan for connecting St. Paul and Minneapolis by a fast "air line" is being considered by prominent merchants of the Twin cities. One plan is for an underground route which would give a ten-minute schedule between the two cities, as against the 40-minute schedule now maintained by surface routes.

This plan would cost about \$10,000,000.

# AMERICAN TEAM IN THE MARATHON RACE

This is a snapshot of the American entrants in the Marathon race at the Olympic games. On a wheel at the right is Johnny Hayes, winner of the 1908 Marathon, and next to him is Gaston Strobino, who came in third this year.

## EXCISE TAX BILL PASSES SENATE

Thirteen Republicans Support the Democratic Measure.

## PRINT PAPER PAYS \$2 A TON

Measure Carries Repeal of Canadian Reciprocity and Cuts Tariff on Print Paper—It Also Creates a Permanent Tariff Board.

Washington.—Democrats and thirteen Republicans united in the Senate and by 36 to 18 passed the Democratic Excise Tax bill (which in effect is an income tax measure), extending the present tax on corporations to the business of individuals, private firms and co-partnerships.

Attached to the measure, also by the aid of Republican votes, were amendments repealing the Canadian Reciprocity law, and fixing \$2 per ton tariff on print paper. The establishment of a permanent non-partisan tariff commission is provided also.

Senator Borah, in a fight to have his income tax bill substituted for the "tax on business," lost, 33 to 23, although he mustered to his support many of the regular Republicans, and four Democrats—Ashurst, Culberson, Hitchcock and Martine.

The receipts from the Excise bill are expected to make up the deficit resulting from curtailments in the sugar levies.

On the passage of the excise bill the Democrats were supported by the following Republicans:

Bourne, Bristow, Clapp, Crawford, Cummins, Gronna, Jones, Kenyon, La Follette, Nelson, Poindexter, Townsend and Works.

The measure will go back to the House, and a perfected measure soon will be laid before President Taft.

The excise bill would levy on all persons, firms or co-partnerships an annual tax equal to one per cent. of net income in excess of \$5,000.

Senator Cummins's permanent tariff board amendment was attached to the excise bill, 33 to 29. All the Democrats except Pomeroy, of Ohio, voted against the tariff board, while all Republicans except Heyburn, of Idaho, supported it.

Senator Fletcher of Florida added an amendment to the bill extending the exemptions under the present corporation tax law to the new excise law. This was adopted without a division. It provides that religious and fraternal organizations and benevolent societies when incorporated, shall not be subject to the tax.

Senator Bacon put in an amendment providing that a tax of 1 per cent. should be imposed on the earnings of stock owned by one corporation in another corporation, regardless of whether the corporation of which was thus owned, had once paid the excise taxes. This amendment was adopted.

## CENT AND A HALF RATE LAW?

Attorney Hogan Predicts Ohio Will Change Railroad Tariff.

Cleveland.—Attorney T. S. Hogan predicted that Ohio soon would have a cent and a half railroad fare law instead of the present 2 cent law. In discussing his plans for bringing legal proceedings against the Pennsylvania and other railroads in Ohio Hogan said the result of this action almost certainly would be a reduction in passenger rates.

## RELIEF FOR FLOOD DISTRICTS.

Frick Opens Stores—Trolley Service Resumed—One Track Cleared.

Pittsburgh.—Relief was sent into the flooded district in Fayette and Westmoreland counties. Trolley service was resumed from Uniontown to Dunbar and the Pennsylvania Railroad has cleared one track into Dunbar and Evans station.

The Frick Coke Co., threw open its company's stores throughout the district to the families distressed by the flood.

## SENATOR LAFOLLETTE'S BILL PASSES SENATE

Democrats and Insurgents Unite on Wool Tariff Measure—President Vetoed It In 1911.

Washington.—The Republican members of the Senate, after achieving a victory over the Democrats and accomplishing, in committee of the whole, the passing of their bill revising the wool schedule in accordance with the report of the Tariff Board, were beaten in the end, through the defection of Senators La Follette, Kenyon and Clapp, the first named insurgent being the ringleader. He revived the Democratic-insurgent alliance of last year and succeeded in effecting the adoption of his bill.

The La Follette bill was adopted by a vote of 40 to 28, ten insurgent Republicans, voting for the La Follette measure, as follows: Senators Borah, Bristow, Clapp, Crawford, Cummins, Gronna, Kenyon, La Follette, Poindexter and Works.

After an all-day debate, Senator Penrose, chairman of the finance committee, threw the Democrats and progressives into confusion by introducing a wool revision bill based on the findings of the tariff board.

The Senate sitting in the Committee of the Whole passed this bill by a vote of 34 to 32.

All of the Democrats voted against it and the progressive Republicans, Clapp of Minnesota, La Follette of Wisconsin and Kenyon of Iowa. All the votes cast for the measure were Republican votes.

This vote, however, had been taken in committee of the whole and La Follette, seizing upon the opportunity, quickly threw out the bill which he had introduced last year and the Democrats immediately rallied to his support. The vote on the La Follette bill, as a substitute for the Penrose bill, which had been substituted for the Democratic bill, was 39 to 27. All of the Democrats voted for the La Follette bill and so also did all of the insurgent Republicans, except Bourne of Oregon.

The La Follette bill as it passed the Senate provides for a duty of 35 per cent. on raw wool, with duties ranging from 40 to 55 per cent. on the manufactures of wool. This was the measure that served as the basis of compromise last session with the Democrats of the House, and the indications are it will again be used by Leader Underwood and his colleagues in sending a wool revision bill to the White House.

## GIRL ELOPES IN HER NIGHTIE.

Scranton Banker's Son Takes Her to New York.

Scranton, Pa.—With the trunk containing their clothes waiting in Detroit, Nelson Peck, son of William H. Peck, president of the Third National Bank, and Miss Martha Richmond, 19 years old, daughter of a barber shop proprietor, are supposed to be in New York, getting married.

The couple left here at 2 o'clock in the morning on the Lackawanna train bound for New York, after they had missed the train for the West that carried a trunk in which the clothing of each had been packed without the knowledge of their parents. Miss Richmond had been lying on a bed fully awake and fully dressed, with a nightgown over all, waiting for her father to get home from a lodge meeting.

Papa came at last, Miss Richmond joined her sweetheart and they took the first train out. Miss Richmond created a commotion in the depot by appearing in her nightgown, but raised the garment significantly while awaiting for the train to show it was only a bluff.

## KILLS IMMIGRATION OFFICER.

Man Barred from Canada Shoots Escort on Detroit Ferry.

Detroit.—Immigration Inspector H. C. Herbert, employed in the Canadian service, was shot four times and killed on a Windsor ferryboat at the Detroit landing.

William Ferguson, 57 years old and having only one leg, who was being deported, fired the shot. He was arrested.

Ferguson had made half a dozen attempts to cross into Canada.

## MANY LIVES TOLL OF SUDDEN FLOOD

Fourteen Drowned in Mine Near Uniontown, Pa.

## PROPERTY LOSS ENORMOUS

Swollen Creeks and Rivers Carry Away Homes, Livestock, Bridges and Railroads in Ohio and West Virginia.

Pittsburgh.—Death and wide-spread devastation from tremendous rains resulted in Western Pennsylvania, Eastern Ohio and West Virginia. From all sections come details telling of persons drowned or reported drowned, of hundreds of buildings wrecked or washed away, streets torn up and bridges swept down, crops ruined, light plants put out of commission and towns left to suffer their misery in darkness, while transportation, telegraph and telephone facilities are badly crippled.

At Evans Station, three miles north of Uniontown, Pa., a cloudburst sent waters raging into the mouth of the Superga No. 2 mines. Fourteen men were drowned like rats in a trap, while thirty-seven others had miraculous escapes from a similar death.

A few miles away, at Lemont Mine No. 2, three other men are reported to have been drowned in like fashion.

Up in the Red Stone Valley, near Brownsville, Pa., at least ten miners were caught while at work by flood waters entering the mines and drowned. At Millsboro, Pa., seventy-five miners had a narrow escape when the waters swept into the mines. All escaped, but not before many were exhausted.

For a radius of 100 miles around Pittsburgh there is a scene of desolation. Wrecked buildings are visible everywhere.

Fifty families were made homeless \$200,000 damage was done, buildings and bridges were washed away and railroad traffic was suspended at Dunbar by a cloudburst.

The upper Ohio valley, in the vicinity of Wheeling, W. Va., was swept by a destructive wind, rain and electrical storm, with the loss of three lives.

Pittsburgh.—Over sixty lives were claimed by the floods and cloudbursts in Southwestern Pennsylvania and West Virginia, and hundreds of homes and business houses destroyed.

Uniontown, Pa., leads the list of known dead with fifteen. At Wheeling, W. Va., three were drowned; at Lamont, Pa., four were drowned; at Elenwood, Pa., three were drowned, and thirty-six lives are reported to have been lost in other towns of the two states.

Uniontown, Lemont, Mount Braddock, Conneville and Dunbar, Pa., were inundated. In Turtle Creek Valley the damage is enormous and scores of families are homeless in the upper Youghiogheny Valley. Railroad traffic through a great territory is demoralized, especially so at Uniontown, where the tracks of two railroads were torn from their foundations.

Dunbar is a wreck. The County Commissioners estimate that nearly \$1,000,000 damage was done there. Eleven business houses were swept away, seventy-five residences were destroyed, streets torn up and bridges carried out.

Hunger is adding to the misery of the people.

## TAFT ELECTORS RESIGN.

Five of the Seven Minnesota Nominees to Go on T. R. Ticket.

St. Paul, Minn.—Seven of the Presidential electors selected at the State convention have refused to serve as Taft electors. Not all of them have presented their resignations to E. E. Smith, chairman of the Republican State central committee, but H. T. Halbert, chairman of the Fourth Congressional Roosevelt committee, has heard from six by letter and the seventh informally.

# WORK AMONG THE FARMERS

State's Educational Efforts Restricted by Small Appropriation

## TWO DAYS IN EVERY COUNTY

Four Counties Will Have Movable Schools of More Advanced Grade—Practical Instruction Given in Farming and Poultry Raising.

(Special Harrisburg Correspondence.)

Harrisburg.—Four hundred days of farmers' sessions have been arranged for 1912-13 by Deputy Secretary of Agriculture A. L. Martin, who is in charge of the State's educational work among the farmers. This is 40 less than last season, owing to the small appropriation. For the same reason but three lecturers will be assigned to each institute, but each will be a specialist. The Institutes will begin November 29 and continue until March 16th, being allotted to counties on a basis of 1,000 farmers. Every county has at least two days of institute, including Philadelphia's rural section, while Lancaster, which has the highest number of farms, has the most institutes. Four counties will have movable schools for farmers, which are conducted on a more advanced grade than the institutes and which last four days. They will be for practical instruction in farming, poultry raising, dairy work and other topics. The counties selected are Erie, Armstrong, Columbia and Lawrence. The first of the schools will open January 1. Eight counties made requests for the schools.

## Cow Labelers in Toils.

Since the order went out from the Pure Food Department to pay special attention to milk dealers who violate the law in summertime the agents of the department have made more than 100 arrests throughout the State. Decreasing milk nutrition by the addition of water is especially forbidden by law, because it cheats the purchaser in quantity, decreases the food value of the milk and is harmful to babies. Especially in the coal regions is this practiced, but recent reports show that in agricultural counties also the milkmen have been using the farm pump. In Allegheny, Crawford, Venango, Dauphin and other counties the agents have been particularly active, and many offenders were tripped up. In Venango county this week two Oil City milk dealers were caught with the watered milk in their cans, and prosecutions were ordered. In McKean county two dealers, one selling milk and the other cream, were caught disposing of dilutions far below the legal amount of butter fat.

## Tener Returns from West.

Governor Tener and his fellow members of the Pennsylvania Commission to the Panama-Pacific Exposition arrived home from San Francisco, whither they had gone to select and dedicate a site for the Pennsylvania Building. "Pennsylvania has obtained what many consider the best of all the State building sites for the exposition," said the Governor. The building will command a good view of the Golden Gate. The selection of this location is due to the intelligent foresight of the members of the Pennsylvania Society, composed of citizens of San Francisco who were formerly residents of the Keystone State. Members of the commission say that the one thing above all others which the people of California want from Pennsylvania is the exhibition of the Liberty Bell.

## Increase in Taxation.

An increase of \$7,360,093 in value of personal property assessed for State taxation, the highest of any county in the State outside of Philadelphia and Allegheny in years, has been reported to the Auditor General's department by Montgomery's County Commissioners. Ten counties of the 67 have made their returns and the gain on Montgomery alone is greater than the aggregate of gains in the nine others. The total valuation in Montgomery county is \$52,921,085, the figures for 1911 being \$45,560,992; for 1910, \$39,937,615; for 1909, \$34,257,566, and for 1908, \$31,727,665. This is the most remarkable gain of any of the counties in the State except the two larger ones. The Cambria county figures show \$6,460,070, a gain of \$974,500 over 1911.

## Instruct in Library Work.

The Pennsylvania Free Library Commission has opened its second annual summer school for library workers at State College.

## No Poison in Viscera.

Dr. George R. Moffitt, a chemist of this city, has examined the viscera of Allen Green, late of Weissport, Carbon County, whose wife is charged with his murder. The analysis was made at the request of the Carbon County authorities. No poison was found in the viscera, but traces were discovered in two bottles and a "Johnny cake" found in an outhouse at the Allen home. The lack of poison in the intestines of the dead man, the chemist says, does not indicate that none was administered to the man.

# OLD AND NEW WORLD BRIEFS FOR THE BUSY

Hughy Jennings, manager of the Detroit Tigers, picks Washington for second place in the American League race.

Charles J. Hemphill, last year with the Yankees, and this season manager of the Atlanta club, of the Southern League, has lost his job.

Nicholas Murray Butler, president of Columbia University, received from Prime Minister Poincare of France the decoration of a Commander of the Legion of Honor.

Gov. Woodrow Wilson made a statement of his position on the immigration question. Then he went into seclusion to write his letter of acceptance.

Because 12 girl spinners struck in the John and James Dobson Mills, Falls of Schuylkill, near Philadelphia, the entire force of 2,500 operatives was locked out.

## THE MARKETS.

(New York Wholesale Prices.)

MILK.—The wholesale milk price is 3½¢ a quart, in the 26¢ zone, or \$1.71 per 40-quart can.
