Another Horrible Example

Another "horiable example, " as the temperance workers put it, occurred in Southwest Chicago this week. Three hundred and twentydollar gold pieces were melted into a solid chunk and five hundred in currency burned up. A prosperous truck-farmer—afraid of the banks -had stored them in his corn crib which, in his absence, burned to the ground.

WIRELESS AIDS L'AN CUPID

Most Modern of Methodis Seized on for Use of the Resourceful God of Love.

Cupid has sped his dark by devious ways. The address of a guileless country maid, written on the shell of a new-laid egg has been known to bring her a husband. The girl in the factory has often scribbled her name and address on the material which she helped to make and it has more than once fallen into the hands of a mechanic many miles away and wed-ding bells have rung. The telephone has cemented romances galore and "Central" has captured her future lord and master by her silvery "hello!" Even the airship has entered the service of Little Dan Cupid.

So far as is known, however, for the first time wireless telegraphy has been responsible for uniting two lov-ing hearts that never would have met had it not been for the mysterious ether waves carrying messages of

other waves carrying messages of love and endearment.

The young man who has added wireless to the "Aids to Cupid" is Arthur Barr of Elizabeth, N. J. For more than a year he has been experimenting with "C. Q. D.s" and other signals with fellow amateur wireless operators. Their experiments stopped some time ago. Strange messages from the direction of Staten Island was the cause. When Arthur de-ciphered these he suspected there was "a woman in the case."

Barr's suspicions proved correct. In Mariner's Harbor Elsie Shelton, eighteen years old, had been tampering with the wireless apparatus which her brother had rigged. By watching him she had learned to send messages and receive answers. She soon picked up Barr's "Marconigrams" and translated them into the language of love The messages continued. The couple met and Barr soon expects to make Miss Shelton his wireless bride.

Old Lady Wound Up With Excellent Reason for Not Liking the Dominie's Sermon.

Walter D. Moody, meanaging director of the Chicago plan commission, told the following story at a recent luncheon of the Chicago real estate

A Scotch clergyman who had made a particularly brilliant attempt (as he thought) in the preparation of a certain sermon, felt highly elated on the Sunday on which it was delivered.

Walking home from church after the service he encountered an old lady who was one of his stanchest parishoners. Slipping his arm through

hers he asked: "Aunty, how did you like my ser-mon today?" Expecting, of course, to receive a fine word of approval from the devout old lady, who was a great admirer of the minister, he was chagrined when she replied: minie, I did not like it.'

"You did not like it, aunty! Well, what was the reason?"

"There are three reasons. "Three reasons! I declare! I pray

That was not disconcerting, so the minister pressed the old lady for the second reason.

"Well," she said, "I did not like the way you read it."

"Come now, aunty," continued the minister, "that is not so bad. What was the final reacon?" minister, "that is not a was the final reason?"

"Well, I dinna like to tell you, good dominie, but I thought it wasn't worth reading."

Glass Paving Fails. Seven or eight years ago a plant

was established at La Demie Lune, a suburb about four miles from Lyons, for making glass paving material.

After many experiments carried out at the factory, the manufacturer applied to the Lyons municipality for the right to make a trial on one of the chief thoroughfares. The necessary authorization was granted, provided that the inventor would bear the en-For premium list address O. N. The passing of co-education at Wesleyan University is made notable by the fact that every young woman in the graduating class this year, which is to be the last class of women to reeive diplomas from the university, has been awarded honorary membership in the high scholarship society of Phi Beta Kappa. Only a small proportion of the men received this honor. One of the arguments which the men students have advanced against

co-education, which becomes extinct at Wesleyan this year, is that the young women have taken scholarship honors which otherwise would have gone to men.—Washington Evening

Family Groups.

I know some people who have been indulging in a family group. Which is all right, if they feel that way about it. But where are they going to keep it? I have one down cellar

Royal Letters Prized.

Royal letter writers may expect that, in the vicissitudes of the centuries,

their popularity will come to the test

of that democratic implement, the auc-

tioneer's hammer. Judged by this

standard, King Edward III. and Queen

Elizabeth have no reason to feel slighted. In London the other day one

of the king's letters sold for \$1,450, and a letter from Queen Elizabeth to Henry III. of France brought \$1,225.

No Monument to Eve.

The proposal to erect a statue in honor of Eve may be dismissed with-
