There are many remedies given whereby the house may be rid of flies. The butchers and dairymen of Switzerland claim that oil of bay rubbed on their walls rid their shelves and about their walls rid their stalls and dairies of flies. It is also used in Paris to protect chandeliers and picture frames from specking. This simple preventive may be had from any chemist, is expensive, and said to be effectual.

McConnellsburg boasts not of a railroad, but it is proud of the fact that in 1900 an automobile, that latest of modern means of transportation, has invaded its quiet, hilly and picturesque precincts. A party of Hagerstown capitalists tarried in this historic mountain town Saturday last, on the journey via an "auto," to Bedford Springs. Will the gentlemen speed to Chambersburg on the return trip? We don't want to be too far behind McConnellsburg.—Public Opinion.

The body of Richard Dye, of Cumberland, was found lying in the bottom of the Potomac river near Hancock on the 3rd inst. An inquest held and the jury rendered the following verdict: "That the man whose identity was not known at the time of the inquest, came to his death on the night preceding the day on which the body was found, by a blow administered on the forehead with some blunt instrument, at the hands of some unknown person." Indications point altogether to the body having been placed in the water after death.

FREE PICTURES EVERY WEEK.

The Most Magnificent Series of Pictures Ever Distributed.

The appreciation of the recent pictures given free to readers of the great "Philadelphia Sunday Press" has induced the management of that paper to announce that a beautiful picture will be given with every copy of the "Philadelphia Sunday Press" every Sunday. The assurance is also given that this series of pictures will be the most magnificent ever distributed. The subjects are all original and by the highest class of artists.

The picture for next Sunday, June 24, will be a decided novelty. It will be 14x20 inches in size and its prominent feature will be a reproduction of Percy Moran's famous water color, "The Ideal Summer Girl." Mr. William Patterson of Ayr township, reached the 77th milestone along the journey toward life, last Saturday. The family of Mr. William H. Paylor his tenant farmer, with whom he has his home part of the time, determined to give Mr. Patterson a surprise. Friends were quietly invited and a sumptuous dinner was prepared, all without the knowledge of Mr. Patterson until the guests began to arrive about noon. Mr. Patterson was born on the farm which he now owns and where he has spent the entire seventy-seven years of his life. He is one of Nature's true gentlemen, possessing an integrity and excellence of Christian character well worthy of imitation.
