Washington (Special).-The State Department has made public some important correspondence between Li Hung Chang and the department regarding the suggested abandonment of the campaign against Pekin. It is in the form of a cablegram from Secretary Hay sent to the United States Embassies in Berlin, London, Paris. Rome and St. Petersburg and to the United States Minister at Tokio, as follows:

"In replying to a suggestion of Li Hung Chang that the Ministers might be sent under safe escort to Tientsin, provided the powers would engage not to march on Pekin, the Secretary of State replied on the 30th of July as

No negotiations seem advisable until the Chinese Government shall have out the diplomatic representatives of the powers in full and free communication with their respective Govern-ments and remove all danger to their lives and liberty. We would urge Earl Li earnestly to advise the imperial authorities of China to place them-selves in friendly communication and co-operation with the relief expedi-tion. No orders, therefore, looking to a relaxation of the preparations for the advance on Pekin have gone out from Washington, for, as the situa-tion is described by one of the leading officials here, "there will be no bar-gaining on our part in advance of the concession by the Chinese authorities of full and free communication with the foreign Ministers."

The marine hospital service authorities say the instructions already given to quar-antine officers safeguarding our ports against the disease are ample, and they express confidence that the disease is not likely to reach this country. At the same time, the bare possibility of danger through shipping coming from that port, or through possible communication of the disease in the event that the patients had not been under timely surveillance, is not overlooked and quarantine officers will be especially watchful in the enforcement of the regulations.

met with a reverse at the outset. Definite news of the advance has ome to M. Favereau, Belgian Minister of Foreign Affairs, in a cablegram from the Belgian representative at Taku. This message states that the allies have already covered 18 miles of the 78 between Tientsin and Pekin. Another dispatch says that the Japanese vanguard of the allies has been re-pulsed with a loss of 150 in killed and vounded.

About 30,000 troops, it is estimated in London, were available at Tientsin for the advance. Thirty thousand more have landed at Taku and Chefu, but have not yet gotten to Tientsin.

A letter dated July 24 from Sir Claude MacDonald, British Minister at Pekin, has come through. He said that if the Chinese did not press the attack the foreigners could hold out 10 days. The Pekin Government, he added, had done nothing to help the foreigners. Dr. George E. Morrison, the

Fimes correspondent in Pekin, managed to send a message to his pa-per under date of July 21. He says Chinese Government encouraged the Boxers until the advance of the illies from Taku caused a change of tune. Baron von Ketteler, he states, was murdered by order of a Chinese imperial officer. Dr. Robert Coltman, Jr., correspondent of the Chicago Record in Pekin, has also been heard from under date of July 21. He says the foreigners were living on rice and horse flesh. A truce was in force after a long period of fighting. The United States marines, commanded by Capt. "Jack" Myers, hold a vital posi-tion on the city wall and had fought like heroes. Dr. Thomas M. Lippitt, assistant surgeon with the United States marines, had been wounded. He is from Berryville, Va.

It is now beginning to appear clearly that if the Ministers in Pekin are saved it will be chiefly due to Li Hung Chang. He has memorialized the throne to have the Ministers escorted out of Pekin to a place of safety or that they be allowed to communicate freely with their governments. Li is ising all his great influence at this time in behalf of the foreigners. According to a dispatch received at Shanghai he has learned that the foreigners were safe up to July 28.

These allege the unlawful ONE KILLED WHO RESISTED drawing of two orders for \$500 each, paying his private coachman and gardener from the postal funds, and drawing per diem allowance when not on titled so to do. The accused was held in bonds of \$25,000.

Rathbone remained in the courtthe judge in the matter of the accept ance of Francisco Gamba, one of the richest Spanish merchants of Havana, as bondsman for \$25,000. Rathbone was obliged to go to the guardhouse because the Judge ruled that Gamba could not go on the bond without the consent of his business partner. Rathbone's lawyer brought Senor Gamba to the courtroom at noon, and after two hours' argument the judge said that he was willing to accept Gamba as bondsman if the military authorities were satisfied. When Captain Scott was appealed to he sent three aides to report on Gamba's financial standing. All reported favorably and sent word to the judge that the military authorities were satisfied as to the financial qualifications of the bondsman, and advised accepting, provided no other impediment should be found. After consulting the law firm that is representing the Government in the case, the judge ruled adversely and Rathbone was taken to the guardhouse.

Mr. Rathbone's lawyers say the bond
