Talk to Farm Boys. There is a desire on the part of many boys raised on the farm to seek employment in the city. There seems to be a sort of fascination in city life, because of the amusements and education. The that it is one of extreme enjoylooks at and envies the well dressed city boy, he does not see the temptations and evil influand sedentary habits upon the body. He is governed only by appearances. The country boy is as free as air. He comes under the most wholesome influences and is not subjected daily to those awful temptations which lead to corruption and degredation, those evil influences which work their way so quietly and yet so surely into one's life. He is in a position to develop a sound body and a sound mind, and the conditions under which he is brought up gives him stability and determination. He is accustomed to hard work, is permitted to share some of the care and responsibility connected with earning a livelihood, and when thrown on his own resources is able to meet the stern realities of life face to face, without timidity and without fear of shouldering any burden which may be placed upon him. He may not have the polish that mental training gives, but he is fami-

than any amount of ornamental learning. As far as superiority is concerned, it may be in evidence in a farmer as well as any one. It is brought about, not by the occupation, but by the organization of the faculties, the absolute adherence to the universally recognized principles of right. If it falls to your lot to be countrybred, be proud of the fact and improve your opportunities, which will bring you to the height of ambition,-E. D. Houghland, in Prarie Farmer.

HIRED GIRL'S PROGRESS.

Fable Showing Wisdom of Silence

Once upon a time there came into the city from the country a girl. The girl wandered from her happy home to secure employment among the wealthy families of the city, and when she made known the fact that she was willing to work many persons sought her and implored her to engage with them in domestic pursuits. The girl was overwhelmed with offers, but finally made a selection and settled in a family that valued her services very highly. The girl was happy until one day her employer met a neighbor, a very dear friend, and told her of her good fortune in finding the country girl. And this neighbor met another very dear friend and told her of her other friend's good luck, and thus did It become generally known that there was a good "hired girl" in the neighborhood. And from that time on the mistress

and the girl were unhappy until one day the very dear friend gave the girl \$1.50 more a week than she was earning in her first place, and in this manner did the girl become happy again, while her mistress and the very dear friend ceased to be on speaking terms. And then the girl became unhappy again until the other very dear friend engaged her at an advance of \$1, and the other dear friend and the first dear friend consed to talk over the back fence. And then the good girl wore fine dresses and fine hats, and one day a dashing young man led her to the altar, and now the three friends and the poor country girl are all very

"Well, the dachshund reached the collar button and at once swallowed it. It stuck half way down and thickened the dog so that he couldn't pull himself past the lump. So Stimler had to call in the janitor of the flat, and they lifted the bureau off the dog.'

"What about the button?" "Stimler said he'd let the dog keep the button. He might need it." "Need It?"
