DEATH RECORD.

Who Have Been Called to Their Final Reward During the Week.

WALKER—Captain John Walker of Fannettsburg, was buried yesterday (Wednesday) afternoon at 2 o'clock—at the same hour as two weeks after the interment of his wife, mention of which was made in this paper. He was captain of a company in the 126th Regiment P. V. Infantry during the Civil War.

PORTER—On last Thursday morning at his home in Wellington, Kansas, Hon. Jeremiah Porter, a former well known resident of McConnellsburg passed from this life.

Mr. Porter owned at one time Frank Mason farm adjoining the Washington House another time. He received his commission from the office of assistant judge in this county. He was married twice. His first wife was a Miss Baker; and when she was born one child, who died in womanhood and became the first wife of R. M. Kendall, of Dover. After the death of his wife, Mr. Porter married Mrs. Marian Hoke, sister of our former Mayor, G. N. Hoke. To them were born five children—George, John, Maggie and Lizzie. George, John and Maggie are married and all have prosperous homes in this county. Lizzie has been cashier of a large mercantile establishment for several years.

ELIXON—At the family home of Malpa, Md., on Friday, December 14, 1900, after an illness of a week or two, Mrs. John Elixon passed to her long rest at the age of about 33 years.

She was a daughter of Mr. and Mrs. Thomas Rash of Belfast, and had been married about seven years. Interment took place at Warfordsburg, Saturday afternoon.

She was survived by her husband and three children, the youngest of whom is only two weeks of age; also by the following brothers and sisters: Mrs. Calvin Peck, A. J. Pittman, Mrs. George S. Williams, William Rash at Warfordsburg, Daniel, at home, and Maryland.

Mr. Hixson was a consistent member of the M. E. church, having given her heart to Christ quite a young girl, and her simple and pure faith cannot but leave its impress upon the hearts of those who have known her.

HOKE—Lewis A. Hoke a former resident of McConnellsburg passed away at his home at Latrobe last evening. He was a son of Henry Hoke a former well known citizen of this place and was born March 22, 1838. When a child he entered a store in Chambersburg where he acquired a practical knowledge of the mercantile life. He then traveled extensively for a St. Louis merchant, during the war of the rebellion he became a member of the 11th Maine, and after the war he was engaged in business in the room now occupied by H. C. Smith & Co., and he went to Latrobe, and then to Chambersburg, where he conducted an extensive dry goods business very successfully for several years. He then turned his attention to the grocery business, and was eminently successful.

On December 20, 1864 he was married to Laura Hoke daughter of Wm. Hoke, at that time a resident of McConnellsburg and the house now the residence of John W. Greathend, the brother of Jacob and Elias Greathend, and Mrs. Shepler, of Chambersburg, and a sister of George, and a sister

The Entertainment.

The Thalian Club is a literary organization composed of about three dozen young people. It has been their custom, once a year to give a public entertainment in the Court House. These entertainments are usually made up of a good play, a farce, and good music. So popular are these entertainments that it usually taxes the seating capacity of the court room to its utmost limit to accommodate the audience.

The money realized has usually been donated to some public enterprise—one year to the Soldiers' Monument fund; another, to the McConnellsburg School Library; and, again, to the McConnellsburg Band, and this year to a fund to establish a school library at Webster Mills.

The names of those engaged in the play last week are Dr. Garthwaite, Merrill Nace, Hal Trout, Horace Nace, Wells Greathend, and Misses Emily V. Greathend, Bessie Trout, Jessie Nace, Nellie Nace, Katherine Cook, Mary Robinson, and Minnie Reiser.

The rendering of the play was frigate and greatly enjoyed by the audience.

The gross receipts amounted to almost seventy-five dollars; but by the time the expenses were paid—ten dollars for the use of the Court House, ten dollars for the construction of a stage, ten dollars for use of piano, janitor's fees, cost of paraphernalia, &c.—the net proceeds was not so great. The colored farce was especially funny.

A young lady's Ma, had gone to look after a recreant husband; and, in her absence, a colored church choir getting wrong address, appear. The young lady, supposing that her Ma, intended to take colored boarders, received them. The colored folks take possession; and during the absence of the parent, rehearse not only Zion hymns, but indulge in a genuine cake walk and hoe down, that would have done credit to the colored residents of Spring House Valley.

Plum Run.

Every one seems to be thinking about Christmas—The turkeys, too, seem somewhat uneasy.

THE NEW RAILROAD.

New York Capitalists Ready to Put up Three Fourths of the Money if our People will Subscribe the Other Fourth.

The New York people who are willing to join us in building a railroad, want us now to "put up or shut up." They say if Fulton county people think a railroad is a good thing, they should be willing to back up that opinion with a reasonable amount of coin.

Through their representative, J. J. VanHorne, they suggested one of the following methods:

1 We Fulton county people subscribe for the entire \$200,000 of stock, with the understanding that the New York end of the concern take all of it off our hands above \$25,000 worth.

2 We subscribe for \$25,000 worth, and they for the remainder—\$175,000.

By the former plan we would have the entire management of the Railroad Company; by the latter, they would co-operate.

"But in either case," says Mr. VanHorne, "we can do nothing with you or for you without a clear and definite statement assuring us that you accept our proposition and will co-operate with us in the construction of the road that is the first step to be taken by you, as anything we may do, depends upon that."

"We have made you a plain specific proposition, and you should either accept it or reject it. If you accept it, we can very soon get together, and get the enterprise under way. If you do not wish to accept it, we can then take up other propositions pending. If you mean business, and mean to co-operate with us, please send us a statement to that effect signed by your responsible representative men and let us know which method of securing charter you prefer."

The second step will be to circulate subscription papers and secure subscription to stocks specifying what proportion will be paid in money and what in labor or material. The 10 per cent, need not necessarily be paid when subscription is made, but may be paid in on demand when the list is complete. You can hold the fund in your local bank and we will deposit our \$15,000 here subject to the Company's order.

After receiving the charter, the subscribers will be notified by the Secretary to meet for the purpose of organizing the Railroad Company under the Charter granted; and, fourth, the Railroad Company will make a contract with the construction Company to build the road.

This is the method of procedure—a very plain and simple one; and every subscriber has a voice and vote for every share of stock he holds.

Simon of Warfordsburg, and at nine o'clock in the morning the happy couple were pronounced man and wife—only a few of the immediate friends of the family being present.

Immediately after the ceremony breakfast was served, and the bride and groom went to McConnellsburg where they were entertained at tea by Mr. and Mrs. J. K. Johnston, Mrs. Johnston being Mr. Kendall's sister. Late in the evening the bridal couple drove to Mr. Kendall's residence.

By Sunday night all damage was repaired and the boys with the exception of a few unhealed bruises were as good as ever.

Mr. Levi Crawford of Buck Valley has a horse that is exceedingly useful and gentle toward the family, but which has a peculiar aversion to cattle. A short time ago the horse was loose, and seeing a favorable opportunity kicked both horns off one of Mr. Crawford's cows. Last Thursday the horse was turned out to go to water, not thinking of the cattle. In the barnyard espousing one of Mr. Crawford's most valuable cows, wheeled around and viciously kicked the inoffensive animal squarely in the forehead dropping her dead as effectually as a blow from a butcher's ax.
