Makine Haste to Forget. The old-fashioned Congressmen used to keep diaries and history has been enriched by some of them. A Wash-ington correspondent now says that he does not know of a single man in either branch of Congress or in public life who takes the trouble to record the thoughts and experiences of each day. Perhaps they desire to forget these thoughts and experiences, or perhaps they depend upon the Con-

gressional Record to register all their thoughts and some things that they don't think. Caught in the Act. "You are my prisoner!" "But I am innocent!" For Table Decoration.

Ribbons have returned to favor for table decoration. A pretty lunch table recently was merely decorated by two long lines of pluk satin tibbons laid all the way down the table, with a space of about two feet between them. in which silver vases of marguerites were placed. Another pretty table had a large how and ends in messgreen moire ribbon placed at one side only and starting from under a silver vase of flowers and follage. There was a similar wase in each corner, but the ulbhon only started from one.

Ritchen Furnishing.

Mrs. Dunham Wheeler originated the idea of using on kluchen walls the white ollcloth sold everywhere for tables. It comes in pretty designs of blue and white, and is easily washed. Kitchen walls treated with this preserve for a long time their daintiness When a landlord is obdurate and will not paint, you can, therefore, with a hammer and fine tacks, if you cannot afford the services of a paper-langer. have the walls transformed in spite of him, and a pleasant and refreshing tone given to the kitchen. This tone is given by the architect to-large and important kitchens, by the marble and the tiling of the walls and the ceilings and the nickel-plated pipes that are introduced. The tiles in these instances are a study in themselves. But the architect seldom expends any of his energies on the apartment kitchen. Almost everything in the way of beautifying is therefore left to the individual tenant. It is well for this tenant to remember that the lower one desends in the scale of wealth or of social importance, the more the apartment kitchen is in evidence, and the point that I have always maintained is that the kitchen in just these apartments should be made as interesting as any other room .- Harper's Bazar.
