Through wet weather or dry—cold or warm—the subscription list of the News moves steadily ahead. The number of new subscribers for April 1901 is but one less than the number for April of last year, and this without any solicitation on our part.

The "slickest" little daily that comes to our print shop is Public Opinion, a late enterprise of Messrs. Runk and Hoke, proprietors of the Public Opinion plant, Chambersburg. There is a magnetism in its appearance that will win friends. Chambersburg has now both a morning and an evening daily.

Charley Wilkinson is as busy as a nailer these days. He has erected a new blacksmith shop 50x24 feet on the Commons just west of the Presbyterian church, has one forge completed and another nearly done, and is in shape to serve his old customers and any new ones that may feel like favoring him with their patronage.

Mr. Wilkinson needs no introduction. He conducted a shop down at Ayr eleven years, and spent last year over at Foltz. While working in a machine shop twenty-eight years ago, a piece of steel flew into the left eyeball of Daniel Gilbert of Chambersburg, which resulted in total blindness of that eye since that time. It, becoming very painful of late, Mr. Gilbert, recently submitted to a surgical operation, by which the piece of steel was removed and sight again restored. The presence of four strange capitalists in our township, leasing all the land they can get hold of has a tendency to intensify the mineral excitement. Report has it that machinery will be here and in operation by the middle of May, and a thorough test will be made. There is no longer any doubt existing as to the presence of several valuable minerals; the only question now to be settled is, Does it exist in paying quantities? Experienced metallurgists and practical miners have carefully examined the field; and the fact that they are anxious to secure leases on the land and advance cash, is evidence that they, at least think there is something worth looking after.

One of the salesmen of Hecker man's Peerless Horse & Cattle Powder has in the last three months seen and taken the names of eighty one different brands of cattle powder and only one of them was a ten cent package and it only weighed a half pound and we believe you would agree with us that Peerless Powder at 10c a pound pack is as good as any of them if you could try them all. The profit for the merchant on Peerless Powder is not large. In fact so small that many of the drug stores will not handle it which we believe is quite a recommendation for it. Try a pack of it and convince yourself.

Honeymoons seem gradually disappearing, says the "London Graphic." Their days are shortened, their severity is being modified. The fortnight of our grandmother's honeymoon has merged into a few days, and during that time all kinds of amusements are admissible. We read of brides going out hunting, attending theatres (abroad in this case) paying visits and otherwise mitigating the seriousness of the tete-a-tete, until it is quite possible that we may be approaching the extinction of the honeymoon.
