

A GREAT REFRESHMENT.

Dr. Talmage Says God is a Fountain of Joy That is Unappreciated.

An Everlasting Well of Gladness—Water for the Thirsty.

Copyright 1901.

WASHINGTON, D. C.—In this discourse Dr. Talmage represents religion as a great refreshment and invites all the world to come and receive it.

There is a great refreshment in the world. It is a fountain of joy that is unappreciated. It is a well of gladness that is everlastingly full.

Subject Abraham's Intercession, Gen. xviii. 16-33—Golden Text, James v. 16—Memory Verses, 23-25—Commentary on the Day's Lesson.

Introduction.—Our lesson contains the preliminary events of one of the most awful tragedies in the world's history.

The cup of Sodom's iniquity was full, and that city ripe for destruction. Although God is merciful yet He will not always strive with man.

The more closely we walk with God the more we shall know His mind about every thing. "Think which I do."

"I will go down and see if the city be as wicked as they say." "Behold, I will bring down Sodom and Gomorrah."

PURE FOOD

LAW VIOLATED.

Interesting Facts Concerning the Heating of Coffee Brought Out by Scientific Experiments—Presence of Bacteria.

TOLLEDO, August 10th.—The jury in Judge Meek's court in this city has found James White, a local grocer, guilty of selling adulterated coffee.

The State of Ohio, through the Pure Food Commission, prosecuted White. The case was on trial for nearly a month, and attracted national attention.

The manufacturers of Ariosa coffee conducted the defense for Grocer White. Attorneys of eminence were retained to defend him.

The complaint of the State of Ohio was that Ariosa coffee was coated with a substance which concealed defects in the coffee and made it appear better than it is.

The defense secured some of the most eminent chemists and scientists in the United States to give testimony in their behalf.

The experts who heard Dr. Wiley's testimony were pleased to listen to so famous a chemist. The doctor at one point in his testimony explained very clearly how it is that the egg put into the coffee pot by the housewife settles the coffee.

Professor Wiley acknowledged that the glazing might be a favorable medium for the propagation of bacteria, although he would not testify positively either way because he was not a bacteriologist.

Professor Vaughn, of Ann Arbor, also a witness for the defense, said he found bacteria on Ariosa coffee.

Professor Biele, another witness for the defense, testified he found many number of lively bacteria on Ariosa coffee he examined, and agreed that glazed coffee surely was a more favorable medium for the propagation of bacteria than unglazed coffee.

Pure Food Commissioner Blackburn says: "The State is very much elated over its victory. We are now considering the advisability of informing every grocer in the State of Ohio that it is an infraction of the laws to sell Ariosa, and at the same time give warning to consumers that the coffee is an adulterated food article."

The verdict of the jury in this case is of national importance because a great many other States have pure food laws like that of Ohio, and it is natural to suppose that similar action will be taken by other Pure Food Commissioners to prevent the sale of glazed coffee.

Bread-making's Importance. Undoubtedly the day of really good bread is dawdling. The "new woman" has now come to the rescue.

"Last year," she began, as she halted in front of the grocery to gaze at a pile of watermelons, "last year I bought sixteen different watermelons of you, and not one of them was ripe."

"Yes, I know," replied the grocer. "And this year—"

"This year, madam, you will buy sixteen others of me, and not one will be green. That's the way it goes, you know. Last year was an off year, while this year is all right. I'll send down that large speckled fellow with a hump to it."

Some Fatherly Advice.

There is one man in Cook county who is bringing up his boys in the way they should go, and if they don't go in the fault won't be his.

"Father, I'm invited to a party, and there's going to be dancing, and I need a dress suit."

"Yes, Well, why don't you get it?" "I haven't the money."

"In spite of the lucky stone you carry in your pocket you lost all your money and a sign fell on you and broke your arm."

"Yes; but wasn't it fortunate I had that lucky stone? Think what might have happened to me otherwise!"
