Constantinople (By Cable), - The Quays Company question has been settled, as expected, in accordance with the desires of France.

An imperial irade has been issued ordering that the company shall be al-lowed to exercise freely all the rights granted by the concession. Paris (By Cable).-The official com-

DENMARK WILL SELL ISLANDS.

The Government, However, Thinks the Price Rather Too Small.

Copenhagen (By Cable) - A prominent politician, in the counsels of the ministry, says that the sale of the Danish West Indies, it was confidently ex-pected, would be consummated before the close of the present year. The King and the new Cabinet have both concluded that it is absolutely, necessary for Denmark to dispose of the islands and a watority of the Risedoc

islands, and a majority of the Rigsdag favors the sale, as does also the public. The only dissatisfaction, the correspondent's informant further said, arises in connection with the price, \$3,750,000, being considered too small. However, the final approval of the Rigsdag is be-lieved to be assured, and it is expected that legislative ratification will be given in Washington in December.
